More&More (A Guide to the Harmonized System) Marina Zurkow,2016 More&More is an art and research project that explores the language and mechanics of global trade, container shipping, and the exchange of goods. It questions a mercantile structure that by necessity disallows the presence of ocean as a real space in order to flatten the world into a Pangaea of capital. The project is presented in two volumes, released in conjunction with an exhibition of Marina Zurkow's work (with collaborators Sarah Rothberg, Surya Mattu, and others) at bitforms gallery in New York City in February 2016.This book, More&More (A Guide to the Harmonized System), is an experimental brick of a book that intervenes in the Harmonized Commodity Description and Coding System (also known as the HS Code). The HS Code is the internationally accepted standard of product classification, which codifies the way nations conduct import/export. All legal trade products (and illegal ones that find loopholes) are shipped using this system. More&More (A Guide to the Harmonized System) lists the astonishing variety of items that are shipped around the world, and includes instructions for using the code to ship items (both legally and illegally). It also includes poetic, personal, and scholarly annotations by Stacy Alaimo, Heather Davis, Kathleen Forde, Dylan Gauthier, Elena Glasberg, Calliope Mathios, Steve Mentz, Astrida Neimanis, Chris Piuma, Elspeth Probyn, Sarah Rothberg, Phil Steinberg, Rita Wong, and Marina Zurkow.

Soviet T-55 Main Battle Tank James Kinnear,Stephen Sewell,2019-09-19 A highly illustrated study of the T-55 Main Battle Tank and its variants that formed the backbone of the Soviet Army during the years of the Cold War. The T-55 is one of the most iconic weapons created by the Soviets during the Cold War and also one of the most widely deployed weapons in history. Like its younger brother, the T-54, the T-55 enjoyed a long career in the Red Army and even into the early days of the reformed Russian Army. Under their control it saw very little combat use or deployments, but it was widely sold to other nations and participated in many of the wars and combat operations from the mid-1960s to the present. The T-55 has been employed in almost every conflict in the Middle East and Africa from its introduction into service. Even today the tank is still employed by both sides in the Syrian Civil War, and they are also in service with Kurdish forces in the struggle against ISIS in the northern part of Iraq. Containing more than 400 stunning contemporary and modern photographs, and written by two experts on Soviet armour, this authoritative book tells the complete story of the T-55, one of the most widely produced tanks of all time.
