Mobilities of Return John Taylor,Helen Lee,2017-12-15 In recent decades, the term ‘mobility’ has emerged as a defining paradigm within the humanities. For scholars engaged in the multidisciplinary topics and perspectives now often embraced by the term Pacific Studies, it has been a much more longstanding and persistent concern. Even so, specific questions regarding ‘mobilities of return’—that is, the movement of people ‘back’ to places that are designated, however ambiguously or ambivalently, as ‘home’—have tended to take a back seat within more recent discussions of mobility, transnationalism and migration. This volume situates return mobility as a starting point for understanding the broader context and experience of human mobility, community and identity in the Pacific region and beyond. Through diverse case studies spanning the Pacific region, it demonstrates the extent to which the prospect and practice of returning home, or of navigating returns between multiple homes, is a central rather than peripheral component of contemporary Pacific Islander mobilities and identities everywhere.

Transport in Nonstoichiometric Compounds George Simkovich,2012-12-06 Prior to the 9th International Conference on Reactivity Solids in Krakow, Poland a group of about 25 international scientists held a special conference entitled Transport in Nonstoichiometric Compounds in late Aug. 1980 in Mogilany, Poland (near Krakow). This conference was well received in view of the interaction between the participants, as well as the resulting publication of the proceedings (Elsevier Scientific Publishing Company, 1982, edited by J. Nowotny). At this first conference the participants decided that it would be desirable to organize similar conferences at about two year intervals. Thus, a second meeting was held in late June, early July at Alenya, Pyrenees Orientales, France. This conference had a larger number of participants, about 50, but still managed to promote excellent interaction between all the participants. These proceedings, with editors G. Petot-Ervas, Hj. Matzke and C. Monty, have also been published by Elsevier as a special edition of the journal, Solid State Ionics, Vol. 12 (1984). In view of the success of the initial two conferences, a third meeting was organized and held at The Pennsylvania State University, University Park, PA., 16802, U.S.A. from 11 June 84 to 15 June 84. The proceedings of this conference are presented in the following text.

Mesopotamia K. R. Veenhof,Jesper Eidem,2008 Der erste Teil bietet eine kritische Gesamtschau unseres Wissens und zugleich eine Einführung in das Studium der altassyrischen Epoche (die ersten beiden Jahrhunderte des 2. Jahrtausends), wie wir sie durch Entdeckungen in Assur und die Keilschriftarchive der altassyrischen Händler kennen, die in der Handelskolonie (genannt Karum) in der Unterstadt des alten Kanesh (moderne Kültepe) in Zentralanatolien lebten. Die ersten Kapitel bestimmen, was altassyrisch ist und analysieren die Chronologie und die verfügbaren archäologischen und schriftlichen Quellen. Darauf folgt eine kritische Darstellung der Veröffentlichungen zu den altassyrischen Quellen. Nach einem Abriss der Altassyrischen Geschichte folgt ein Überblick zur anatolischen Situation, der die Städte, lokale Herrscher und die rund vierzig altassyrischen Handelsniederlassungen in Nordmesopotamien und Anatolien behandelt. Ein eigenes Kapitel ist den wichtigen altassyrischen Handelsverträgen gewidmet. Der zweite Teil fasst die jüngsten Erkenntnisse zur Geschichte Nordsyriens zeitgleich mit der spätesten Phase des altassyrischen Handels zusammen. Der ausführlichen Untersuchung der Quellen ist ein Appendix der wichtigsten Texte beigelegt. Das Buch ist durch umfassende Indices erschlossen und enthält eine ausführliche Bibliographie.

Nora Nuala O'Connor,2021-01-05 Named one of the best books of historical fiction by the New York Times Acclaimed Irish novelist Nuala O'Connor's bold reimagining of the life of James Joyce's wife, muse, and the model for Molly Bloom in Ulysses is a "lively and loving paean to the indomitable Nora Barnacle" (Edna O'Brien). Dublin, 1904. Nora Joseph Barnacle is a twenty-year-old from Galway working as a maid at Finn's Hotel. She enjoys the liveliness of her adopted city and on June 16—Bloomsday—her life is changed when she meets Dubliner James Joyce, a fateful encounter that turns into a lifelong love. Despite his hesitation to marry, Nora follows Joyce in pursuit of a life beyond Ireland, and they surround themselves with a buoyant group of friends that grows to include Samuel Beckett, Peggy Guggenheim, and Sylvia Beach. But as their life unfolds, Nora finds herself in conflict between their intense desire for each other and the constant anxiety of living in poverty throughout Europe. She desperately wants literary success for Jim, believing in his singular gift and knowing that he thrives on being the toast of the town, and it eventually provides her with a security long lacking in her life and his work. So even when Jim writes, drinks, and gambles his way to literary acclaim, Nora provides unflinching support and inspiration, but at a cost to her own happiness and that of their children. With gorgeous and emotionally resonant prose, Nora is a heartfelt portrayal of love, ambition, and the quiet power of an ordinary woman who was, in fact, extraordinary.

From Batboy to Congressman John J. Duncan,2023-07-27 On October 10, 2002, Congressman John J. Duncan Jr. cast a vote in the U.S. House that he thought might end his political career. Going against his own party, he was one of only six House Republicans who voted against the Iraq War resolution. Constituents in his district were shocked, but over time Duncan felt his least popular vote became his most popular one—and probably the most significant in his thirty-year political career. Congressman Duncan served as U.S. Representative for Tennessee's Second Congressional district from 1988 to 2019. While he could have written a dense political memoir, in *From Batboy to Congressman*, Duncan employs a journalistic flair to provide just the right insight into a series of anecdotes from his storied life. Duncan's family, early life, and time as a lawyer and judge all figure into the generous narrative, shared with both warmth and a self-deprecating sense of humor. He details unique experiences meeting celebrities, presidents, and sports stars; and, of course, he shares insights into the decisions that charted his Congressional career on issues such as Iraq,

NAFTA, and concern for fiscal responsibility. Over his decades-long career, Duncan was known for his commitment to constituent service—even among constituents who disagreed with his views—so he offers a refreshing perspective on bipartisanship and connections across the aisle; indeed, he names conservatives, moderates, and liberals alike among his closest friends. While this book contains timely reflections on issues of war and poverty, of leadership and the lack of it, of the proper relationship between citizens and government, its intention is to highlight moments in a singular career. “As you will read in this book,” writes Congressman Duncan, “every job gave me strange, funny, unusual stories.”

African Modernism Manuel Herz,Ingrid Schröder,Hans Focketyn,Julia Jamrozik,2022-10-10 A new edition of the most comprehensive survey of modern architecture in Africa to date. When the first edition of African Modernism was published in 2015, it was received with international praise and has been sought after constantly ever since it went out of print in 2018. Marking Park Books' 10th anniversary, this landmark book becomes available again in a new edition. In the 1950s and 1960s, most African countries gained independence from their respective colonial power. Architecture became one of the principal means by which the newly formed countries expressed their national identity. African Modernism investigates the close relationship between architecture and nation-building in Ghana, Senegal, Côte d'Ivoire, Kenya, and Zambia. It features one hundred buildings with brief descriptive texts, images, site plans, and selected floor plans and sections. The vast majority of images were newly taken by Iwan Baan and Alexia Webster for the book's first edition. Their photographs document the buildings in their present state. Each country is portrayed in an introductory text and a timeline of historic events. Further essays on postcolonial Africa and specific aspects and topics, also illustrated with images and documents, round out this outstanding volume.

Waves in Geophysical Fluids John Grue,Karsten Trulsen,2007-08-03 This book describes the forecasting and risk evaluation of tsunamis by tectonic motion, land slides, explosions, run-up, and maps the tsunami sources in the world's oceans. It presents stochastic Monte-Carlo simulations and focusing mechanisms for rogue waves, nonlinear wave models, breather formulas, and the kinematics of the Draupner wave. Coverage also reveals the full story about the discovery of the very large oceanic internal waves.

Introduction To Commutative Algebra Michael F. Atiyah,I.G. MacDonald,2018-03-09 First Published in 2018. This book grew out of a course of lectures given to third year undergraduates at Oxford University and it has the modest aim of producing a rapid introduction to the subject. It is designed to be read by students who have had a first elementary course in general algebra. On the other hand, it is not intended as a substitute for the more voluminous tracts such as Zariski-Samuel or Bourbaki. We have concentrated on certain central topics, and large areas, such as field theory, are not touched. In content we cover rather more ground than Northcott and our treatment is substantially different in that, following the modern trend, we put more emphasis on modules and localization.
