In an Antique Land Amitav Ghosh, 2011-07-20 Once upon a time an Indian writer named Amitav Ghosh set out an Indian slave, name unknown, who some seven hundred years before had traveled to the Middle East. The journey took him to a small village in Egypt, where medieval customs coexist with twentieth-century desires and discontents. But even as Ghosh sought to re-create the life of his Indian predecessor, he found himself immersed in those of his modern Egyptian neighbors. Combining shrewd observations with painstaking historical research, Ghosh serves up skeptics and holy men, merchants and sorcerers. Some of these figures are real, some only imagined, but all emerge as vividly as the characters in a great novel. *In an Antique Land* is an inspired work that transcends genres as deftly as it does eras, weaving an entrancing and intoxicating spell.

Dinner with Persephone Patricia Storage, 2011-10-19 A New York Times Notable Book of the Year Full of insights, marvelously entertaining . . . haunting and beautifully written. --The New York Review of Books I lived in Athens, at the intersection of a prostitute and a saint. So begins Patricia Storage's astonishing memoir of her year in Greece. Mixing affection with detachment, rapture with clarity, this American poet perfectly evokes a country delicately balanced between East and West. Whether she is interpreting Hellenic dream books, pop songs, and soap operas, describing breathtakingly beautiful beaches and archaic villages, or braving the crush at a saint's tomb, Storage, winner of the Whiting Award, rewards the reader with informed and sensual insights into Greece's soul. She sees how the country's pride in its past coexists with profound doubts about its place in the modern world. She discovers a world in which past and present engage in a passionate dialogue.

Stylish, funny, and erudite, *Dinner with Persephone* is travel writing elevated to a fine art--and the best book of its kind since Henry Miller's *The Colossus of Maroussi*. Splendid. Storace's account of a year in Greece combines past and present, legend and fact, in an unusual and delightful whole. --Atlantic Monthly

Follow the Music Jac Holzman, Gavan Daws, 2001 The founder and 23-year president of Elektra Records captures pivotal scenes of pop culture from 1950-1973, from what happened backstage when Bob Dylan went electric to Jim Morrison's legendary shenanigans.

White Bicycles Joe Boyd, 2010-07-09 When Muddy Waters came to London at the start of the '60s, a kid from Boston called Joe Boyd was his tour manager; when Dylan went electric at the Newport Festival, Joe Boyd was plugging in his guitar; when the summer of love got going, Joe Boyd was running the coolest club in London, the UFO; when a bunch of club regulars called Pink Floyd recorded their first single, Joe Boyd was the producer; when a young songwriter named Nick Drake wanted to give his demo tape to someone, he chose Joe Boyd. More than any previous '60s music autobiography, Joe Boyd's *White Bicycles* offers the real story of what it was like to be there at the time. His greatest coup is bringing to life the famously elusive figure of Nick Drake - the first time he's been written about by anyone who knew him well. As well as the '60s heavy-hitters, this book also offers wonderfully vivid portraits of a whole host of other musicians: everyone from the great jazzman Coleman Hawkins to the folk diva

Sandy Denny, Lonnie Johnson to Eric Clapton, The Incredible String Band to Fairport Convention.

Teaching in American Schools Robert J. Stevens, 1999 The chapters integrate both theoretical and applied research addressing effective teaching with an emphasis on understanding and improving both teaching and learning in schools. The focus of this book is on classroom instruction, teacher effectiveness, and school effectiveness and the impact they have on educating students in schools today. For educators in today's schools, as well as graduate level research on instruction and effective practices.

Augie's Quest Augie Nieto, T.R.

Pearson, 2011-01-15 What happens to orphan diseases that aren't big enough profit centers for the pharmaceutical industry or get caught in the web of government funding and academic research? Augie Nieto found out in the spring of 2005: At forty-seven years old he was diagnosed with ALS. Devastated, Augie struggled with depression and attempted suicide. When he awoke from a coma, with friends and family surrounding him, his sense of faith and mission were renewed. Fast-forward one year: Augie and his wife, Lynne, were profiled as Real Heroes on the Today show. Their determination to beat the disease had already led to major overhauls in the way ALS research was conducted. In partnership with the Muscular Dystrophy Association, Augie had set up a foundation and lab to coordinate and oversee ALS research and testing across the globe. By centralizing operations and championing an entrepreneurial approach to medical research, Augie and his team accomplished remarkable results in less than two years. Part inspiration, part business innovation, Augie's Quest illustrates how one person can make a meaningful difference. Praise for Augie Nieto: George H. W. Bush, former U.S. president: Your contributions to the fitness industry are well

known, and your dedication an inspiration. Lance Armstrong, seven-time Le Tour de France champion: I think it says a lot about Augie, the fact that everybody came together regardless of whether or not it's for competing gyms or competing companies that make equipment. They all say, this is one of our own; this is a guy who's committed his life to our industry and has been dealt a serious blow. We're going to be there for him, we're going to say, we're here for you and we're part of the Quest. Arnold Schwarzenegger, governor of California: Your success has been incredible. But you are so much more than just a successful businessman. You are the greatest husband, a great father, and a terrific friend. So,

Functional Foods and Cardiovascular Disease

Mohammed H. Moghadasian,N.A. Michael

Eskin,2012-02-10 Cardiovascular disease remains the number one killer in North America and around the world. The staggering medical costs involved in treating patients suffering from this disease demand an alternative approach to prevent or minimize its development. In *Functional Foods and Cardiovascular Disease*, international researchers reveal essential up-to-dat

The Craft of Inquiry Robert R. Alford,1998 In his provocative new book, Robert Alford proposes that the starting point for any researcher in the process and craft of inquiry should begin with an understanding of how to translate elements of his/her own history, personal experience, and issues which can then be formulated into research questions. He presents three basic explanatory approaches to sociology -- multivariate, interpretive, and historical -- and strives to illustrate the artistic, rather than formulaic, side of research design, presenting several ways that research questions can be framed.

Psychic Sight Johnny Five,2020-08-17 It is a common misconception that only a select few are born with the ability to see auras. I wrote this book to debunk that myth and teach you step by step how to perform the inner cleansing required to give you psychic sight or ability to see what is invisible to the human eye naturally. This book

will not only teach you how to develop psychic sight, but it will also act as a beginners guide to spirituality in awakening yourself and the dormant side of your brain. In this book you will find not only the knowledge but also the wisdom of my experience growing up in my personal life to understand how I obtained the sight and how it grew over the years. You will also find references from the Bible and ancient times for credibility. I also give you the knowledge of ancient techniques you can utilize in your everyday life to help you obtain more abundance in your life and understand hidden secrets of our past. As a thank you for purchasing my first book, I have included a bonus chapter on numerology which will provide a basic understanding of numerology and how to calculate your life path to figure out one of the many puzzle pieces of your purpose for this life time with 100% accuracy.
