This book provides a comprehensive crystal guide with concise instructions in order to give the knowledge of the use of these special minerals for various spiritual and magical purposes. The author Sepharial, whose original name is Walter Gorn Old (1864 - 1929) was a 19th-century astrologer, who used the nom-de-plume Sepharial, after an angel in the apocryphal Book of Enoch. An eminent English Theosophist, Sepharial was a well-known and respected astrologer in the late 19th and early 20th centuries and wrote numerous books, some of

which are still highly regarded in some circles today. He was editor of Old Moore's Almanac, which is still published in the 21st century.

The Manual of Astrology, the Standard Work

Sepharial, 2010-09 First published in 1898, this is a very different astrology book from what we have now. There are extensive delineations for the signs of the zodiac, especially when found on the ascendant. There are delineations of planets in signs when they are in the first house or are the chart ruler, in both cases, describing the physical appearance. There are delineations of planets in the various houses, which will also serve for the planetary rulerships of the houses. There are only sketchy notes on aspects. So far as the pure astrology of planets in signs, in houses, in aspect, there is almost nothing at all. The reason is found in the second part of the book. We are not reading the chart as a psychological abstraction. We are, instead, looking for specific traits, attempting to answer specific questions. Will we have a profession? What kind of marriage? What kind of children? Will we vanquish our enemies, or submit to them? What kind of illness? We then find the house(s) of the horoscope which rule the question, and then delineate the signs & planets we find there. These are, by the way, the sort of questions that clients would ask, if they only knew we could give answers! The sort of things that astrologers themselves want to know. In the process we learn how to read a chart & get real meaning from it. We get ideas from one

section and then apply them to other sections. There are hundreds and hundreds of useful aphorisms, except that Sepharial doesn't label them as such. Get this book, study it, underline key passages, scribble in the margins. You will learn more from this book than most all others put together.

Transit of Planets Vinay Garg, Transit of planets talks about the technique of making predictions on the basis of current position of planets on the horoscope of native. The main objective of Astrology is to predict the future of the native with the help of his horoscope. For making accurate prediction it is necessary to make an analysis of three factors. These three factors are YOGAS formed with the combination and permutation of planets, 2nd important factor is periods (dasa) and 3rd factor is transit. When a person comes with a query, first of all it should be analyzed that the query is related with which house, planets, the planet occupying this house and the planets aspecting this house. The determination of the auspicious or inauspicious results of that house shall be done by analyzing three factors. These are house, house Lord and significators. For example if the question asked is regarding marriage in that case we shall see that which planets are there in seventh house, this house is aspected by which planets. Marriage yoga for the possibility of marriage is there or not and in addition to that the position of significator of 7th house i.e. Jupiter/Venus

should be analyzed. For females the significator of 7th house is Jupiter and for males the natural significator of 7th house is Venus. By analyzing the placement, combination, and benefic or malefic impact of these planets we conclude whether auspicious yoga for the possibility of marriage is there or not. After Yoga next important factor to be considered is major or sub period, the duration of main period is a long and sub period's duration also can be 6 months or more than 2 years therefore, in order to predict the timing of an event during these 2 years the help of transit can be taken. Therefore, for predicting an event the importance of transit should be considered. Although it is a matter of long discussion to determine whether transit predictions should be made on the basis of ascendant sign or moon sign. For supporting the predictions from both, scholars have given logical and justifiable opinions. But, the conclusions that we have derived on the basis of our experience advocate that auspiciousness or inauspiciousness of the transit results of planets should be done on the basis of moon sign and what type of results i.e, which house results it shall yield would be decided on the basis of ascendant sign. For instance if moon is positioned in 7th house and the sign of Leo is there, therefore transit of Saturn into this sign shall cause negative impact of Saturn's SADHESATI because transit of Saturn into Leo shows inauspicious results therefore there can be delay or problems in marriage and married life. Similarly what can be the results of transit of planets by considering the other important factors has been

taken into account in this book. Because of lack of availability of books in the field of transit predictions this book has been written for catering the need of students of all India Federation of Astrologer's Societies Delhi. This book shall be of immense help for solving the problems of students while studying the techniques of making predictions.

Vedic Cosmography and Astronomy Richard L. Thompson,2004 The mysteries of the fifth Canto of the Srimad Bhagavatam have long puzzled students of Vedic cosmography and astronomy. Confronted with a description of the universe that seems much at variance with the information provided by our senses and standard astronomical calculations, foreign observers and even Indian commentators from the middle ages up to the present have concluded that the Bhagavatam's account elaborated in other Puranas must be mythological. On the other hand the same persons have been much impressed with vedic astronomical treatises the jyotisastras which provide remarkably accurate

measurements of the solar system.

Covid-19 Peter Tremblay, 2021-03-19 A milieu in which citizens can freely examine information distinguishes a democracy from a fascist society that seeks to control and oppress knowledge. Society's ability to rid itself of COVID-19 has been prevented by groups that seek to repress information because they apparently view the pandemic to be in their interest. The stated official origin of COVID-19—that it was spontaneously generated from nature—is a myth that is being proselytized in a disinformation steamroll against freedom of information and critical thought. Investigative journalist Peter Tremblay suggests that COVID-19 is essentially a weapon of mass destruction (WMD) unleashed against

humanity because of ideological goals.COVID-19 was spawned from the minds of evil men who seek to depopulate our planet Earth and pursue unlimited control over the remainder of a population that will no longer be the humans we are presently.
