The ARTHASHASTRA Kautilya,2000-10-14 An extraordinary detailed manual on statecraft and the science of living by one of classical India's greatest minds; Kautilya; also known as Chanakya and Vishnugupta; wrote the Arthashastra not later than 150 AD though the date has not been conclusively established. Legend has it that he was either a Brahmin from Kerala or from north India; however; it is certain that Kautilya was the man who destroyed the Nanda dynasty and installed Chandragupta Maurya as the King of Magadha. A master strategist who was well-versed in the Vedas and adept at creating intrigues and devising political stratagems; Kautilya's genius is reflected in his Arthashastra which is the most comprehensive treatise of statecraft of classical times. The text contains fifteen books which cover numerous topics viz.; the King; a complete code of law; foreign policy; secret and occult practices and so on. The Arthashastra is written mainly in prose but also incorporates 380 shlokas. Artha; literally wealth; is one of four supreme aims prescribed by Hindu tradition. However; it has a much wider significance and the material well-being of individuals is just a part of it. In accordance with this; Kautilya's Arthashastra maintains that the state or government of a country has a vital role to play in maintaining the material status of both the nation and its people. Therefore; a significant part of the Arthashastra has to do with the science of economics. When it deals with the science of politics; the Arthashastra describes in detail the art of government in its widest sense—the maintenance of law and order as also of an efficient administrative machinery.

Gleanings in the Godhead Arthur W. Pink,2011-09-01 Few who occasionally read the Bible are aware of the awe-inspiring and worship-provoking grandeur of the divine character. That God is great in wisdom, wondrous in power, yet full of mercy is assumed by many as common knowledge. But to entertain anything approaching an adequate conception of His being, nature, and attributes, as revealed in the Scripture, is something which very few people in these degenerate times have done. God is solitary in His excellency. Who is like unto Thee, O LORD, among the gods? who is like Thee, glorious in holiness, fearful in praises, doing wonders? (Ex. 15:11). Arthur Walkington Pink was an English Christian evangelist and Biblical scholar known for his staunchly Calvinist and Puritan-like teachings. Though born to Christian parents, prior to conversion he migrated into a Theosophical society (an occult gnostic group popular in England during that time), and quickly rose in prominence within their ranks. His conversion came from his father's patient admonitions from Scripture. It was the verse, Proverbs 14:12, 'there is a way which seemeth right unto a man, but the end thereof are the ways of death, ' which particularly struck his heart and compelled him to renounce Theosophy and follow Jesus.

The First Great Political Realist Roger Boesche,2003 This book provides an analysis of one of the ancient world's foremost political realists, Kautilya. Kautilya's treatise Arthashastra stands as one of the great political books of the ancient world, its ideas on the science of politics strikingly similar to those of Thucydides, Machiavelli, Hobbes, Clausewitz, and even Sun Tzu. The author's commentary on Kautilya's text draws out the essential realist arguments for modern political analysis and demonstrates the continued relevance of Kautilya's work to modern Indian strategic thinking and our understanding of the relationship between politics and economics. Striking a balance between textual analysis and secondary scholarship, this work contributes to the study of ancient Indian history, Eastern political thought, and international relations.
