Performing Arts and the Royal Courts of Southeast Asia, Volume One ,2023-12-04 This publication brings together current scholarship that focuses on the significance of performing arts heritage of royal courts in Southeast Asia. Royal courts have long been sites for the creation, exchange, maintenance, and development of myriad forms of performing arts and other distinctive cultural expressions. The first volume, *Pusaka as Documented Heritage*, consists of historical case studies, contexts and developments of royal court traditions, particularly in the nineteenth and twentieth centuries.

Contemporary Southeast Asia Alice D. Ba,Mark Beeson,2017-10-25 At the epicenter of the world's most dynamic economic continent, Southeast Asia provides a window into some of the most important contemporary global developments in politics, and plays a crucial role in determining the wider region's future. The 3rd edition of this highly-acclaimed text provides a comprehensive analysis of Southeast Asia's remarkable variety of political systems, cultures and traditions, which are without exception all undergoing a variety of major changes. Written by a team of leading experts on Southeast Asia, this volume provides an accessible introduction to a region being buffeted by profound internal social transformation and great power confrontation, as well as the continuing challenges of economic development and environmental management. Comprehensive in its analysis and ambitious in scope, this book will be the perfect introduction for students interested in the culture, politics, economy and society of the nations of Southeast Asia.

Energy Security Cooperation in Northeast Asia Bo Kong,Jae H. Ku,2015-04-24 Drawing on cutting-edge research from leading scholars, this book investigates state preferences for regime creation and assesses state capacity for executing these preferences in Northeast Asia's energy

domain, defined as the geographical area comprising the following countries: Russia, Mongolia, China, Japan, South Korea and North Korea. It examines questions pertaining to how states perceive the need and necessity for establishing a regime when it comes to the issue of energy and how much commitment they make to the effort in Northeast Asia. The book analyses the factors that shape each country's fundamental energy interests in the region, how these interests impact their attitudes toward engaging the region on energy security and the way they carry out their regional engagement. Based on countries' interests in promoting institutionalized regional energy cooperation and their capacity for forging that cooperation, the collection assesses each state's role in contributing to an energy regime in Northeast Asia. It then concludes with a critique on the decade-plus quest for energy security cooperation in Northeast Asia and suggests ways forward for facilitating regional energy security cooperation. This book will be of great interest to scholars and students of environmental policy, energy policy, security studies, Asian studies and international relations.

The Making of Southeast Asia Amitav Acharya, 2013-02-15 Developing a framework to study what makes a region, Amitav Acharya investigates the origins and evolution of Southeast Asian regionalism and international relations. He views the Association of Southeast Asian Nations (ASEAN) from the bottom up as not only a U.S.-inspired ally in the Cold War struggle against communism but also an organization that reflects indigenous traditions. Although Acharya deploys the notion of imagined community to examine the changes, especially since the Cold War, in the significance of ASEAN dealings for a regional identity, he insists that imagination is itself not a neutral but rather a culturally variable concept. The regional imagination in Southeast Asia imagines a community of nations different from NAFTA or NATO, the OAU, or the European Union. In this new edition of a book first published as *The Quest for Identity* in 2000, Acharya updates developments in the region through the

first decade of the new century: the aftermath of the financial crisis of 1997, security affairs after September 2001, the long-term impact of the 2004 tsunami, and the substantial changes wrought by the rise of China as a regional and global actor. Acharya argues in this important book for the crucial importance of regionalism in a different part of the world.

Asymmetric Warfare in South Asia Peter R. Lavoy, 2009-11-12 The 1999 conflict between India and Pakistan near the town of Kargil in contested Kashmir was the first military clash between two nuclear-armed powers since the 1969 Sino-Soviet war. Kargil was a landmark event not because of its duration or casualties, but because it contained a very real risk of nuclear escalation. Until the Kargil conflict, academic and policy debates over nuclear deterrence and proliferation occurred largely on the theoretical level. This deep analysis of the conflict offers scholars and policymakers a rare account of how nuclear-armed states interact during military crisis. Written by analysts from India, Pakistan, and the United States, this unique book draws extensively on primary sources, including unprecedented access to Indian, Pakistani, and U.S. government officials and military officers who were actively involved in the conflict. This is the first rigorous and objective account of the causes, conduct, and consequences of the Kargil conflict.

Asia and Postwar Japan Simon Avenell, 2023-12-04 War, defeat, and the collapse of empire in 1945 touched every aspect of postwar Japanese society, profoundly shaping how the Japanese would reconstruct national identity and reengage with the peoples of Asia. While “America” offered a vision of re-genesis after cataclysmic ruin, “Asia” exposed the traumata of perpetration and the torment of ethnic responsibility. Obscured in the shadows of a resurgent postwar Japan lurked a postimperial specter whose haunting presence both complicated and confounded the spiritual rehabilitation of the

nation. *Asia and Postwar Japan* examines Japanese deimperialization from 1945 until the early twenty-first century. It focuses on the thought and activism of progressive activists and intellectuals as they struggled to overcome rigid preconceptions about “Asia,” as they grappled with the implications of postimperial responsibility, and as they forged new regional solidarities and Asian imaginaries. Simon Avenell reveals the critical importance of Asia in postwar Japanese thought, activism, and politics—Asia as a symbolic geography, Asia as a space for grassroots engagement, and ultimately, Asia as an aporia of identity and the source of a new politics of hope.

The New US Strategy towards Asia William T Tow, Douglas Stuart, 2014-12-17 Barack Obama’s rebalancing or pivot strategy, intended to demonstrate continued US commitment to the Asia-Pacific region in a variety of military, economic, and diplomatic contexts, was launched with much fanfare in 2011. Implicit in the new strategy is both a focus on China – engagement with, and containment of – and a heavy reliance by the United States on its existing friends and allies in the region in order to implement its strategy. This book explores the impact of the new strategy on America’s regional friends and allies. It shows how these governments are working with Washington to advance and protect their distinct national interests, while at the same time avoiding any direct confrontation with China. It also addresses the reasons why many of these regional actors harbour concerns about the ability of the US to sustain the pivot strategy in the long run. Overall, the book illustrates the deep complexities of the United States’ exercise of power and influence in the region.

Asia Pacific Dynamism 1550-2000 Heita Kawakatsu, A. J. H. Latham, 2002-11 Annotation This volume showcases the latest research by a team of international scholars into the economic development of the Asia Pacific region. A geographically and historically diverse range of case studies assess core elements, such as industrialisation, markets, education and banking, that are woven

inextricably through the economic history of the region.

Asia Past and Present Peter P. Wan, Thomas D. Reins, 2021-03-23 A wide-ranging introduction to the multi-faceted history of Asia—from early origins to the present Asia Past and Present is an expansive survey of the social, political, and economic history of the continent from the Paleolithic era to the early 21st century. As there is no physically discrete continent, rather an arbitrary division of the Eurasian landmass, this book focuses on terrain that encompasses India, Pakistan, Afghanistan, Central Asia, China, Korea, Japan, Mongolia, the Russian Far East, and Southeast Asia—the area which most modern scholars identify as Asia. Offering broad chronological and topical coverage of Asia, this book examines subjects including written languages, religions and philosophies, concepts of monarchy, militarism, independence and nation building, and more. Particular focus is placed on the varying levels of influence the core cultures of India and China have had on the continent in a multitude of socio-political areas. Historical dialogues of how colonies, later emerging nations, blended traditional Asian culture and Western political and economic models of modernization complement contemporary discussions of globalization, nuclear tensions, and growing demands for greater individual freedom. Written in an engaging, accessible style, this book: Covers of a wide range of topics, perspectives, geographic regions, and time periods Highlights India and China as the pre 19th century cultural cores of Asia Presents a relatable political-cultural narrative framework Discusses contemporary themes including gender, sexual orientation, the environment, and Western and Islamic influence on Asian culture Includes coverage of commonly underrepresented regions such as the Himalayan nations, Maldives, and New Guinea Asia Past and Present: A Brief History is a valuable resource for undergraduate courses where Asian cultures are introduced, and in courses on Asian politics, diplomacy, environmental issues, and socio-economics.

China and South Asia Rajiv Ranjan, Guo Changgang, 2021-09-30 This book looks at the changing dynamics and regional power play between China and South Asia. It explores crucial issues such as China-Pakistan Economic Corridor and the changing nature of China-India relations; China's trident approach in South Asia and its rising influence in the region; the responses of small states to rising China; China's twenty-first-century Belt and Road Initiative; China and India; China's rise and the USA's security policy vis-à-vis India; the Shanghai Cooperation Organization and regional security; and Russia's 'Pivot to the East' and its impact on the Asia-Pacific region. The volume brings together the views of scholars from China, South Asia and beyond on different aspects of China and South Asia engagement, including regional politics, connectivity, infrastructure and development projects, power politics, economy, ideology and culture. The chapters offer insights into trends and challenges within China's economic and security environment as impacted by globalization, regional interests and the demands of cooperation. They present critical, comprehensive and expert analyses of China's engagement with South Asia by covering historical, sociological, political, cultural, economic and strategic factors while including perspectives from individual countries. This volume will be useful to scholars and researchers of Chinese studies, politics and international relations, South Asian studies, foreign policy, diplomacy, security and strategic studies and political studies, as well as to those in media, policymakers, bureaucrats, diplomats and think tanks.

Singapore and Asia in a Globalized World Wai Mun Chia, Hui Ying Sng, 2009 This book is a spin-off from a highly successful seminar series jointly organized by the Division of Economics of the Nanyang Technological University (NTU) and the Ministry of Education (MOE) of Singapore. The seminars discuss contemporary domestic and regional economic issues and public policies that are relevant to the everyday lives of Singaporeans. The wish to introduce these economic issues to a broader

audience outside the confinement of a lecture theatre, came to fruition, with the completion of this book. This book contains 13 chapters that are grouped under three sections. Under the section, 'Public Policies and Economic Issues of Singapore', Singapore's public policies in the areas of healthcare, Central Provident Fund, and monetary policy are explored, as well as issues concerning Singapore's economic development, such as economic transformation, innovation and capital accumulation are discussed. The second section, 'Singapore and the Region in a Globalized World', looks at the challenges and opportunities presented to Singapore and the region in an increasingly globalized world. Current issues on the sub-prime crisis and Asian monetary integration are also discussed. The last section, 'Other Economic Issues?', consists of papers in specific areas such as economics of medical decisions, economics of love, and the role of exchange rates in foreign direct investment.

Defence and Decolonisation in South-East Asia Karl Hack, 2013-12-16 This book explains why British defence policy and practice emerged as it did in the period 1941-67, by looking at the overlapping of colonial, military, economic and Cold War factors in the area. Its main focus is on the 1950s and the decolonisation era, but it argues that the plans and conditions of this period can only be understood by tracing them back to their origins in the fall of Singapore. Also, it shows how decolonisation was shaped not just by British aims, but by the way communism, communalism and nationalism facilitated and frustrated these.

Global Exposure in East Asia Ming-Chang Tsai, 2016-03-09 In contrast to speculative, sweeping literature on globalization *Global Exposure in East Asia* grounds globalization theories in a detailed empirical analysis, providing a systematic investigation of what until now have been grand narratives of huge global phenomena. This book presents a micro-level explanation of globalization by

examining individual global exposure and its influence in the values and perceptions of individuals, contending that individual and personal global experience, or 'microglobalization', is a key variable in understanding how modern mobile persons act and think in ways different from those who remain geographically immobile and constrained. Drawing on detailed empirical evidence from China, Japan, Taiwan and South Korea, *Global Exposure in East Asia* explores the structures of global exposure and their influences on values and identities in contemporary East Asia. A rich, comparative and grounded examination of modern theories of globalization, this book introduces an innovative perspective that highlights the significance of microglobalization in understanding quotidian lives in a context of ever expanding transnational exchanges and connectivities. As such, it will appeal to social scientists with interests in globalization, cosmopolitanism, mobility, migration and transnationalism, (national) identity and everyday life.

International Environmental Consulting Practice Peter A. Sam, 1999 A source of information about present and future opportunities in the international environmental consulting market. This text analyzes the trends which shape the present market and provides information on how to capitalise on future markets. The reader is shown how and where to find environmental consulting opportunities (hazardous waste management, water purification, water pollution control, air pollution solutions, and

municipal solid waste management) in global markets. It lists contacts at banks, donor agencies, and government agencies which fund international environmental consulting projects, and includes projections on the global environmental consulting market and where the most lucrative opportunities are located.

The Future of East Asia Peter Hayes, Chung-In Moon, 2017-12-04 This book collects some of the most influential scholars in international relations who focus on Asia globally in exploring the challenges of diplomacy faced in Asia as US policy drastically changes. The president-elect has suggested policies which, if implemented, would radically transform the way that the region functions; what will this mean in practice? China's government is also retrenching nationalist positions; what is the future of China, and what does that mean for the region? A wide range of distinguished scholars, concerned about the future, have contributed their thoughts in an attempt to spark a global dialogue.

Maximizing Human Capital in Asia Elizabeth Martin-Chua, 2009-09-15 Organizations do not fully appreciate the link between people and business. They are too driven by short-term financial pressures, resulting in the failure to acknowledge the relationship between leadership, people management processes and business growth. Last but not least, employees' true needs are also not satisfied. What is the solution? As growth is the objective of all parties, HR must build an employee value proposition that would achieve this. This value proposition has to premise itself on satisfying employees' needs that will result in highly engaged employees, who in turn will deliver high-quality products and services, bringing about happy customers. This interactive process will maximize the human capital and business growth through a strong employer and product brand. In particular, to be successful in Asia, it is important to synergize East with West in all decision making. Three approaches are recommended: Global for Local, Local for Local and Local for Global. The first is

having a mindset of a global framework allowing for local customization when necessary. The second is encouraging local for local initiatives to capitalize on local advantages. The third is sharing best experiences and strengths for global benefit. In the case of talent management, organizations should strongly encourage diversity and inclusion, to take advantage of the strengths of the talents that come from different cultures—to maximize the company's human capital, from the inside out. This is a unique opportunity and should not be missed.

Asia's Role in Governing Global Health Kelley Lee, Tikki Pang, Yeling Tan, 2013 This book investigates the neglected question of the impact of a rising Asia on the management of transboundary health problems. The chapters examine the role played by Asia in the governance of a range of global health issues and are tied together by a common focus on Asian countries' use of the sovereignty principle. In addition, the contributors examine the interaction between global, regional and domestic institutions, and present current ideas in Asia on the challenge of governing global health.
