Artless Marc Valli, Amandas Ong, 2016-10-25 Artless presents some of the most compelling images created by contemporary artists and illustrators using the simplest of tools, such as color pencils, crayons, watercolor, scissors, and glue. Work produced in this manner represents a growing and particularly resilient trend in the visual arts world. Through individual interviews with over 50 artists, Artless looks at how and why these particular artists find the intimate connection between the unassuming tools they use and the art thus created so enthralling. For creator and viewer alike there seems to be a particular kind of pleasure to be had in short-circuiting the sophisticated and often elusive strategies of contemporary art in favor of something disarmingly uncomplicated. This book divides the artists' work in terms of the techniques they use, from color pencils and pens to ceramics and mixed media, with some artists mixing these techniques digitally. The end results are images imbued with a great sense of fun and spontaneity.

**Art Folio 2021** Douglas King, 2021-04-06 Art Folio is a publication of the best in abstract and contemporary work as decided on by a jury of professional artists, museum curators, gallery owners, art consultants, and collectors. We have established this publication in an attempt to change that as best we can.

**Art Schools and Place** Silvie Jacobi, 2020-06-15 Art education has a definite impact on artists' sense of place and their spatial relations. Exploring where and why artists choose to locate is the first step in describing an art scene ethnographically. This research considers coming to and going through art school as a crucial inter-subjective learning environment. Artists learn not just to engage with place through spatial and relational practices, but gain a sense of mobility and transnational flows in a globalized art world. This book is the first time the art school has been studied this way in the nascent field of art geography, blending the tool kits of human geography and urban studies. This is timely against the backdrop of worldwide university closures of physical space and cost intensive fine art courses as a triumph of managerialism and business-case over education. This volume helps highlight how investment in this form of education has an important capacity for nurturing art scenes and feeding into the community at large.

Make Your Mark Tristan Manco, 2016-03-29 Legendary talent-finder Tristan Manco uncovers the next generation of urban creators In an age when Banksy's installations are protected by Plexiglas and graffiti artists exhibit in galleries as well as on the street, Make Your Mark explores the work of thirty-five urban artists who use mark-making techniques—drawing, painting, and other methods—to create a diverse array of work. Ranging from figurative painting, illustration, and comic book drawing to tattoo art, poster design, and mural-making, the work is stylistically original, often incorporating experimental techniques or elements of the handmade. This is the intersection of traditional and “street” sensibilities, from Mexican-born artist Carlos Donjuán's paintings of masked figures to the atmospheric drawings of Bucharest-based artist Mark Francis Williams, whose work responds to the new shopping malls around his city that offer “a hyper-real, super-beautiful sense of certainty” but conceal an ominous underbelly. Other featured artists include the French illustrator and graffiti artist Bault, the American muralist Zio Ziegler, and the Japanese painter Fuco Ueda. As in his previous

books on street art and other nontraditional genres, author Tristan Manco's curatorial eye is a valuable guide at the frontier of a new genre. Students, artists, and anyone interested in art will be inspired by the integrity and grit of these unconventional creators on the rise.

Art Journey Portraits and Figures Rachel Rubin Wolf, 2014-12-04 Truth. Beauty. Experience. Emotion. The artists included in Art Journey: Portraits and Figures say they have discovered all of these things and more through their work. Sometimes it's in the eyes. Or perhaps it's the hint of an expression that seems to beckon one closer, begging to share a secret. Maybe it's the tilt of a chin. Or the posture or stance of one's subject. But in a well executed portrait or figure? Something special, something unique that is invariably revealed--oftentimes about both the subject and the artist. Covering a tantalizing range of styles, the works within illustrate the many ways today's best artists choreograph shape, value, line texture and color into compositions that create drama, tell a story and pull the viewer in. Featuring unusual perspectives, enticing contrasts and other dynamic design

elements, *Art Journey: Portraits and Figures* delivers fresh inspiration for artists of every skill level and medium. • Art and inspiration from 109 contemporary artists working in charcoal, pencil, pastel, colored pencil, scratchboard, pen and ink, and more • 107 masterful works--the best in portraiture and figure work--demonstrating a wonderful diversity of styles • Expert tips and advice and insights into the stories behind art

*Creative Practices for Visual Artists* Kenneth Steinbach, 2018-03-09 Contrary to popular belief, the practice of art isn't just a product of innate talent or artistic vision; artwork emerges from an intentionally constructed and maintained artistic practice. Developed from interviews with more than 75 mid-career artists, *Creative Practices for Visual Artists* examines the methods and approaches highly successful artists use to stay creatively robust for a lifetime. Offering practical strategies and concrete solutions, it also looks at the impacts of digital and social media, as well as recent changes in the educational system that can hinder the formation of a strong artistic practice. Artist and educator Kenneth Steinbach addresses key issues such as: the role of embodied research and non-objective experimentation; reframing one's approach to studio time; forms of productive conflict; the positive role of anxiety; and the importance of failure for the artist. The book will be useful to students and emerging artists, the instructors that teach them, and established artists looking to develop stronger studio habits.
