**Advanced Image and Video Processing Using MATLAB** Shengrong Gong, Chunping Liu, Yi Ji, Baojiang Zhong, Yonggang Li, Husheng Dong, 2018-08-21 This book offers a comprehensive introduction to advanced methods for image and video analysis and processing. It covers deraining, dehazing, inpainting, fusion, watermarking and stitching. It describes techniques for face and lip recognition, facial expression recognition, lip reading in videos, moving object tracking, dynamic scene classification, among others. The book combines the latest machine learning methods with computer vision applications, covering topics such as event recognition based on deep learning, dynamic scene classification based on topic model, person re-identification based on metric learning and behavior analysis. It also offers a systematic introduction to image evaluation criteria showing how to use them in different experimental contexts. The book offers an example-based practical guide to researchers, professionals and graduate students dealing with advanced problems in image analysis and computer vision.

Dotcom Secrets Russell Brunson, 2020-04-07 Master the science of funnel building to grow your company online with sales funnels in this updated edition from the \$100M entrepreneur and co-founder of the software company ClickFunnels. DotCom Secrets is not just another how-to book on internet marketing. This book is not about getting more traffic to your website--yet the secrets you'll learn will help you to get exponentially more traffic than ever before. This book is not about increasing your conversions--yet these secrets will increase your conversions more than any headline tweak or split test you could ever hope to make. Low traffic or low conversion rates are symptoms of a much greater problem that's a little harder to see (that's the bad news), but a lot easier to fix (that's the good news). What most businesses really have is a funnel problem. Your funnel is the online process that you take your potential customers through to turn them into actual customers. Everyone has a funnel (even if they don't realize it), and yours is either bringing more customers to you, or repelling them. In this updated edition, Russell Brunson, CEO and co-founder of the multimillion-dollar software company ClickFunnels, reveals his greatest secrets to generating leads and selling products and services after running tens of thousands of his own split tests. Stop repelling potential customers. Implement these processes, funnels, frameworks, and scripts now so you can fix your funnel, turn it into the most profitable member of your team, and grow your company online.

**Traffic Secrets** Russell Brunson, 2023-07-25 Master the evergreen traffic strategies to fill your website and funnels with your dream customers in this timeless book from the \$100M entrepreneur and co-founder of the software company ClickFunnels. The biggest problem that most entrepreneurs have isn't creating an amazing product or service; it's getting their future customers to discover that they even exist. Every year, tens of thousands of businesses start and fail because the entrepreneurs don't understand this one essential skill: the art and science of getting traffic (or people) to find you. And that is a tragedy. Traffic Secrets was written to help you get your message out to the world about your products and services. I strongly believe that entrepreneurs are the only people on earth who can actually change the world. It won't happen in government, and I don't think it will happen in schools. It'll happen because of entrepreneurs like you, who are crazy enough to build products and services that will actually change the world. It'll happen because we are crazy enough to risk everything to try and make that dream become a reality. To all the entrepreneurs who fail in their first year of business, what a tragedy it is when the one thing they risked everything for never fully gets to see the light of day. Waiting for people to come to you is not a strategy. Understanding exactly WHO your dream customer is, discovering where they're congregating, and throwing out the hooks that will grab their attention to pull them into your funnels (where you can tell them

a story and make them an offer) is the strategy. That's the big secret. Traffic is just people. This book will help you find YOUR people, so you can focus on changing their world with the products and services that you sell.

**Copywriting Secrets** Jim Edwards, 2023-06-06 What if you could sell anything to anyone? Nobody is born knowing how to sell. But the truth is, you can learn how to sell more . . . a LOT more . . . when you discover the right words that make people buy. Copywriting is selling. Whether online, offline, in video, direct mail, on Facebook, or from the stage, copywriting is how you put words together that make people click, call, or pull out their wallets and buy from you. Whether you're a coach, author, funnel hacker, e-commerce seller, or real estate agent, your ability to create sales copy that drives people to buy determines your paycheck, your lifestyle, and your family's future. In the fast-paced, attention-starved, social media-driven world of business today, two facts about your ability to create sales messages (copywriting) stand out: Fact #1: Great Copywriting = Incredible lifestyle, plenty of money, and freedom! Fact #2: Poor Copywriting = Struggle forever and die poor! Putting The Right Words On Paper And Online Is The Single Most Profitable Skill Everyone Can Learn. This book teaches you street-smart copywriting, which means this book teaches you how to get results today. (Because we all need to make more sales today . . . not tomorrow, not next week!) If you've tried to write ads, emails, and sales letters for your business before and failed, this book is for you. If you need to make more sales -- no matter what you sell or who you sell it to -- this book is for you. Bottom Line: If you want to make a lot more money, have a lot more time off, and enjoy a lot more freedom, this book is for you . . . especially if you're not making as many sales as you want to right now.

**Digital Image Forensics** Husrev Taha Sencar, Nasir Memon, 2012-08-01 Photographic imagery has come a long way from the pinhole cameras of the nineteenth century. Digital imagery, and its applications, develops in tandem with contemporary society's sophisticated literacy of this subtle medium. This book examines the ways in which digital images have become ever more ubiquitous as legal and medical evidence, just as they have become our primary source of news and have replaced paper-based financial documentation. Crucially, the contributions also analyze the very profound problems which have arisen alongside the digital image, issues of veracity and progeny that demand systematic and detailed response: It looks real, but is it? What camera captured it? Has it been doctored or subtly altered? Attempting to provide answers to these slippery issues, the book covers how digital images are created, processed and stored before moving on to set out the latest techniques for forensically examining images, and finally addressing practical issues such as courtroom admissibility. In an environment where even novice users can alter digital media, this authoritative publication will do much so stabilize public trust in these real, yet vastly flexible, images of the world around us.

**The Moon Crossing** Jan Selbourne, Eileen Troemel, 2021-11-13 Maximum security prison on the moon! Only the worst of Earth's criminals go there. Therefore, Susan's shocked her brilliant brother Micky has been sent there. He's an archaeologist and despite the sham of a trial has never done anything illegal. Greg's cousin a brilliant linguist Samantha has been shipped to the moon. The only way to get her back - clear her name. As Greg and Susan dive into clearing their relatives, they encounter danger, intrigue, and things only found in sci-fi movies. Their lives are at risk with every twist and turn as they attempt to right a lot of wrongs.

**Women Artists of Color** Phoebe Farris, 1999-05-30 A critical discussion of the art works, lives, associates, and influences of over 90 20th-century female artists representative of four ethnic groups: African American, Asian-

Pacific American, Latin American, and Native American.

**E-Business Essentials** Nick Bontis, 2004-09-01 This special issue of QJEC marks the final instalment of the journal. The QJEC has had a long-standing history of international scholarship focused on the emerging field of electronic commerce with a broad, interdisciplinary approach. It has established the field's intellectual foundation with state-of-the-art research from business, computer science, engineering, law, psychology, and sociology. This particular issue focuses on an eclectic group of papers that are international in scope with authors from Canada, Australia, France, Germany, South Africa and Italy. The papers range in topics from valuing dot com companies, to mobile health and portals, to supply chain management.

*Sports Cardiology Casebook* Antonio Pelliccia, 2009-07-21 Comparatively little is known about the risk of sudden death associated with exercise in young competitive athletes, and whether the benefits of sports activity outweigh the hazards of exercise-related fatal events is a clinical dilemma. This is only a small part of the story, however, as there are considerable effects of exercise whether it be at a competitive level or on a 'leisure' level on patients of all ages. This in itself is of massive importance to the cardiac patient population as exercise is a key component of effective recovery and recommended as central in the prevention of much cardiac disease.

**Oliver Wendell Holmes Jr** Sophie Littlefield, William Wiecek, 2004-08-15 Presents the life of Oliver Wendell Holmes Jr, who was the Associate Justice of the Supreme Court from 1902 to 1932.

Eichmann in Jerusalem Hannah Arendt, 1963 Hannah Arendt's authoritative report on the trial of Nazi leader Adolf Eichmann includes further factual material that came to light after the trial, as well as Arendt's postscript directly addressing the controversy that arose over her account.

**Environmental Justice and Sustainability in the Former Soviet Union** Julian Agyeman, Yelena Ogneva-Himmelberger, 2009 An examination of the awareness of environmental and social justice issues in the former Soviet republics--from the Western-style democracies of the Baltic region to the totalitarian regimes of Central Asia--and the resulting activism in those states. The legacy of environmental catastrophe in the states of the former Soviet Union includes desertification, pollution, and the toxic aftermath of industrial accidents, the most notorious of which was the Chernobyl disaster of 1986. This book examines the development of environmental activism in Russia and the former Soviet republics in response to these problems and its effect on policy and planning. It also shows that because of increasing economic, ethnic, and social inequality in the former Soviet states, debates over environmental justice are beginning to come to the fore. The book explores the varying environmental, social, political, and economic circumstances of these countries--which range from the Western-style democracies of the Baltic states to the totalitarian regimes of Central Asia--and how they affect the ecological, environmental, and public health. Among the topics covered are environmentalism in Russia (including the progressive nature of its laws on environmental protection, which are undermined by overburdened and underpaid law enforcement); the effect of oil wealth on Azerbaijan and Kazakhstan; the role of nationalism in Latvian environmentalism; the struggle of Russia's indigenous peoples for environmental justice; public participation in Estonia's environmental movement; and lack of access to natural capital in Tajikistan. Environmental Justice and Sustainability in the Former Soviet Union makes clear that although fragile transition economies, varying degrees of democratization, and a focus on national security can stymie progress toward just sustainability, the diverse states of the former Soviet Union are

making some progress toward green and environmental justice issues separately.

**God The Graphic Designer** L'Oreal Sheree Henderson,2019-10-26 Is it too hard?Don't think it will ever happen?You feel alone?Assume it's impossible?Don't have enough?Struggling with something?This book was designed for you. Our lives have been created by design and it isn't just about living, it's about living on purpose. God created you as a masterpiece if you allow yourself to be reformatted by him. With God being your Graphic Designer everything in your life will gain intentional meaning. Through reading this book things will become easier and made possible. You will gain what you need and your struggles won't seem as big.

**Mysteries of the Human Body** Gordon Thomas,2006 Despite the advances in scientific medicine, the workings of the human body remain a mystery to most of us. How can someone suddenly wake up after spending nearly 20 years in a coma? And how can a child's tumor suddenly disappear on the eve of surgery? Mysteries of the Human Body attempts to provide the answers to these and many other medical riddles. Drawing on cases past and present, it also reveals the truth behind such unusual phenomena as out-of-body experiences and sympathetic sickness. Additional chapters cover recently discovered allergies, pioneering surgery, and developments in modern medicine that could have a dramatic effect on our lives in years to come. The book is a fascinating and informative guide to the world of medicine and the complex mechanism that is the human body.
