Audra Simpson

Open Book Jessica Simpson, 2020-02-04 The #1 New York Times Bestseller Jessica reveals for the first time her inner monologue and most intimate struggles. Guided by the journals she's kept since age fifteen, and brimming with her unique humor and down-to-earth humanity, *Open Book* is as inspiring as it is entertaining. This was supposed to be a very different book. Five years ago, Jessica Simpson was approached to write a motivational guide to living your best life. She walked away from the offer, and nobody understood why. The truth is that she didn't want to lie. Jessica couldn't be authentic with her readers if she wasn't fully honest with herself first. Now America's Sweetheart, preacher's daughter, pop phenomenon, reality tv pioneer, and the billion-dollar fashion mogul invites readers on a remarkable journey, examining a life that blessed her with the compassion to help others, but also burdened her with an almost crippling need to please. *Open Book* is Jessica Simpson using her voice, heart, soul, and humor to share things she's never shared before. First celebrated for her voice, she became one of the most talked-about women in the world, whether for music and fashion, her relationship struggles, or as a walking blonde joke. But now, instead of being talked about, Jessica is doing the talking. Her book shares the wisdom and inspirations she's learned and shows the real woman behind all the pop-culture clichés – "chicken or fish," "Daisy Duke," football jinx, "mom jeans," "sexual napalm..." and more. *Open Book* is an opportunity to laugh and cry with a close friend, one that will inspire you to live your best, most authentic life, now that she is finally living hers.

Mohawk Interruptus Audra Simpson, 2014-05-27 *Mohawk Interruptus* is a bold challenge to dominant thinking in the fields of Native studies and anthropology. Combining political theory with ethnographic research among the Mohawks of Kahnawà:ke, a reserve community in what is now southwestern Quebec, Audra Simpson examines their struggles to articulate and maintain political sovereignty through centuries of settler colonialism. The Kahnawà:ke Mohawks are part of the Haudenosaunee or Iroquois Confederacy. Like many Iroquois peoples, they insist on the integrity of Haudenosaunee governance and refuse American or Canadian citizenship. Audra Simpson thinks through this politics of refusal, which stands in stark contrast to the politics of cultural recognition. Tracing the implications of refusal, Simpson argues that one sovereign political order can exist nested within a sovereign state, albeit with enormous tension around issues of jurisdiction and legitimacy. Finally, Simpson critiques anthropologists and political scientists, whom, she argues, have too readily accepted the assumption that the colonial project is complete. Belying that notion, *Mohawk Interruptus* calls for and demonstrates more robust and evenhanded forms of inquiry into indigenous politics in the teeth of settler governance.

Bikes and Bloomers Kat Jungnickel,2018-05-04 An illustrated history of the evolution of British women's cycle wear. The bicycle in Victorian Britain is often celebrated as a vehicle of women's liberation. Less noted is another critical technology with which women forged new and mobile public lives—cycle wear. This illustrated account of women's cycle wear from Goldsmiths Press brings together Victorian engineering and radical feminist invention to supply a missing chapter in the history of feminism. Despite its benefits, cycling was a material and ideological minefield for women. Conventional fashions were unworkable, with skirts catching in wheels and tangling in pedals. Yet wearing “rational” cycle wear could provoke verbal and sometimes physical abuse from those threatened by newly mobile women. Seeking a solution, pioneering women not only imagined, made, and wore radical new forms of cycle wear but also patented their inventive designs. The most remarkable of these were convertible costumes that enabled wearers to transform ordinary clothing into cycle wear. Drawing on in-depth archival

research and inventive practice, Kat Jungnickel brings to life in rich detail the little-known stories of six inventors of the 1890s. Alice Bygrave, a dressmaker of Brixton, registered four patents for a skirt with a dual pulley system built into its seams. Julia Gill, a court dressmaker of Haverstock Hill, patented a skirt that drew material up the waist using a mechanism of rings or eyelets. Mary and Sarah Pease, sisters from York, patented a skirt that could be quickly converted into a fashionable high-collar cape. Henrietta Müller, a women's rights activist of Maidenhead, patented a three-part cycling suit with a concealed system of loops and buttons to elevate the skirt. And Mary Ann Ward, a gentlewoman of Bristol, patented the "Hyde Park Safety Skirt," which gathered fabric at intervals using a series of side buttons on the skirt. Their unique contributions to cycling's past continue to shape urban life for contemporary mobile women.

Drowning Instinct Ilse J. Bick, 2012-02-01 Jenna Lord's first sixteen years were not exactly a fairy tale. Her father is a controlling psycho and her mother is a drunk. She used to count on her older brother until he shipped off to Iraq. And then, of course, there was the time she almost died in a fire. Mitch Anderson is many things: A dedicated teacher and coach. A caring husband. A man with a certain...magnetism. *Drowning Instinct* is a novel of pain, deception, desperation, and love against the odds and the rules.

Investors Chronicle and Money Market Review, 1958

Let's Get Saucy Hannah Janish, 2018-11-07 From Hannah: This book has over 55 sauce recipes that will change your life. For real, they will take a so-so dish and make it gold, Baby! I think it's fair to say that sauce is one of the most important parts of a dish. Sauce is what brings everything and everyone together. No one just sits around eating wings, fries or tater tots without something on top of them. Sauces make dishes far more interesting. You would feel lost without something to dip your waffle fries into. What would you do without honey mustard? Well... plant-based honey mustard. A trio of simple chip dips makes it seem like you put some serious effort into something, even if it took you 5 minutes to make. Congratulations you are now the MVP of Super Bowl Sunday! If it weren't for you, your spouse and friends would be sitting around eating Fritos while simultaneously screaming and throwing stale popcorn at the TV. That might make it fun for you to watch, but their beer filled bellies will scream for more substance. With so many choices you'll find lots of recipes that will become new staples for you and your family. Love, Hannah

The Division of Labor in Society Émile Durkheim, 2013 mile Durkheim is often referred to as the father of sociology. Along with Karl Marx and Max Weber he was a principal architect of modern social science and whose contribution helped established it as an academic discipline. The Division of Labor in Society, published in 1893, was his first major contribution to the field and arguably one his most important. In this work Durkheim discusses the construction of social order in modern societies, which he argues arises out of two essential forms of solidarity, mechanical and organic. Durkheim further examines how this social order has changed over time from more primitive societies to advanced industrial ones. Unlike Marx, Durkheim does not argue that class conflict is inherent to the modern Capitalistic society. The division of labor is an essential component to the practice of the modern capitalistic system due to the increased economic efficiency that can arise out of specialization; however Durkheim acknowledges that increased specialization does not serve all interests equally well. This important and foundational work is a must read for all students of sociology and economic philosophy.

Optical Properties of Solids Frederick Wooten, 2013-10-22 Optical Properties of Solids covers the important concepts of intrinsic optical properties and photoelectric emission. The book starts by providing an introduction to the fundamental optical spectra of solids. The text then discusses Maxwell's equations and the dielectric function; absorption and dispersion; and the theory of free-electron metals. The quantum mechanical theory of direct and indirect transitions between bands; the applications of dispersion relations; and the derivation of an expression for the dielectric function in the self-consistent field approximation are also encompassed. The book further tackles current-current correlations; the fluctuation-dissipation theorem; and the effect of surface plasmons on optical properties and photoemission. People involved in the study of the optical properties of solids will find the book invaluable.

Good and Cheap Leanne Brown, 2015-07-14 A perfect and irresistible idea: A cookbook filled with delicious, healthful recipes created for everyone on a tight budget. While studying food policy as a master's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government's Supplemental Nutrition Assistance Program informally known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving itself. The author launched a Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000, and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “Terrific!”; and Michael Pollan, who cited it as a “cool kickstarter.” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace.
