Notes from the Hyena's Belly Nega Mezlekia,2015-04-07 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

Construction Scheduling Jay S. Newitt,2011-11-21 This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. This text is a comprehensive, stand alone reference for project management scheduling. It features a unique combination of principles/fundamentals of scheduling and project management along with practical applications and tutorials of the 4 most common scheduling software programs--Microsoft Project, Primavera Project Planner (P3), SureTrak, P6 Project Manager and Contractor. Having scheduling information and software instructions in one book obviates the need for two texts, and the exercises and examples in the scheduling portion are tied to the same exercises in the software portions.

A Handbook for Construction Project Planning and Scheduling Virendra Kumar Paul,Chaitali Basu,2018-02-07 The development of IS 15883: Part 2 (2009), Construction Time Management Guidelines is an important milestone in formally recognizing the threshold framework for the construction industry. This initiative of Bureau of Indian Standards (BIS) provides for a national framework for time management which specifically focuses on unique aspects of Indian construction industry. This handbook supplements the BIS framework enshrined in IS 15883: Part 2, and thereby facilitating capacity building for widespread application of the Guidelines. The chapters of handbook follow the stages of a typical project life cycle of a construction project, flowing seamlessly from project inception through to project closure. In addition, latest trends in the construction sector in terms of tools, techniques, and software have also been elaborated. It is implied that time management operates in conjunction with other interdependent processes of project management, and might need multi-dimensional decision making. To that extent this handbook does elaborate the relevant interface that maybe critical for comprehensive project management approach. As a primary expectation, the handbook would serve as a supplementary textbook for students of architecture, and civil engineering who are pursuing subjects in construction management. It is also an effortless reference for new entrants to the field of project management, and other management professionals as well who seek a quick reference to the tools and techniques of time management illustrated through examples in easy language.

Statistics in Musicology Jan Beran,2003-07-15 Traditionally, statistics and music are not generally associated with each other. However, ...intelligent... music software, computer digitization, and other advanced techniques and technologies have precipitated the need for standard statistical models to answer basic musicological questions. *Statistics In Musicology* presents an unprecedented introduction to statistical and mathematical methods developed for use in music analysis, music theory, and performance theory. It explores concrete methods for data generation and numerical encoding of musical data and serves as a practical reference for a wide audience, including statisticians, mathematicians, musicologists, and musicians.

Moon-face and Other Stories Jack London,1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including The Sea-Wolf (1904), White Fang (1906), South Sea Tales (1911), and Jerry of the South Seas (1917). One of London's most interesting novels is the semi-autobiographical Martin Eden (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

Communication for Health Care Catherine Anne Berglund,Deborah Saltman,2002 This text follows the key information steps in health care. It places communication in context, where professionals meet and work

with patients, alongside other members of their own profession and with members of other professions in one healthcare team.

Construction Project Scheduling and Control Saleh A. Mubarak,2010-10-26 An easy-to-follow guide to the theory and practice of project scheduling and control No matter how large or small the construction project, an efficient, well-thought-out schedule is crucial to achieving success. The schedule manages all aspects of a job, such as adjusting staff requirements at various stages, overseeing materials deliveries and equipment needs, organizing inspections, and estimating time needs for curing and settling—all of which requires a deep understanding on the part of the scheduler. Written by a career construction professional, Construction Project Scheduling and Control, Second Edition has been fully revised with up-to-date coverage detailing all the steps needed to devise a technologically advanced schedule geared toward streamlining the construction process. Solved and unsolved exercises reinforce learning, while an overview of industry standard computer software sets the tone for further study. Some of the features in this Second Edition include: Focus on precedence networks as a viable solution to scheduling, the main part of project control The concepts of Dynamic Minimal Lag, a new CPM technique developed by the author A new chapter on schedule risk management By combining basic fundamentals with advanced techniques alongside the robust analysis of theory to enhance real-world applications, Construction Project Scheduling and Control is an ideal companion for students and professionals looking to formulate a schedule for a time-crunched industry in need of better ways to oversee projects.

Animating Empire Jessica Keating,2018-05-09 In the sixteenth and seventeenth centuries, German clockwork automata were collected, displayed, and given as gifts throughout the Holy Roman, Ottoman, and Mughal Empires. In *Animating Empire*, Jessica Keating recounts the lost history of six such objects and reveals the religious, social, and political meaning they held. The intricate gilt, silver, enameled, and bejeweled clockwork automata, almost exclusively crafted in the city of Augsburg, represented a variety of subjects in motion, from religious figures to animals. Their movements were driven by gears, wheels, and springs painstakingly assembled by clockmakers. Typically wound up and activated by someone in a position of power, these objects and the theological and political arguments they made were highly valued by German-speaking nobility. They were often given as gifts and as tribute payment, and they played remarkable roles in the Holy Roman Empire, particularly with regard to courtly notions about the important early modern issues of universal Christian monarchy, the Reformation, the Counter-Reformation, the encroachment of the Ottoman Empire, and global trade. Demonstrating how automata produced in the Holy Roman Empire spoke to a convergence of historical, religious, and political circumstances, *Animating Empire* is a fascinating analysis of the animation of inanimate matter in the early modern period. It will appeal especially to art historians and historians of early modern Europe. E-book editions have been made possible through support of the Art History Publication Initiative (AHPI), a collaborative grant from the Andrew W. Mellon Foundation.
