Automated Machine Learning Frank Hutter,Lars Kotthoff,Joaquin Vanschoren,2019-05-17 This open access book presents the first comprehensive overview of general methods in Automated Machine Learning (AutoML), collects descriptions of existing systems based on these methods, and discusses the first series of international challenges of AutoML systems. The recent success of commercial ML applications and the rapid growth of the field has created a high demand for off-the-shelf ML methods that can be used easily and without expert knowledge. However, many of the recent machine learning successes crucially rely on human experts, who manually select appropriate ML architectures (deep learning architectures or more traditional ML workflows) and their hyperparameters. To overcome this problem, the field of AutoML targets a progressive automation of machine learning, based on principles from optimization and machine learning itself. This book serves as a point of entry into this quickly-developing field for researchers and advanced students alike, as well as providing a reference for practitioners aiming to use AutoML in their work.

Fab Howard Sounes,2010-10-26 Howard Sounes, the bestselling author of *Down the Highway: The Life of Bob Dylan* and *Charles Bukowski: Locked in the Arms of a Crazy Life*, turns his considerable reporting and storytelling skills to one of the most famous, talented—and wealthiest—men alive: Paul McCartney. *Fab* is the first exhaustive biography of the legendary musician; it tells Sir Paul's whole life story, from childhood to present day, from working-class Liverpool beginnings to the cultural phenomenon that was The Beatles to his many solo incarnations. *Fab* is the definitive portrait of McCartney, a man of contradictions and a consummate musician far more ruthless, ambitious, and moody than his relaxed public image implies. Based on original research and more than two hundred new interviews, *Fab* also reveals for the first time the full story of his two marriages, romances, family feuds, phenomenal wealth, and complex relationships with his fellow ex-Beatles.
