Earth Force Shemer Kuznits,2019-04-30 On the first day, a mist descended from the heavens blanketing Earth.On the second day, a cryptic message, 'Infusion commencing', appeared in the corner of everyone's eyes. On the third day, the sick were healed and the crippled walked again. On the fourth day, celebration and joy spread across the globe. And on the fifth day, the warping began...There was no warning. A mist descended from the sky, disabling all technology and causing a weird message to appear at the corner of everyone's eye. The situation grew even worse as animals and people started to warp, transforming into terrible monsters that prey on the livings. Within months, human civilization had crumbled. Unable to fight the seemingly-indestructible beasts, the survivors are reduced to cowering in reinforced shelters. Waiting for the end to come. Helpless. All seemed lost until a few brave souls discovered the secret of their new reality: the Tec and how to use it to level up. Together they represent humanity's last best hope for salvation. But they first must find the answers to the mystery of their new existence. Their journey will require them to quickly adapt to alien technology, operate strange spaceships, and even befriend an extra-terrestrial merchant with an Inferiority Complex.

Making Music Indigenous Joshua Tucker, 2019-02-22 When thinking of indigenous music, many people may imagine acoustic instruments and

pastoral settings far removed from the whirl of modern life. But, in contemporary Peru, indigenous chimaycha music has become a wildly popular genre that is even heard in the nightclubs of Lima. In *Making Music Indigenous*, Joshua Tucker traces the history of this music and its key performers over fifty years to show that there is no single way to “sound indigenous.” The musicians Tucker follows make indigenous culture and identity visible in contemporary society by establishing a cultural and political presence for Peru’s indigenous peoples through activism, artisanship, and performance. This musical representation of indigeneity not only helps shape contemporary culture, it also provides a lens through which to reflect on the country’s past. Tucker argues that by following the musicians that have championed chimaycha music in its many forms, we can trace shifting meanings of indigeneity—and indeed, uncover the ways it is constructed, transformed, and ultimately recreated through music.

Bumping Into Geniuses Danny Goldberg,2008 A giant of the music industry grants an all-access pass to the world of rock and roll, with mesmerizing stories of thirty-five years spent working with legends from Led Zeppelin, to Stevie Nicks, to Nirvana. Danny Goldberg has been a hugely influential figure in the world of rock and roll. He did PR for Led Zeppelin; he managed the career of Nirvana; he ran Atlantic Records, Mercury Records, and Warner Bros. Records; he launched Stevie Nicks's solo career. In *Bumping into Geniuses*, Goldberg shares his stories about performers who represent a broad and powerful portion of the psychic real estate of the rock and roll kingdom: Patti Smith, Warren Zevon, Bruce Springsteen, KISS, Kurt Cobain and Nirvana, Hole, Stevie Nicks, Bonnie Raitt, Steve Earle, Led Zeppelin, and more. But there's more to this story than just Goldberg's varied career. It's also a look at the industry itself: a business that was neither the romantic vehicle for self-expression that its most naive fans imagined, nor the purely crass money machine depicted by its most cynical critics. It was complex and chaotic—a mixture of art and commerce, idealism and selfishness—and sometimes, rock's most gifted and influential musicians were able to transcend it all. For anyone interested in the rock and roll industry, or simply the mores and temperaments of the musicians themselves, *Bumping into Geniuses* is an incredible insider's tale that only Goldberg could tell.
