Melbourne Circle Nick Gadd,2021-07-23 Over two years, writer Nick Gadd and his wife Lynne circled the city of Melbourne on foot, starting at Williamstown and ending in Port Melbourne. Along the way they uncovered lost buildings, secret places and mysterious signs that told of forgotten stories and curious characters from the past. Soon after they completed the circle, Lynne passed away from cancer. Melbourne Circle is the story of their journey, a memoir, and a stunning meditation on personal loss. ‘What a gem this book is! Oddity, wonderment, weirdness: these splendid essays reveal a marvellous Melbourne most of us have never encountered before. This is a psychogeography dense with vernacular history, humane detail, and from beneath the shadow of grief, love.’ – Gail Jones, author of Five Bells and The Death of Noah Glass “‘Psychojogging” and the pleasures of walking.’ – interview with Hilary Harper on Radio National, Life Matters ‘Marvellous Melbourne: the books that capture our city and its life.’ – The Age/Sydney Morning Herald ‘Melbourne Circle: Walking, Memory and Loss is a very special book. Just read it, and then take to the streets and walk with the same spirit of enquiry.’ – Sophie Cunningham, The Age ‘A beautiful meditation on the streets in which we live, ghosts, love and loss ... While there is sadness in this book, Gadd writes with warmth, humour and a generosity of spirit.’ – Stephen Romei, The Weekend Australian ‘An endearing book about enduring love and serendipitous discoveries; of remnants of the past pasted onto old buildings, and the way these ghost signs are portals into another time.’ – The Saturday Paper

Ostro Julia Busuttli Nishimura,2017-08-29 BOOKS OF THE YEAR 2017 - GOURMET TRAVELLER AUSTRALIA 'My approach to food favours intuition over strict rules and is about using your hands, rushing a little less and savouring the details. It is food that slowly weaves its way into the fabric of your daily life - food for living and sharing.' Julia Busuttli Nishimura has gained a strong and loyal following for her generous, uncomplicated, seasonal food. Her interpretations of dishes from Italy and the Mediterranean feel both timelessly familiar and altogether fresh and new. This is modern Australian eating with respect for the past. Julia guides us through the uniquely satisfying experience of making pasta or pizza dough from scratch, with recipes such as ricotta tortelloni with butter, sage and hazelnuts or taleggio and potato pizza. She also shares plenty of flavourful salads and simple meals for days when time is scarce, such as roasted cauliflower and wheat salad or tray-roasted chicken with grapes, olives and walnuts. Baking and desserts, too, needn't be overly complicated. As Julia shows us, some of the best recipes are those that have been passed down the generations and streamlined to perfection along the way, such as the perfect lemon olive oil cake. But we also need the odd show-stopper like a chocolate layer cake with espresso

frosting on standby for special occasions! This is simple food that is comforting and generous in spirit. Slow down, take your time and enjoy it. This is a specially formatted fixed layout ebook that retains the look and feel of the print book. PRAISE FOR OSTRO This is classy, quirky - and perfect for anyone of us wanting to remember that life is, in the end, about friendships and family. Readings Nishimura produces aspirational dishes - simple, diverse and encouraging us to finally give things like handmade pasta a go Broadsheet

Design for Wellbeing Ann Petermans,Rebecca Cain,2019-11-04 Design for Wellbeing charts the development and application of design research to improve the personal and societal wellbeing and happiness of people. It draws together contributions from internationally leading academics and designers to demonstrate the latest thinking and research on the design of products, technologies, environments, services and experiences for wellbeing. Part I starts by conceptualising wellbeing and takes an in-depth look at the rise of the design for wellbeing movement. Part II then goes on to demonstrate design for wellbeing in practice through a broad range of domains from products and environments to services. Among others, we see emerging trends in the design of interiors and urban spaces to support wellbeing, designing to enable and support connectedness and social interaction, and designing for behaviour change to tackle unhealthy eating behaviour in children. Significantly, the body of work on subjective wellbeing, design for happiness, is increasing, and several case studies are provided on this, demonstrating how design can contribute to support the wellbeing of people. Part III provides practical guidance for designing for wellbeing through a range of examples of tools, methods and approaches, which are highly user-centric, participatory, critical and speculative. Finally, the book concludes in Part IV with a look at future challenges for design for wellbeing. This book provides students, researchers and practitioners with a detailed assessment of design for wellbeing, taking a distinctive global approach to design practice and theory in context. Design for Wellbeing concerns designers and organisations but also defines its broader contribution to society, culture and economy.

You Had Me at Pet-Nat Rachel Signer,2021-10-19 From the publisher of Pipette Magazine, discover a natural wine-soaked memoir about finding your passion—and falling in love. It was Rachel Signer's dream to be that girl: the one smoking hand-rolled cigarettes out the windows of her 19th-century Parisian studio apartment, wearing second-hand Isabel Marant jeans and sipping a glass of Beaujolais redolent of crushed roses with a touch of horse mane. Instead she was an under-appreciated freelance journalist and waitress in New York City, frustrated at always being broke and completely miserable in love. When she tastes her first pétillant-naturel (pét-nat for short), a type of natural wine made with no additives or chemicals, it sets her on a journey of self-discovery, both deeply personal and professional, that leads her to Paris, Italy, Spain, Georgia, and finally deep into the wilds of South Australia and which forces her, in the face of her Wildman, to ask herself the hard question: can she really handle the unconventional life she claims she wants? Have you ever been sidetracked by something that turned into a career path? Did you ever think you were looking for a certain kind of romantic partner, but fell in love with someone wild, passionate and with a completely different life? For Signer, the discovery of natural wine became an introduction to a larger ethos and philosophy that she had long craved: one rooted in egalitarianism, diversity, organics, environmental concerns, and ancient traditions. In *You Had Me at Pét-Nat*, as Signer begins to truly understand these revolutionary wine producers upending the industry, their deep commitment to making their wine with integrity and with as little intervention as possible, she is smacked with the realization that unless she faces, head-on, her own issues with commitment, she will not be able to live a life that is as freewheeling, unpredictable, and singular as the

wine she loves.

Bull Market The rise and eclipse of Australian stock exchanges John Tilston, 2016-02-22 Stock exchanges were crucial in developing Australia by greasing the often-creaking wheels of investment. Their spluttering into life in the 1880s was fractious and disorganized, but fledgling stockbrokers couldn't ignore the need for marketplaces to trade stocks and shares in the burgeoning mining industry. They struggled through the great economic distress of the Federation Drought in the 1890s and emerged as coherent, collegiate markets based in state capitals that endured for 80 years. Globalisation and technology disrupted the stock exchanges, forcing them to amalgamate and then become public company itself. Now global banks using technology to dominate the modern era. Dark pools and high frequency trading have the ASX scrambling to stay relevant. Yet it still holds some aces: transparent pricing guides and the scaffolding to support a range of investment products. The book reviews the often turbulent history of what has become the ASX, highlighting the contribution of key individuals and events.

Marine Ornamental Species Aquaculture Ricardo Calado, Ike Olivotto, Miquel Planas Oliver, G. Joan Holt, 2017-02-15 The global trade of aquatic organisms for home and public aquariums, along with associated equipment and accessories, has become a multi-billion dollar industry. Aquaculture of marine ornamental species, still in its infancy, is recognized as a viable alternative to wild collection as it can supplement or replace the supply of wild caught specimens and potentially help recover natural populations through restocking. This book collects into a single work the most up-to-date information currently available on the aquaculture of marine ornamental species. It includes the contributions of more than 50 leading scientists and experts on different topics relevant for the aquaculture of the most emblematic groups of organisms traded for reef aquariums. From clownfish, to angelfish, tangs and seahorses, as well as corals, anemones, shrimps, giant clams and several other reef organisms, all issues related with the husbandry, breeding, and trade are addressed, with explanatory schemes and illustrations being used to help in understanding the most complex topics addressed. Marine Ornamental Species Aquaculture is a key reference for scientists and academics in research institutes and universities, public and private aquaria, as well as for hobbyists. Entrepreneurs will also find this book an important resource, as the culture of marine ornamental species is analyzed from a business oriented perspective, highlighting the risks and opportunities of commercial scale aquaculture of marine ornamentals.
