Transportation Decision Making Kumares C. Sinha, Samuel Labi, 2011-09-09 This pioneering text provides a holistic approach to decisionmaking in transportation project development and programming, which can help transportation professionals to optimize their investment choices. The authors present a proven set of methodologies for evaluating transportation projects that ensures that all costs and impacts are taken into consideration. The text's logical organization gets readers started with a solid foundation in basic principles and then progressively builds on that foundation. Topics covered include: Developing performance measures for evaluation, estimating travel demand, and costing transportation projects Performing an economic efficiency evaluation that accounts for such factors as travel time, safety, and vehicle operating costs Evaluating a project's impact on economic development and land use as well as its impact on society and culture Assessing a project's environmental impact, including air quality, noise, ecology, water resources, and aesthetics Evaluating alternative projects on the basis of multiple performance criteria Programming transportation investments so that resources can be optimally allocated to meet facility-specific and system-wide goals Each chapter begins with basic definitions and concepts followed by a methodology for impact assessment. Relevant legislation is discussed and available software for performing evaluations is presented. At the end of each chapter, readers are provided resources for detailed investigation of particular topics. These include Internet sites and publications of international and domestic agencies and research institutions. The authors also provide a companion Web site that offers updates, data for analysis, and case histories of project evaluation and decisionmaking. Given that billions of dollars are spent each year on transportation systems in the United States alone, and that there is a need for thorough and rational evaluation and decision making for cost-effective system preservation and improvement, this text should be on the desks of all transportation planners, engineers, and educators. With exercises in every chapter, this text is an ideal coursebook for the subject of transportation systems analysis and evaluation.

Three Books of Occult Philosophy Or Magic Heinrich Cornelius Agrippa, 2007-12-01 Edgar Allan Poe called it a quaint and curious volume of forgotten lore. This classic work of Renaissance esotericism by German magician and alchemist HEINRICH CORNELIUS AGRIPPA (1486-1535), one of the important figures in the occult history and philosophy of Europe—is vital reading for anyone fascinated by the Jewish Kabbalah, Christian mysteries, and other arcane traditions. This replica of an 1897 edition, featuring all the original charts and illustrations, reveals Agrippa's understanding of the mysteries of magic, the elements, the heavens, the natural and occult virtues of all things, and much more.

Imperfect Creatures Lucinda Cole, 2016-02-26 Lucinda Cole's *Imperfect Creatures* offers the first full-length study of the shifting, unstable, but foundational status of “vermin” as creatures and category in the early modern literary, scientific, and political imagination. In the space between theology and an emergent empiricism, Cole's argument engages a wide historical swath of canonical early modern literary texts—William Shakespeare's *Macbeth*, Christopher Marlowe's *The Jew of Malta*, Abraham Cowley's *The Plagues of*

Egypt, Thomas Shadwell's *The Virtuoso*, the Earl of Rochester's "A Ramble in St. James's Park," and Daniel Defoe's *Robinson Crusoe* and *Journal of the Plague Year*—alongside other nonliterary primary sources and under-examined archival materials from the period, including treatises on animal trials, grain shortages, rabies, and comparative neuroanatomy. As Cole illustrates, human health and demographic problems—notably those of feeding populations periodically stricken by hunger, disease, and famine—were tied to larger questions about food supplies, property laws, national identity, and the theological imperatives that underwrote humankind's claim to dominion over the animal kingdom. In this context, Cole's study indicates, so-called "vermin" occupied liminal spaces between subject and object, nature and animal, animal and the devil, the devil and disease—even reason and madness. This verminous discourse formed a foundational category used to carve out humankind's relationship to an unpredictable, irrational natural world, but it evolved into a form for thinking about not merely animals but anything that threatened the health of the body politic—humans, animals, and even thoughts.

The Chastity Plot Lisabeth During, 2021-04-23 In *The Chastity Plot*, Lisabeth During tells the story of the rise, fall, and transformation of the ideal of chastity. From its role in the practice of asceticism to its associations with sovereignty, violence, and the purity of nature, it has been loved, honored, and despised. Obsession with chastity has played a powerful and disturbing role in our moral imagination. It has enforced patriarchy's double standards, complicated sexual relations, and imbedded in Western culture a myth of gender that has been long contested by feminists. Still not yet fully understood, the chastity plot remains with us, and the metaphysics of purity continue to haunt literature, religion, and philosophy. Idealized and unattainable, sexual renunciation has shaped social institutions, political power, ethical norms, and clerical abuses. It has led to destruction and passion, to seductive fantasies that inspired saints and provoked libertines. As During shows, it should not be underestimated. Examining literature, religion, psychoanalysis, and cultural history from antiquity through the middle ages and into modernity, During provides a sweeping history of chastity and insight into its subversive potential. Instead of simply asking what chastity is, During considers what chastity can do, why we should care, and how it might provide a productive disruption, generating new ways of thinking about sex, integrity, and freedom.
