Classic Racing Engines Karl Ludvigsen,2017 From the earliest days of motor racing, engineers have strived to develop engines which push the boundaries of technology. This lavishly illustrated book details the design, development and specifications of the author's personal selection of 50 classic racing engines from 1913 to 1994. In addition to thoroughbred winners such as the 1936 Auto Union C-type, the 1957 Maserati 250 F and the 1967 Ford DFV, a number of more obscure yet equally fascinating engines are represented, such as the 1949 Cisitalia and the 1958 Borgward RS. So too are the troublesome 16-cylinder engines produced by BRM. Karl Ludvigsen uses his extensive network of contacts throughout the racing engine world to provide behind-the-scenes stories, and speaks to the personalities involved in developing the power units that have made history.--Provided by publisher.

Classic Racing Cars Cyril Posthumus,1977

Cars at Speed Robert Daley,2007-06-01 Long before he became a best-selling novelist, Robert Daley was a European sports correspondent for the New York Times. In 1961, he published his first book, *Cars At Speed*, an historical and contemporary look at Grand Prix and sports car racing at twelve of the worlds greatest circuits. This hard-to-find and now collectible book, widely considered one of the best books ever written about sports car racing, returns here in a special edition, with a new Introduction by Daley as well as commissioned drawings of each featured circuit. A rare opportunity to travel back in time to racings golden era, *Cars at Speed* offers a fascinating look at a time when danger and passion defined racing. Daley discusses the Grand Prix circuits of that era--e.g.,

Nu00fcrburgring, Monza, Silverstone, Zandvoort, Spa, Monaco--detailing the qualities, history, great races, controversies, and accidents of each. He focuses on the stories of drivers such as the Marquis de Portago, Phil Hill, Stirling Moss, and Jean Behra, among others, recreating the mythical quality of the Grand Prix in its prime.

The Put-in-Bay Road Races, 1952-1963 Carl

Goodwin, 2014-07-25 A great little sports car race took place on an island in Lake Erie, offshore of Sandusky, Ohio. The drivers came on ferry boats to compete for silver cups in an age when there were no sponsors and no prize money. The drivers were car salesmen, stock brokers, engineers, printers, etc. Often, the cars they raced were those they drove as daily transportation: MGs, Porsches, Triumphs, Alfas and others. In this well-illustrated history (full color throughout the ebook edition), drivers, officials, mechanics and spectators share their stories. The text paints a vivid picture of the sports car racing scene in post-war America.

The Art of the Classic Sports Car Stuart Codling, 2017-06

The most fun you can have on four wheels. Sports cars are the athletes of the automotive world. Always nimble and quick, often powerful, sports cars fly where other cars lumber, and dash where others plod. The definition of a sports car is somewhat fluid, and the question What was the first sports car? will often

incite a heated debate among enthusiasts. Still, most car fans feel that they know a sports car when they see one and when asked to name a few will rattle off a remarkably similar list of name plates: Jaguar, Corvette, Triumph, MG, Aston Martin, Ferrari, Lotus, Alfa-Romeo, BMW. Pressed harder, more exotic and obscure brands will emerge: DB, Alpine, Bugatti, Lancia. Sports cars have offered road and track excitement for nearly 100 years. The original cars evolved for racing, but their appeal and popularity ensured that production versions were soon available for those whose sporting intents never left the boulevard or winding back road. Along the way, sports cars became more comfortable, sometimes almost practical, and above all handsome. But never have they been boring. The Art of the Classic Sports Car offers enthusiasts a beautifully illustrated review of several decades of high-performance cars, featuring cars from around the globe all shot in the studio to ensure a handsome and desirable book. Each featured car includes a profile discussing the car's place in sports car history along with technical and performance specs as well as a smattering of historical images and period ads.

Ford GT40 David Hodges, 1997-11-26 Many argue that the Ford GT40 is the classic racing car of its era, conceived to rewrite the rulebook at LeMans by taking on -- and beating -- the hitherto all-dominant Ferraris. In this expanded edition, the author recalls the GT40's six epic seasons of racing and the legacy that it left on international motorsports. All-new contemporary color photography is complemented by painstakingly researched GT40 documentation, including: -- Ownership and identification records for each individual car -- A race record listing the fate of all GT40s entered in major events -- Technical specifications for the six main variants of the GT40 theme -- A chronicle of GT40s built and kitted out to be driven on the road -- models which are today among the most valuable of exotic sports cars The GT40 represents a significant chapter in what many race fans consider the golden age of postwar auto racing. This is the GT40's story of

fierce competition, dedication, tragedy, and, ultimately, of complete and repeated success.

Lost Road Courses Martin Rudow, 2016-07-15 Road racing has long-storied roots in North America that reach from coast to coast and to Canada. Some of the greatest drivers to ever compete raced wickedly fast machines, staged epic duels on winding strips

of asphalt, and created history. This history left an enduring legacy that is revealed and celebrated in *Lost Road Courses*. Road racer and road racing expert Martin Rudow retraces road racing's glorious past and visits the defunct classic road courses across the United States and Canada. Many road courses were built in the 1950s and 1960s, the golden age of American road racing. These classic road courses built and hosted famous races for Trans-Am, Can-Am, IndyCar, Formula 1, and sports car racing, but did not survive the times. They fell victim to changing times, poor business decisions, urban sprawl, safety standards, and increasing real estate prices. Rudow recounts the breathtaking races and fascinating history of more than 16 tracks from around North America. Riverside International Raceway, Bridgehampton Race Circuit, Ontario Motor Speedway, Continental Divide Raceway, and many others were once major race venues that have since closed. The great race teams, legendary drivers, classic race series that visited the tracks, and cars that turned laps are brought into full focus. The exploits of Chaparral, McLaren, Bud Moore, Lotus, Penske, and other race teams as well as racing greats Mario Andretti, Parnelli Jones, Jim Hall, A. J. Foyt, Al Unser, Jim Clark, and Dan Gurney are covered. Rudow also digs beneath the surface to reveal the story behind the story. The visionaries and businessmen who saw potential and risked capital to build these palaces of speed come back to life. He also recognizes the unsung heroes and regional racers who competed, staffed, and took on various roles at these tracks. In the pages of this book, a nostalgic tour of these famous races at these vintage road circuits unfolds. Many period photos illustrate the racing action and the tracks themselves in their former glory, and modern color shows the tracks as they currently stand. If you're a fan of classic sports car, Can-Am, Trans-Am, IndyCar, Formula 1, as well as classic and unique tracks of yesteryear, this book is a must-have.

Classic Stock Cars John Albert Craft, As he did in his smash

success, Vintage and Historic Stock Cars, Craft has filled this new book with fascinating histories of some of the most significant stock cars ever to battle on the highbanks and short tracks of NASCAR. His detailed accounts of the cars and their builders, tuners, and drivers are accompanied by beautiful color photography, most of which show cars that are faithfully restored. Readers are treated to the compelling stories behind these famous cars, some built by legendary craftsmen like Holman & Moody and others raced by champions such as Richard Petty.

And will Eddie get drawn in? or rise above it and compete in the big race? Includes real tech specs and tuning details for the '69 Chevy Camaro! Dirt Track Auto Racing, 1919-1941 Don

Radbruch, 2003-12-11 Prior to World War I, auto racing featured expensive machines and teams financed by auto factories. The teams toured the country, and most of the races were held in large cities, so the vast majority of Americans never saw a race. All this changed after World War I, though, and in the 1920s and 1930s there were approximately 1,000 dirt tracks in the United States and Canada. The dirt tracks offered small-time racing—little prize money and minimal publicity—but people loved it. This pictorial history documents dirt track racing, with what are today called sprint cars, around the United States from 1919 to 1941. Information on dirt track racing in Canada during this time is also provided. Regionally divided chapters detail the drivers, tracks, and specific races of each area of the country. Some of the drivers went on to win fame and fortune while others

faded into obscurity. Tracks included well known facilities as well as out-of-the-way sites few people had ever heard of. The cars ranged from state of the art machines to the more common home built specials based on Model T or Model A Ford parts. Taken together, the drivers, tracks, and races of this era were instrumental in making auto racing the popular sport it is today.

Speed Capital Brian M. Ingrassia,2024-02-06 How a speedway became a legendary sports site and sparked America's car culture The 1909 opening of the Indianapolis Motor Speedway marked a foundational moment in the history of automotive racing. Events at the famed track and others like it also helped launch America's love affair with cars and an embrace of road systems that transformed cities and shrank perceptions of space. Brian Ingrassia tells the story of the legendary oval's early decades. This story revolves around Speedway cofounder and visionary businessman Carl Graham Fisher, whose leadership in the building of the transcontinental Lincoln Highway and the iconic Dixie Highway had an enormous impact on American mobility. Ingrassia looks at the Speedway's history as a testing ground for cars and airplanes, its multiple close brushes with demolition, and the process by which racing became an essential

part of the Golden Age of Sports. At the same time, he explores how the track's past reveals the potent links between sports capitalism and the selling of nostalgia, tradition, and racing legends.

Into the Red Nick Mason, Mark Hales, 2004 Nick Mason has had a lifelong passion for motor racing. The sports and racing cars he's chosen to own form a unique stable, not just because of their diversity, but because every car is meant to be driven, and driven hard. These are not museum pieces sitting tamely in glass cases. With test driver Mark Hales, Nick Mason has pushed twenty-two of his cars to the limit and created *Into The Red*, a book which captures the power, the exhilaration and the feel of the actual cars driven by the worlds greatest racing drivers, including Enzo Ferrari, Stirling Moss, Jacky Ickx and Mario Andretti. Some are incredibly fast: the powerhouse Porsche 935, the limited edition McLaren F1. Some extremely rare: the legendary V16 BRM is one of only three known to exist. Some highly expensive: the Ferrari 250GTO had a value of GBP10 million at its peak. And others are all-time classics, including the Bugatti T35B, the Maserati 250F, and the Ferrari T3 that brought Gilles Villeneuve victory in the 1978 Montreal Grand Prix. But although their past is what makes the cars so special, each car has been put through the same demanding test sequence at Silverstone, using the latest equipment, no quarter given. The results are often surprising. Mark Hales details the distinctive sensations, sounds and vibrations of each car's handling ability, down to the feel of the gears and the response of the brakes. Nick Mason gives his personal view of the history and heritage of each model, with the inside track on the ups and downs of collecting classic cars.

Auto Racing Comes of Age Robert Dick, 2013-05-03 The first quarter of the 20th century was a time of dramatic change in auto racing, marked by the move from the horseless carriage to the supercharged Grand Prix racer, from the gentleman driver to

the well-publicized professional, and from the dusty road course to the autodrome. This history of the evolution of European and American auto racing from 1900 to 1925 examines transatlantic influences, early dirt track racing, and the birth of the twin-cam engine and the straight-eight. It also explores the origins of the Bennett and Vanderbilt races, the early career of “America’s Speed King” Barney Oldfield, the rise of the speedway specials from Marmon, Mercer, Stutz and Duesenberg, and developments from Peugeot, Delage, Ballot, Fiat, and Bugatti. This informative work provides welcome insight into a defining period in motorsports.
