Copyright Enforcement and the Internet Irini A.

Stamatoudi,2010-01-01 Most of the existing European Union and international policies are considered in some depth, and the authors also discuss a variety of national laws and initiatives, technical measures, and the soft law and hard law models that have been proposed. In the years to come, as more and more lawyers are confronted with issues involving copyright enforcement on the Internet, this book's value as a springboard to the informed future development of this area of legal theory and practice will become more evident. For this reason, as well as for its richly detailed treatment of trends and current reality in the field, it is sure to be read and put to good use by business people, international lawyers, government officials, and interested academics in all parts of the world.

Facts of Faith Christian Edwardson,2001-05 During forty years of caring for districts of churches and isolated believers, besides raising up new churches by evangelistic effort, the author of this work became greatly impressed with the need of educating the people in the fundamental doctrines of the Holy Scriptures. He has found very few who could give from the word of God an intelligent reason for even its most prominent and important truths. This spiritual poverty any minister will discover by personal investigation. When we add to this condition the fact that during the past thirty years new errors have been stealthily introduced among Christians generally--errors which undermine the very foundations of Bible truth and Christianity--it becomes evident that even professing Christians are unprepared for the crises they will be obliged to meet in the near future.

The Insightful Body Julie McKay,2010-07-15 SomaCentric Dialoguing offers therapists simple yet effective techniques for improving communication with their clients, and for helping clients understand and articulate the messages of their body. In this accessible introduction to the approach, Julie McKay outlines the core techniques and describes how they can be applied to make therapeutic sessions more effective. Explaining that

individuals communicate and process information in different ways she describes how therapists can identify each client's unique language blend, and how they can use this knowledge to encourage them to become more in tune with, and more able to express, their body's needs. Guidance is provided on how to ask more effective questions in sessions, what words to use, and what words to avoid, for optimal results. Using carefully chosen words and phrases therapists can empower clients to express themselves freely. Using the simple, yet profound, techniques outlined in this book therapist of all kinds will learn how to look beyond the head and into the body to help clients heal more completely and more deeply. This wonderful resource will provide bodyworkers, acupuncturists, occupational therapists, psychotherapists, movement instructors and a wide range of other healing arts practitioners with the skills they need to refine their dialoguing vocabulary and deliver rich and rewarding sessions.

Advances in Affective and Pleasurable Design Yong Gu Ji, Sooshin Choi ,2021-07-19 This volume discusses pleasurable design — a part of the traditional usability design and evaluation methodologies. By combining this with traditional usability methods it increases the appeal of products and use of services. Seven Works of Vasubandhu, the Buddhist

Psychological Doctor Vasubandhu, Stefan Anacker, 1984 This collection includes the Vada-Vidhi, a work on logic; the Pancaskandhakaprakarana, which deals with the 'aggregates' making up 'personality', the karmasiddhiprakarana, which attacks many features of earlier Buddhist psychology, the Vimsatika and Trimsika, which take Buddhist psychology into hitherto unexplored areas; the Madhyanta-vibhagabhasya, books of Mahayana realization: and the Tri-svabhav-nirveda, which shows a way for ridding consciousness of ensnaring mental constructions.

Encountering the Divine George Savran, 2005-05-30 An examination of the literary and theological dynamics of the divine-human encounter as reflected in theophany narratives in the Hebrew Bible. The point of departure for this study is a type-scene analysis which reveals a common structure to theophany narratives. Beginning with the separation of the protagonist from human society, the text moves to a visual and verbal revelation by the Deity, and records a range of human reactions to the experience. Each of the texts concludes with a description of a more externalized reaction, which marks the carrying over of the experience into a larger societal framework. The analysis develops the underlying structural and contentual similarity among texts which have traditionally been understood as belonging to different literary genres. The discussion offers a nuanced treatment of the range of literary strategies employed by the narrative for addressing these elements. In addition to a detailed analysis of each of the above components of the type-scene, there is discussion of issues such as the idea of the lethal nature of the encounter and intertextual relations between the narratives.
