Napoleon's Oracle ,2003

Napoleon's Oraculum and Dream Book ,1884

Napoleons Oraculum Frank Tousey,2016-06-30 Napoleon's Oraculum is one of the foremost fortune-telling works of its era. Based in part on the system found in the earlier British work *The Philosophical Merlin*, it purports to deliver to the reader a system of divination once used by Napoleon Bonaparte himself to govern his conquests. This edition of the work, earlier than other American endeavors at crafting such a system, adds to the Oraculum itself an elaborate series of passages by which playing cards, dice, dominoes, and other means can be used to divine fortunes. Altogether, it is perhaps the finest pre-modern work of its type ever made.

Napoleon's Book of Fate and Oraculum Anonymous,2010-02 Reprint Edition. Profusely illustrated.

In 1813 Napoleon was defeated at Leipzig. However he left behind him a Cabinet of Curiosities among

which a Prussian officer discovered an Oraculum and a Book of Fate. Originally this Oraculum had been discovered in one of the Royal tombs of Egypt during a French military expedition of 1801. The emperor ordered the manuscript to be translated by a famous German scholar and antiquarian. From that time onwards the Oraculum remained one of Napoleon's most treasures possessions. He consulted it on many occasions and it is said to have formed a stimulus to his most speculative and most successful enterprises. Containing: Dreams and their Interpretation, Weather Omens, Astrological Miscellany and Important Advice, Chiromancy or Fortune Telling by the Hand, Celestial Palmistry, Observations on Moles in Men and Women, Temper and Disposition of any Person, The Art of Face Reading, Lucky Days, etc.

Explore The Power Of Astrology Trikona A. P. Parashar, Dr. V.K. Parashar, 2006-05-08 This book

offers a fresh and advanced perspective on the three important angles (houses) of the chart (kundali) traditionally known as TRIKONA, which are, the ascendant, the fifth and the ninth houses. It tells us how these houses influence one's life constantly and how the planets, when own these houses, influence individual's life. 36 case studies have been discussed in detail to show how planets play their role in the growth of human beings.

A Manual of Astrology, or the Book of the Stars. By Raphael ,1828

The Book of Fate Brad Meltzer,2006-09-05 Six minutes from now, one of us would be dead. None of us knew it was coming. So says Wes Holloway, a young presidential aide, about the day he put Ron Boyle, the chief executive's oldest friend, into the president's limousine. By the trip's end, a crazed assassin would permanently disfigure Wes and kill Boyle. Now, eight years later, Boyle has been spotted alive. Trying to figure out what really happened takes Wes back into disturbing secrets buried in Freemason history, a decade-old presidential crossword puzzle, and a two-hundred-year-old code invented by Thomas Jefferson that conceals secrets worth dying for.

How to Read the Crystal Sepharial, 2023-11-23 This book provides a comprehensive crystal guide with concise instructions in order to give the knowledge of the use of these special minerals for various spiritual and magical purposes. The author Sepharial, whose original name is Walter Gorn Old (1864 - 1929) was a 19th-century astrologer, who used the nom-de-plume Sepharial, after an angel in the apocryphal Book of Enoch. An eminent English Theosophist, Sepharial was a well-known and respected astrologer in the late 19th and early 20th centuries and wrote numerous books, some of which are still highly regarded in some circles today. He was editor of Old Moore's Almanac, which is still published in the 21st century.

The Manual of Astrology, the Standard Work Sepharial, 2010-09 First published in 1898, this is a very different astrology book from what we have now. There are extensive delineations for the signs of the zodiac, especially when found on the ascendant. There are delineations of planets in signs when they are in the first house or are the chart ruler, in both cases, describing the physical appearance. There are delineations of planets in the various houses, which will also serve for the planetary

rulerships of the houses. There are only sketchy notes on aspects. So far as the pure astrology of planets in signs, in houses, in aspect, there is almost nothing at all. The reason is found in the second part of the book. We are not reading the chart as a psychological abstraction. We are, instead, looking for specific traits, attempting to answer specific questions. Will we have a profession? What kind of marriage? What kind of children? Will we vanquish our enemies, or submit to them? What kind of illness? We then find the house(s) of the horoscope which rule the question, and then delineate the signs & planets we find there. These are, by the way, the sort of questions that clients would ask, if they only knew we could give answers! The sort of things that astrologers themselves want to know. In the process we learn how to read a chart & get real meaning from it. We get ideas from one section and then apply them to other sections. There are hundreds and hundreds of useful aphorisms, except that Sepharial doesn't label them as such. Get this book, study it, underline key passages, scribble in the margins. You will learn more from this book than most all others put together.

Talks on the Path of Occultism Annie Besant,Charles Webster Leadbeater,1926

The Secrets of the Human Aura Swami Panchadasi,2018-12-28 The dictionaries define the word aura as: Any subtle, invisible emanation or exhalation. The English authorities, as a rule, attribute the origin of the word to a Latin term meaning air, but the Hindu authorities insist that it had its origin in the Sanscrit root Ar, meaning the spoke of a wheel, the significance being perceived when we remember the fact that the human aura radiates from the body of the individual in a manner similar to the radiation of the spokes of a wheel from the hub thereof. The Sanscrit origin of the term is the one preferred by occultists, although it will be seen that the idea of an aerial emanation, indicated by the Latin root, is not foreign to the real significance of the term. Be the real origin of the term what it may, the idea of the human aura is one upon which all occultists are in full agreement and harmony, and the mention of which is found in all works upon the general subject of occultism. So we shall begin by a consideration of the main conception thereof, as held by all advanced occultists, ancient and

modern, omitting little points of theoretical variance between the different schools.
