**1-Day Diet - the Fastest Diet in the World!** Jennifer Jolan,Rich Bryda,2014-01-06 If you've dreamed of a way to safely and quickly lose weight while still eating foods you love, then this book by bestselling weight loss authors Jennifer Jolan and Rich Bryda could be exactly what you're looking for.The 1-Day Diet is changing the diet and weight loss world. Based on hard science, it works without constantly dieting for days, weeks, and months at a time... without planning special meals...without counting calories... and without needing to exercise.The idea behind this diet was first discovered by professional athletes (who wanted to lose body fat without starving or feeling tired) and then perfected for women by a world-class diet expert.In fact, it's not unusual to lose 2-5 pounds the first day and up to 30 pounds the first month without fat returning. The Best Part? You're only allowed to do the diet 1-3 days per week. The rest of the week you can eat all your favorite foods (even bad foods) as long as you follow a few simple guidelines. Some of the secrets in this fascinating book include:The science behind why it's almost impossible to fail here. (Even if everything else hasn't worked.) - How to diet 1 day a week to KEEP fat off forever. (No yo-yo effect or worrying about fat creeping back on.) - A simple 5-minute exercise that can double your weight loss speed on the 1-Day Diet. (Exercise is NOT required-but you can lose weight TWICE as fast by doing this simple exercise that takes only 5 minutes per day.) - How to use the 1-Day Diet Plan to cut your food bill almost in half. - How to prevent fat gain even while pigging out on holidays and weekends. - How the 1-Day Diet naturally eliminates cravings and thinking about food. - A spice that lowers blood sugar levels, makes you more insulin sensitive (that's really good thing), and helps you lose weight. - The 1-hour window to eat as bad as you want without gaining fat. (If you really want to indulge, eat your bad meals at this exact time to carbs turn into energy instead of fat.) - Why the 1-Day Diet is NECESSARY for pre-diabetic people... or who have full-blown diabetes. (Millions of people are pre-diabetic and don't even know it.) - Why typical dieting and exercise are often no match for CRAZY, out-of-control hormones... and how to fix your hormones so weight loss follows. - The culprit found in processed foods at a rate of 1,000,000 times higher than estrogen found in women's breasts! A disaster for weight loss. - How our foods became so nutritionally empty that it now takes 26 of this fruit to equal the nutrition of 1 of them from 1914! - You know second-hand smoke is bad for you, right? Well, this common food is like the equivalent of second-hand smoke. Bad news... and you're eating it without even knowing it. - Women hold fat because they have 1,000 TIMES the concentration of these versus men (a big reason why women usually have a harder time losing weight). - This cheap substance has 84 different minerals... the version you probably get has only 2. **The Four Magic Moves to Winning Golf** Joe Dante, 2009-03-25 The legendary golf instructional, available again. This is, along with Harvey Penick's Little Red Book, THE book Golf professionals turn to. Thirty years ago I was recommending Joe Dante's book The Four Magic Moves To Winning Golf as a must read for aspiring PGA professionals. What Dante said in '62 has influenced many of the game's finest teachers. Dante was a visionary.--Gary Wren, author of New Golf Mind When published, The Four Magic Moves To Winning Golf radically changed the way many players thought about the golf swing. Dante's system showed how simple it was to improve one's game, and at the same time gave the golfer one of the most comprehensive analyses of swing mechanics ever published. Now, thirty-three years after its original publication, Main Street is proud to reissue this classic instructional. Dante begins by sweeping out all the misconceptions of the game. If good golf is to be learned and the poor player is to improve, a purging must take place, painful as it may be. Dante discusses a few basics of grip and stance, and then he gets to the heart of his book, the four magic moves. As he reveals each of the moves, Dante focuses on the physical checkpoints so that any golfer can make sure that his or her swing is on the right track. The Four Magic Moves To Winning Golf is straightforward and easy to understand, yet unlike other golf books it is irreverent and audacious in its approach to mastering the game. The publication of this rediscovered classic is sure to establish Joe Dante's reputation as one of golf's greatest teachers.
