The Selected Writings and Speeches of Sir Edward Coke Sir Edward Coke,2003 The Selected Writings of Sir Edward Coke includes selections from the four volumes of the Institutes and cases from the Reports, and several of Coke's speeches in Parliament. Taken together, these writings delineate the origin and nature of the modern common law and indicate the profound interrelationship in the English tradition of custom, common law, authority (of both Crown and Commons), and individual liberty. Coke's great law books and speeches are well represented on Magna Carta, citizenship, habeas corpus, freedom from wrongful search and arrest, the origins of law, judicial review, administrative law, judging, criminal law, the moral obligations of officials, the powers of King, Parliament, church, and the law, property and rights, and the profession and study of law. The Selected Writings of Sir Edward Coke is the first anthology of his works ever published.

Writing Migration through the Body Emma Bond,2018-09-05 Writing Migration through the Body builds a study of the body as a mutable site for negotiating and articulating the transnational experience of mobility. At its core stands a selection of recent migration stories in Italian, which are brought into dialogue with related material from cultural studies and the visual arts. Occupying no single disciplinary space, and drawing upon an elaborate theoretical framework ranging from phenomenology to anthropology, human geography and memory studies, this volume explores the ways in which the skin itself operates as a border, and brings to the surface the processes by which a sense of place and self are described and communicated through the migrant body. Through investigating key concepts and practices of transnational embodied experience, the book develops the interpretative principle that the individual bodies which move in contemporary migration flows are the primary agents through which the transcultural passages of images, emotions, ideas, memories – and also histories and possible futures – are enacted.

Comparative Hagiology Massimo Rondolino,2020-12-10 This Special Issue engages with questions of theory and methods in the comparative, cross-cultural study of hagiographical sources. As such, it offers, first and foremost, the venue for conducting a scientific discussion on a (re)definition of hagiography. It also allows for the identification of shared approaches and methodologies in the study of material that may be apprehended through this categorization, as an effective strategy for the study of religious phenomena. To achieve this, the present volume brings together a selected number of scholars, whose work focuses on the theoretical study of hagiography and the historical examination of hagiographical sources. In this Special Issue, five core essays put forward propositions for the comparative and cross-cultural (re)definition of hagiography, to which further contributors respond, eventually providing a vibrant collaborative debate on a core theoretical and methodological issue in religious studies at large.

The Content Machine Michael Bhaskar,2013-10 This ground-breaking study, the first of its kind, outlines a theory of publishing that allows publishing houses to focus on their core competencies in times of crisis. Tracing the history of publishing from the press works of fifteenth-century Germany to twenty-first-century Silicon Valley, via Venice, Beijing, Paris and London, and fusing media theory and business experience, 'The Content Machine' offers a new understanding of content, publishing and technology, and defiantly answers those who contend that publishing has no future in a digital age.

Aquinas on Israel and the Church Matthew A Tapie,2015-02-26 Theologians have long debated the significance of the Jewish religion for the Christian Church. Some scholars see Thomas Aquinas as the leading advocate of the belief that Israel has been superceded by the Church, while others hold that Aquinas avoids supersessionism altogether. The discussion has, however, not always analysed the terminology, nor has it taken into account some of Aquinas's commentaries on Paul's letters, his writings most relevant to the subject. Drawing upon the Pauline commentaries, Matthew Tapie shows that while Aquinas's most commonly articulated view is that the passion of Christ made Jewish worship and the Mosaic law obsolete, Aquinas also advanced views that set this into question, in ways that support Christian teachings affirming the value of post-biblical Judaism. In doing so, he provides both a rich and timely reminder of the ambiguities in Aquinas's thought and makes an important contribution to the literature of supersessionism.

The First Part of the Institutes of the Laws of England Sir Edward Coke,1791 Includes numerous corrections and additions begun by Francis Hargrave and completed by Charles Butler. It is virtually a legal encyclopedia.

Why the Middle Ages Matter Celia Chazelle,Simon Doubleday,Felice Lifshitz,Amy G. Remensnyder,2012-02-20 The word medieval is often used in a negative way when talking about contemporary issues; Why the Middle Ages Matter refreshes our thinking about this historical era, and our own, by looking at some pressing concerns from today's world, asking how these issues were really handled in the medieval period, and showing why the past matters now. The contributors here cover topics such as torture, animal rights, marriage, sexuality, imprisonment, refugees, poverty and end of life care. They shed light on relations between Christians and Muslims and on political leadership. This collection challenges many negative stereotypes of medieval people, revealing a world from which, for instance, much could be learned about looking after the spiritual needs of the dying, and about integrating prisoners into the wider community with the emphasis on reconciliation between victim and criminal. It represents a

new level of engagement with issues of social justice by medievalists and provides a highly engaging way into studying the middle ages for students--

Curation Michael Bhaskar,2016-06-02 'A terrific and important book . . . it's a great, fresh take on how the 21st century is transforming the way we select everything from food to music' David Bodanis, author of E=MC2 In the past two years humanity has produced more data than the rest of human history combined. We carry a library of data in our pockets, accessible at any second. We have more information and more goods at our disposal than we know what to do with. There is no longer any competitive advantage in creating more information. Today, value lies in curation: selecting, finding and cutting down to show what really matters. Curation reveals how a little-used word from the world of museums became a crucial and at times controversial strategy for the twenty-first century. Today's most successful companies - Apple, Netflix, Amazon - have used curation to power their growth, by offering customers more tailored and appropriate choices. Curation answers the question of how we can live and prosper in an age of information overload. In the context of excess, it is not only a sound business strategy, but a way to make sense of the world.

The Ballad of the Lone Medievalist Kisha G. Tracy,John P. Sexton,2018 Working medievalists are often the only scholar of the Middle Ages in a department, a university, or a hundred-mile radius. While working to build a body of focused scholarly work, the lone medievalist is expected to be a generalist in the classroom and a contributing member of a campus community that rarely offers disciplinary community in return. As a result, overtasked and single medievalists often find it challenging to advocate for their work and field. As other responsibilities and expectations crowd in, we come to feel disconnected from the projects and subjects that sustain our intellectual passion. An insidious isolation even from one another creeps in, and soon, even attending a conference of fellow medievalists can become a lonely experience. Surrounded by scholars with greater institutional support, lower teaching loads, or more robust research agendas, we may feel alienated from our work - the work to which we've dedicated our careers. The Lone Medievalist (the collaborative community and the book) is intended as an antidote to the problem of professional isolation. It is offered in the spirit of common weal that marks the ideals (if not always the realities) of so many of the communities we study - agricultural, professional, national, notional, and of course, monastic. The Ballad of the Lone Medievalist isn't only about scholarship, or teaching, or institutional life, or the pursuit of new learning - it's about all of them. The essays in this volume address all aspects of the professional and intellectual life of medievalists. Though many of us acknowledge and address the challenges in being Lone Medievalists, these essays are not intended as voces clamantium; they are offered to provide strategies, camaraderie, and an occasional bit of inspiration. They are a call to action, a sharing of hard-won wisdom, and a helping hand - and, above all, a reminder that we are not alone.
