But if she is to succeed, she must bide her time and find a way to outsmart the clever, fast, and inhumanly strong trolls that hold her captive. But while awaiting the perfect opportunity, Cécile unexpectedly falls for the enigmatic troll prince to whom she has been bonded and married. Their love gradually changes her perspective, opening her heart to new friends and opening her eyes to the hardships of the enslaved half-troll, half-human creatures of Trollus. Zenn Scarlett Christian Schoon,2013-05-07 Zenn Scarlett is a bright, determined, occasionally a-little-too-smart-for-her-own-good 17-year-old girl training hard to become an exoveterinarian. That means she’s specializing in the treatment of exotic alien life forms, mostly large and generally dangerous. Her novice year of training at the Ciscan Cloister Exovet Clinic on Mars will find her working with alien patients from whalehounds the size of a hay barn to a baby Kiran Sunkiller, a colossal floating creature that will grow up to carry a whole sky-city on its back. But after a series of inexplicable animal escapes from the school and other near-disasters, the Cloister is in real danger of being shut down by a group of alien-hating officials. If that happens, Zenn knows only too well the grim fate awaiting the creatures she loves. Now, she must unravel the baffling events plaguing her school, before someone is hurt or killed, before everything she cares about is ripped away from her and her family forever. To solve this mystery – and live to tell about it – Zenn will have to put her new exovet skills to work in ways she never imagined, and in the process learn just how powerful compassion and empathy can be.

The Naked Sun Isaac Asimov,2011-04-13 A millennium into the future, two advancements have altered the course of human history: the colonization of the Galaxy and the creation of the positronic brain. On the beautiful Outer World planet of Solaria, a handful of human colonists lead a hermit-like existence, their every need attended to by their faithful robot servants. To this strange and provocative planet comes Detective Elijah Baley, sent from the streets of New York with his positronic partner, the robot R. Daneel Olivaw, to solve an incredible murder that has rocked Solaria to its foundations. The victim had been so reclusive that he appeared to his associates only through holographic projection. Yet someone had gotten close enough to bludgeon him to death while robots looked on. Now Baley and Olivaw are faced with two clear impossibilities: Either the Solarian was killed by one of his robots--unthinkable under the laws of Robotics--or he was killed by the woman who loved him so much that she never came into his presence!

Overthrowing the Queen Tom Mould,2020-08-25 Examining the popular myths and unseen realities of welfare, this study reveals the political power of folklore and the possibilities of storytelling. In 1976, Ronald Reagan hit the campaign trail with an extraordinary account of a woman committing massive welfare fraud. The story caught fire and a devastating symbol of the misuse government programs was born: the Welfare Queen. Overthrowing the Queen examines these legends of fraud and abuse while bringing to light personal stories of hardship and hope told by cashiers, bus drivers, and business owners; politicians and aid providers; and, most important, aid recipients themselves. Together these stories reveal how the seemingly innocent act of storytelling can create powerful stereotypes that shape public policy. They also showcase redemptive counter-narratives that offer hope for a more accurate and empathetic view of poverty in America today. Overthrowing the Queen tackles perceptions of welfare recipients while proposing new approaches to the study of oral narrative that extend far beyond the study of welfare, poverty, and social justice.
