The Untold Story of the Talking Book Matthew Rubery,2016-11-14 A history of audiobooks, from entertainment & rehabilitation for blinded World War I soldiers to a twenty-first-century competitive industry. Histories of the book often move straight from the codex to the digital screen. Left out of that familiar account are nearly 150 years of audio recordings. Recounting the fascinating history of audio-recorded literature, Matthew Rubery traces the path of innovation from Edison's recitation of "Mary Had a Little Lamb" for his tinfoil phonograph in 1877, to the first novel-length talking books made for blinded World War I veterans, to today's billion-dollar audiobook industry. The Untold

Story of the Talking Book focuses on the social impact of audiobooks, not just the technological history, in telling a story of surprising and impassioned conflicts: from controversies over which books the Library of Congress selected to become talking books—yes to Kipling, no to Flaubert—to debates about what defines a reader. Delving into the vexed relationship between spoken and printed texts, Rubery argues that storytelling can be just as engaging with the ears as with the eyes, and that audiobooks deserve to be taken seriously. They are not mere derivatives of printed books but their own form of entertainment. We have come a long way from the era of sound recorded on wax cylinders, when people imagined one day hearing entire novels on mini-phonographs tucked inside their hats. Rubery tells the untold story of this incredible evolution and, in doing so, breaks from convention by treating audiobooks as a distinctively modern art form that has profoundly influenced the way we read. Praise for *The Untold Story of the Talking Book* “If audiobooks are relatively new to your world, you might wonder where they came from and where they’re going. And for general fans of the intersection of culture and technology, *The Untold Story of the Talking Book* is a fascinating read.” —Neil Steinberg, *Chicago Sun-Times* “[Rubery] explores 150 years of the audio format with an imminently accessible style, touching upon a wide range of interconnected topics . . . Through careful investigation of the co-development of formats within the publishing industry, Rubery shines a light on overlooked pioneers of audio . . . Rubery’s work succeeds in providing evidence to ‘move beyond the reductive debate’ on whether audiobooks really count as reading, and establishes the format’s rightful place in the literary family.” —Mary Burkey, *Booklist* (starred review)

The Last Tortilla Sergio Troncoso,2015-03-18 She asked me if I liked them. And what could I say? They were wonderful. From the very beginning of Sergio Troncoso's celebrated story Angie Luna, we know we are in the hands of a gifted storyteller. Born of Mexican immigrants, raised in El Paso, and now living in New York City, Troncoso has a rare knack for celebrating life. Writing in a straightforward, light-handed style reminiscent of Grace Paley and Raymond Carver, he spins charming tales that reflect his experiences in two worlds. Troncoso's El Paso is a normal town where common people who happen to be Mexican eat, sleep, fall in love, and undergo epiphanies just like everyone else. His tales are coming-of-age stories from the Mexican-American border, stories of the working class, stories of those coping with the trials of growing old in a rapidly changing society. He

also explores New York with vignettes of life in the big city, capturing its loneliness and danger. Beginning with Troncoso's widely acclaimed story *Angie Luna*, the tale of a feverish love affair in which a young man rediscovers his Mexican heritage and learns how much love can hurt, these stories delve into the many dimensions of the human condition. We watch boys playing a game that begins innocently but takes a dangerous turn. We see an old Anglo woman befriending her Mexican gardener because both are lonely. We witness a man terrorized in his New York apartment, taking solace in memories of lost love. Two new stories will be welcomed by Troncoso's readers. *My Life in the City* relates a transplanted Texan's yearning for companionship in New York, while *The Last Tortilla* returns to the Southwest to explore family strains after a mother's death—and the secret behind that death. Each reflects an insight about the human heart that has already established the author's work in literary circles. Troncoso sets aside the polemics about social discomfort sometimes found in contemporary Chicano writing and focuses instead on the moral and intellectual lives of his characters. The twelve stories gathered here form a richly textured tapestry that adds to our understanding of what it is to be human.

The 316 revised papers presented were carefully reviewed and selected. Incerto 4-Book Bundle Nassim Nicholas Taleb, 2016-01-26 Nassim Nicholas Taleb's landmark Incerto series is an investigation of luck, uncertainty, probability, opacity, human error, risk, disorder, and decision-making in a world we don't understand, in nonoverlapping and standalone books. All four volumes—Antifragile, The Black Swan, Fooled by Randomness, and the expanded edition of The Bed of Procrustes, updated with more than 50 percent new material—are now together in one ebook bundle. ANTIFRAGILE "Startling . . . richly crammed with insights, stories, fine phrases and intriguing asides."—The Wall Street Journal Just as human bones get stronger when subjected to stress and tension, many things in life benefit from disorder, volatility, and turmoil. What Taleb has identified and calls "antifragile" is that category of things that not only gain from chaos but need it in order to survive and flourish. The resilient resists shocks and stays the same; the antifragile gets better and better. What is crucial is that the antifragile loves errors, as it incurs small harm and large benefits from them. Spanning politics, urban planning, war, personal finance, economic systems, and medicine in an interdisciplinary and erudite style, Antifragile is a blueprint for living in a Black Swan world. THE BLACK SWAN "[A book] that altered modern thinking."—The Times (London) A black swan is a highly improbable event with three principal characteristics: It is unpredictable; it carries a massive impact; and, after the fact, we concoct an explanation that makes it appear less random and more predictable. The astonishing success of Google was a black swan; so was 9/11. In this groundbreaking and prophetic book, Taleb shows that black swan events underlie almost everything about our world, from the rise of religions to events in our own personal lives, and

yet we—especially the experts—are blind to them. FOOLED BY RANDOMNESS “[Fooled by Randomness] is to conventional Wall Street wisdom approximately what Martin Luther’s ninety-five theses were to the Catholic Church.”—Malcolm Gladwell, *The New Yorker* Are we capable of distinguishing the fortunate charlatan from the genuine visionary? Must we always try to uncover nonexistent messages in random events? Fooled by Randomness is about luck: more precisely, about how we perceive luck in our personal and professional experiences. Set against the backdrop of the most conspicuous forum in which luck is mistaken for skill—the markets—Fooled by Randomness is an irreverent, eye-opening, and endlessly entertaining exploration of one of the least understood forces in our lives. THE BED OF PROCRUSTES “Taleb’s crystalline nuggets of thought stand alone like esoteric poems.”—Financial Times This collection of aphorisms and meditations expresses Taleb’s major ideas in ways you least expect. The Bed of Procrustes takes its title from Greek mythology: the story of a man who made his visitors fit his bed to perfection by either stretching them or cutting their limbs. With a rare combination of pointed wit and potent wisdom, Taleb plows through human illusions, contrasting the classical views of courage, elegance, and erudition against the modern diseases of nerdiness, philistinism, and phoniness.
