**Elsevier's Dictionary of Library Science, Information, and Documentation, in Six Languages: English/American, French, Spanish, Italian, Dutch, and German** W. E. Clason, 1973 The word document conjures up to most a medium of past or present information, which could be in the form of a clay tablet of antiquity or a modern encyclopaedia. It is justifiable, therefore, to assume that this dictionary encompasses several wide-ranging subjects. The fields covered are also closely related, a fact which can be attributed to the enormous impact of automation and technology. In clarifying various topics, Mr. Clason has listed specific documents - in itself an unusual approach which will do much to assist operational scientists. The inclusion of an Arabic supplement enhances the value of the dictionary which is an essential tool for libraries, documentation centres and specialists in the field.

**New Bathroom Idea Book** Jamie Gold, 2017 The bathroom today is getting more attention than ever from homeowners, as they realize its value as a personal retreat and resale enhancer. Gone are the days of garish tile and fuzzy toilet seat covers: now, bathrooms are as much about taste and style as the rest of the house. People want them to be both beautiful and functional, and manufacturers have responded with many more choices in materials and fixtures. This book covers them all, with ideas for tiny half-baths, medium-size his-and-hers, and large, luxurious home spas. Specifics on ventilation, waterproofing, faucets, showers, tubs, and more give readers the knowledge they need to create the bathroom they've always wanted. Taunton's New Bathroom Idea Book gives homeowners hundreds of ideas about how

to make one of the most necessary rooms in the house one of the most enjoyable.--Publisher description
