Another Planet Elinor Burkett,2002-08-20 With a novelist's eye, Elinor Burkett takes readers behind the school system's closed doors, revealing a world of mixed messages, manufactured myths, and political hype. In the wake of school shootings across the country, one question haunted America: What is going wrong inside our nation's schools? To find out, award-winning journalist Elinor Burkett spent nine months -- from the opening pep rally to graduation day -- in a suburban Minneapolis high school. She attended classes, hung out with students, listened to parents, and joined teachers on the front lines. She soon discovered that, post-Columbine, fears about loners and misfits, Smoker's New Year (a pot holiday), Zero Tolerance policies, and school lockdowns have become as much a part of a teen's high school experience as dating and Clearasil. But Burkett goes even deeper and makes some startling conclusions in this poignant exposé of the real problems facing educators, parents, and the children they try to teach.

The Babysitter from Another Planet Stephen Savage,2019-02-12 The kids are in for a treat when their parents leave them with a babysitter who is truly out of this world--an alien! A Golden Duck Notable Picture Book When their parents go out for the evening, a brother and sister are left with a babysitter unlike any they've ever had before--an alien from another planet! But even though she seems a little strange, the kids quickly see that this babysitter can make anything fun...even brushing their teeth and doing their homework. This story is literally E.T. meets Mary Poppins, and as soon as the Babysitter from Another Planet is gone, the kids can't wait for her to come back again. With references to everything from '50s Science Fiction movies (sure to produce a chuckle from knowing parents) to ET, bestselling author Stephen Savage has produced a visual and verbal tour de force that will have kids begging for more. An ILA-CBC Children's Choice! A CBC Children's Choice Book Awards Finalist

Another Planet Tracey Thorn,2019-02-07 THE SUNDAY TIMES TOP TEN BESTSELLER SHORTLISTED FOR THE PENDERYN MUSIC BOOK PRIZE 'Tender, wise and funny' Sunday Express 'Beautifully observed, deadly funny' Max Porter Before becoming an acclaimed musician and writer, Tracey Thorn was a typical teenager: bored and cynical, despairing of her aspirational parents. Her only comfort came from house parties and the female pop icons who hinted at a new kind of living. Returning to the scene of her childhood, Thorn takes us beyond the bus shelters, the pub car parks and the weekly discos, to the parents who wanted so much for their children and the children who wanted none of it. With great wit and insight, Thorn reconsiders the Green Belt post-war dream so many artists have mocked, and yet so many artists have come from.

Woman from Another Planet Frank Belknap Long,2023-07-04 HE TRIED TO GO BACK— but he had already passed the point of no return. Her aroma was overpowering—never had David known such a woman. Her arms clasped and encircled him; it was as though boiling quicksand flowed through his body, a tiredness weighing him down. But it was only the pressure of her body.... With a jolt he pushed her away and she fell sprawling against the bed post. Stumbling to the window for air, he saw the gleaming saucer-shaped ship still hovering in the sky overhead. It was as though his every move had been watched.... David's mind was muddled, surrounded by a cloud of confusion. The beautiful creature was now sobbing, her whole body racked by tremors.... Then he heard another voice coming from the outer room. It was Janice!

Woman from another planet Frank Belknap Long,2023-08-12 Well, it wouldn't be long now. The mere fact that he could afford a cleaning woman and no longer had to worry about the expense was reason enough for putting it off. The place could be made spic-and-span at a moment's notice and he profoundly disliked having his precious knick-knacks roughly handled by a stranger. It would be all right for Janice to take over. Wonderful, in fact...FROM THE BOOKS.

Extended Play John Corbett,1994 In Extended Play, one of the country's most innovative music writers conducts a wide-ranging tour through the outer limits of contemporary music. Over the course of more than twenty-five portraits, interviews, and essays, John Corbett engages artists from lands as distant as Sweden, Siberia, and Saturn. With a special emphasis on African American and European improvisers, the book explores the famous and the little

known, from John Cage and George Clinton to Anthony Braxton and Sun Ra. Employing approaches as diverse as the music he celebrates, Corbett illuminates the sound and theory of funk and rap, blues and jazz, contemporary classical, free improvisation, rock, and reggae. Using cultural critique and textual theory, Corbett addresses a broad spectrum of issues, such as the status of recorded music in postmodern culture, the politics of self-censorship, experimentation, and alternativism in the music industry, and the use of metaphors of space and madness in the work of African American musicians. He follows these more theoretically oriented essays with a series of extensive profiles and in-depth interviews that offer contrasting and complementary perspectives on some of the world's most creative musicians and their work. Included here are more than twenty original photographs as well as a meticulously annotated discography. The result is one of the most thoughtful, and most entertaining, investigations of contemporary music available today.

Another Planet? D. Patrick Georges,1999-07-14 You have no financial or medical concerns and you get to be Head of State one day, but you got to hand over your kids to their grandparents when they are one year old. How would you like to live in such a paradise, son? Decades after his godfather told him this bizarre story, the author--a businessman and professor of management with no interest whatsoever in metaphysics--felt he could no longer keep to himself such visions of future heaven or hell. To write and publish a book is an uphill battle, rarely leading to success. But to con somebody else to write and publish a book surely would deserve the Nobel Prize in perseverance. Such a prize is now posthumously awarded to the author's godfather, Anthony. It took him a total of 64 years in life and death to make his unstoppable resolve to get this book written and published a reality. In 1931, it seemed that Anthony had made it. The owner of two thriving businesses, he now had time to indulge in his passion in the form of a hobby: cars. He chanced upon the decaying carcass of a 1918 one-ton Ford Model TT truck that a farmer used as a chicken coop. The master auto mechanic in him urged him to restore it to its former glory. He rented a large garage near the center of town and with a true collector's detachment began scavenging the area for parts. Without warning, Anthony's happy life started unraveling the following year. At first he acted as if absent-minded. Slowly he started losing interest in his work, including his love for cars. He started going to work late and leaving early. Much to the worry of relatives and close friends, he slept every night in the garage, while his visits to his fiance's house all but stopped. By early 1933 his businesses started sliding into the red. Too honest not to pay his workers, he defaulted on payments to creditors who soon forced him into bankruptcy. As one might expect, his would-be father-in-law gave him a royal dressing down and--much to his daughters chagrin--broke off the engagement. When asked what was wrong, Anthony would reply vaguely that he was visiting another planet where he saw wondrous things that put life on Earth to shame. He began to criticize living and working conditions on Earth, both as he knew them by experience and as he learned about them in those days' media: the press, movies, theater, radio and stories of travelers to other countries. At the same time he changed his appearance and behavior to conform to the standards in force on what he called that other planet. Needless to say, his antics soon earned him the status of the neighborhood idiot. His friends, even some of his relatives, avoided him like the plague while some openly ridiculed him. Though far from being convinced about the merits of Anthony's tale, the author confessed that as he gained more education and experience, he began to notice the conviction with which his godfather talked about his improbable experience. No doubt to him it was the real thing. There must be some merit in his godfather's tale for two rock-solid reasons, he concluded. First, no man with an eighth-grade education could dream up sophisticated socio-political systems such as those he described as existing on that other planet. And second, even if he could, he would not have been consistent in his storytelling. Convinced that his godfather's tale should somehow be preserved--though at that time he had no clear reason in mind--the author decided to take a week's vacation and debrief Anthony in a comprehensive, systematic way, much like a research project. Long after Anthony's death and with the encouragement of business associates, unwittingly the process started that enabled the author to finally deliver the promise he gave his grossly misunderstood godfather on the latter's death bed: to write and p
