Women and Politics around the World [2 volumes] Joyce Gelb,Marian Lief Palley,2009-03-30 A unique two-volume examination of the progress women have made in achieving political equality, Women and Politics around the World addresses both transnational and gender-related issues as well as specific conditions in more than 20 countries. Women and Politics around the World: A Comparative History and Survey is an exploration of the role of women in political systems worldwide, as well as an examination of how government actions in various countries have an impact on the lives of the female population. Women and Politics around the World divides its coverage into two volumes. The first looks at such crucial issues facing women today as health policy, civil rights, and education, comparing conditions around the world. The second volume profiles 22 different countries, representing a broad range of governments, economies, and cultures. Each profile looks at the history and current state of women's political and economic participation in a particular country, and includes an in-depth look at a representative policy. The result is a resource unlike any other—one that gives students, researchers, and other interested readers a fresh new way of investigating a truly global issue.

Small Boats and Daring Men Benjamin Armstrong, 2019-04-18 Two centuries before the daring exploits of Navy SEALs and Marine Raiders captured the public imagination, the U.S. Navy and Marine Corps were already engaged in similarly perilous missions: raiding pirate camps, attacking enemy ships in the dark of night, and striking enemy facilities and resources on shore. Even John Paul Jones, father of the American navy, saw such irregular operations as critical to naval warfare. With Jones's own experience as a starting point, Benjamin Armstrong sets out to take irregular naval warfare out of the shadow of the blue-water battles that dominate naval history. This book, the first historical study of its kind, makes a compelling case for raiding and irregular naval warfare as key elements in the story of American sea power. Beginning with the Continental Navy, Small Boats and Daring Men traces maritime missions through the wars of the early republic, from the coast of modern-day Libya to the rivers and inlets of the Chesapeake Bay. At the same time, Armstrong examines the era's conflicts with nonstate enemies and threats to American peacetime interests along Pacific and Caribbean shores. Armstrong brings a uniquely informed perspective to his subject; and his work—with reference to original naval operational reports, sailors' memoirs and diaries, and officers' correspondence—is at once an exciting narrative of danger and combat at sea

and a thoroughgoing analysis of how these events fit into concepts of American sea power. Offering a critical new look at the naval history of the Early American era, this book also raises fundamental questions for naval strategy in the twenty-first century.

Death and Bereavement Around the World John D Morgan, Stephen Palmer, Pittu Laungani, Dale A Lund, 2017-03-02 This final volume of *Death and Bereavement Around the World* reflects on some major themes: death and after-life, religion and spirituality, rites and rituals, secularist approaches, cultural variations, suicide, and other issues. The first few chapters describe progress in end-of-life care, including some new tools to evaluate hospice care (chapter 1); what children know, when they know it, and how parents can respond to questions, with some guidelines for support by schools (chapter 2); the importance of ritual (chapter 3); and, gender differences in death customs around the world (chapter 4). The transcript of a 1997 interview of John (Jack) Morgan by Pittu Laungani is presented as chapter 5. The following chapters discuss death systems and suicide (chapter 6); HIV/AIDS, including the role of cultural and economic factors in the spread of the disease (chapter 7); and grief and bereavement in the developing world, taking the AIDS pandemic as a specific challenge (chapter 8). Chapter 9 covers issues related to dying and death in Romania. In chapter 10 the focus is on the various functions and uses of names in a cross-cultural context. Roadside memorials as a pivotal healing strategy are the topic of chapter 11. Chapters 12 and 13 focus on spiritual experience with loss. The final chapter presents some conclusions, and in the Epilogue, Mary Ann Morgan honors the life, career, dying, death, and achievements of John (Jack) Morgan. The 'Final Word' includes the words of Pittu Laungani, from a book published just weeks before his death in February 2007. This work is for anyone interested in or working in death and bereavement issues, particularly academics, educators, librarians, chaplains, clergy, funeral service directors,

hospice care providers and volunteers, palliative care providers, nurses, immigration officers, psychologists, social workers, psychotherapists, and counselors, especially bereavement counselors.

Anne around the World Jane Ledwell, Jean Mitchell, 2013-04-01 What makes *Anne of Green Gables* an international, time-honoured classic? International audiences have described reading L.M. Montgomery's most celebrated novel as an experience in enchantment. Balancing criticism and celebration, Jane Ledwell and Jean Mitchell bring together essays that consider the sources of the wonder that Montgomery's work inspires. The popular appeal of Montgomery's classic is undeniable, but the reasons for its worldwide resonance are less obvious. From a range of perspectives, the contributors to *Anne around the World* focus on the numerous themes the novel raises, showcasing why it has charmed readers across the globe - from Iran to Australia, and from Sweden to Japan. Essays consider issues of class, race, and colonial history, discuss Anne's place in children's literature, her passion for writing, and the ways in which L.M. Montgomery and her red-haired protagonist are celebrated by legions of fans. Featuring contributions from many international writers, *Anne around the World* traces the meaning and influence of a story that spread far from its place of origin on a small Canadian island to distant and culturally diverse places. Contributors include Yoshiko Akamatsu (Notre Dame Seishin University, Japan), Doreley Carolina Coll (University of Prince Edward Island), Brooke Collins-Gearing (School of Humanities and Social Science, New South Wales), Margaret Doody (Notre Dame University), Elizabeth R. Epperly (emeritus, University of Prince Edward Island), Barbara Carman Garner (Carleton University), Caroline E. Jones (Texas State University-San Marcos), Paul Keen (Carleton University), Jane Ledwell, Jennie MacDonald (PhD, University of Denver), Susan Meyer (Wellesley College), Jean Mitchell, Mary Henley Rubio (emeritus, University of Guelph), Gholamreza Sami (Sussex University), Wendy Shilton (University of

Examining Energy and the Environment around the World Bruce E. Johansen, 2019-04-01 This volume addresses ten issues pertaining to energy and the environment, such as climate change, fossil fuels, endangered species, and renewable energy, and examines how these issues are affecting countries around the world. In the industrial age, first powered by coal and then more often by oil, environmental degradation nearly inevitably followed resource exploitation and energy production. This book examines environmental issues in specific countries around the world as well as solutions some of these countries have discovered in order to help save the environment. This volume includes 10 chapters, each addressing a specific issue relating to energy and the environment as it pertains to a variety of countries, including toxic chemicals, pollution, deforestation, and climate change. Each chapter begins with an introduction to the issue. Following the chapter introduction, each chapter highlights that issue in eight countries and provides historic perspective. This work provides an overview for high school students and college students at the undergraduate level on 10 important topics that address matters relating to energy and the environment in the 21st century.
