**Beck's Cognitive Therapy** Frank Wills,2013-12-19 Beck's Cognitive Therapy: Distinctive Features explores the key contributions made by Aaron T. Beck to the development of cognitive behaviour therapy. This book provides a concise account of Beck's work against a background of his personal and professional history. The author, Frank Wills, considers the theory and practice of Beck's cognitive therapy by firstly examining his contribution to the understanding of psychopathology, and going on to explore Beck's suggestions about the best methods of treatment. Throughout the book a commentary of how Beck's thinking differs from other approaches to CBT is provided, as well as a summary of the similarities and differences between Beck's methods and other forms of treatment including psychoanalysis and humanistic therapy. Beck's Cognitive Therapy will be ideal reading for both newcomers to the field and experienced practitioners wanting a succinct guide.

**Rural Transitions to Higher Education in South Africa** Sue Timmis,Thea de Wet,Kibashini Naidoo,Sheila Trahar,Lisa Lucas,Emmanuel Mfanafuthi Mqgwashu,Patricia Muhuro,Gina Wisker,2021-09-14 This unique and timely book focuses on research conducted into the experiences of students from rural backgrounds in South Africa: foregrounding decolonial perspectives on their negotiation of access and transitions to higher education. This book highlights not only the challenges of coming from a rural background against the historical backdrop of apartheid and ongoing colonialism, but also shows the immense assets that students from rural areas bring into higher education. Through detailed narratives created by student co-researchers, the book charts early experiences in rural communities, negotiations of transitions to university and, in many cases, to urban life and students' subsequent journeys through higher education spaces and curricula. The book will be of significant interest and value to those engaged in rurality research across diverse settings, those interested in the South African higher education context and higher education more widely. Its innovative, participatory methodology will be invaluable to researchers seeking to conduct collaborative research that draws on decolonising approaches.

Infrared Thermography Waldemar Minkina,Sebastian Dudzik,2009-09-28 In Infrared Thermography, the authors discuss the sources of uncertainty, including how to quantify these sources, associated with the use of thermal imagers. This book explains the common misunderstandings in the interpretation of temperature measurements, and provides a metrological evaluation of commercially available infrared cameras. It suggests how to best estimate the accuracy of thermal imaging instruments, whilst considering the level of accuracy attributed to measurements from these thermal imagers. Key features: Begins with an introduction to uncertainties and radiance terms before moving onto the issues surrounding thermal imaging. Deals with the basic issues of thermal imager measurements such as the law of heat exchange by radiation and emissivity. Describes a typical processing algorithm of the measurement path for an example infrared camera. Discusses measurement error analysis of a thermal imaging system. Considers the results of simulation research of thermography uncertainty. Includes an accompanying website which hosts MATLAB® code. Infrared Thermography is primarily aimed at quantitative thermographers, and manufacturers, vendors and users of thermal imagers. This book is also of interest to senior undergraduate and postgraduate students across a range of disciplines such as electrical, mechanical and civil engineering, computer science, and biomedicine.

**Affective Health and Masculinities in South Africa** Hans Reihling,2020-04-03 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

Primavera Mark A. Schoedl,2021-01-22 I did not become a serious writer until later in life. I simply could not find my way in the business worlds; so, writing and the visual arts arose from the ashes of despair. John Kouzmanoff, a retired elementary school teacher helped me through the doldrums of my disparate existence. Over time, he talked about his life and the fears that held him back. Suddenly, I eased up on myself and those dreaded anxieties became less noticeable. John, however, passed away from kidney failure while vacationing in Salt Lake City. This man of 65 who once marched every single time Martin Luther King, Jr. came to Chicago, softly touches my heart whenever nothing seems to go right. Humility and love are all I ever need or to reach out (desire) for that matter. Rest in Peace John.
