FOREX Perfection In Manual, Automated And Predictive Trading Mostafa Afshari, 2018-08-31 From the very beginning and during writing this book one question was always in my mind: how much this book will benefit the reader? Finally I organized the book in three parts (Manual, Automated and Predictive Trading) to make sure at least one method solves the problem of Forex trading for the reader. In Manual Trading I have explained the best manual trading strategies and the most probable entry and exit signals. Automated Trading is the next part in which you will learn to develop your own trading ideas and strategies using a super easy, smart, advanced, free and all in one software in no time and make your trading 100% automated. Forex income on autopilot is not a dream anymore. In Predictive Trading, as it appears from the topic, you will learn top methods of next day price prediction. Just imagine how much difference will it make if you know prices of tomorrow in advance! This book is aimed to all retail traders (beginner or experienced), institutional traders, automated and algorithmic trading developers, Forex and financial markets researchers and all people who want to learn about some new possibilities in Forex trading.

Automation of Trading Machine for Traders Jacinta Chan, 2019-12-02 This Palgrave Pivot innovatively combines new methods and approaches to building dynamic trading systems to forecast future price direction in today's increasingly difficult and volatile financial markets. The primary purpose of this book is to provide a structured course for building robust algorithmic trading models that forecast future price direction. Chan provides insider information and insights on trading strategies; her knowledge and experience has been gained over two decades as a trader in foreign exchange, stock and

derivatives markets. She guides the reader to build, evaluate, and test the predictive ability and the profitability of abnormal returns of new hybrid forecasting models.

BUILDING AUTOMATED TRADING STRATEGIES

George Protonotarios, 2018-09-21 This eBook includes general information and educational resources for explaining the modern use of automated trading, plus some practical information and advice on how to create a proprietary automated trading system. The optimization of a trading strategy through sophisticated backtesting and walk-through steps is maybe the most difficult part of strategy building. This eBook contains information on how to successfully backtest and optimize automated trading strategies.

Strap! Forex Automated Trading Software Can Make You Millions! Jasuli Suliadi, 2019-08-14 This book aims to debunk beliefs that Forex Robot (EAs for short) is a myth and that there is no software out there that can trade Forex automatically totally without human supervision. From a simple EA to a compound EA to a multi-time frame compound EA I aim to prove the skeptics wrong by showing how in nine years I had developed one of the most accurate EAs you can find in the market where profit/loss win ratio is concerned. My findings in this book could save you years if you're a budding EA developer. I will show you how I make a simple MacD EA, how I combine EAs and how I use higher time frames and time factors to improve their performances. I came across truths in of Law of Large Numbers (rigorous testing), Law of Diminishing Returns (using too much filters), Fibonacci Sequence (the larger Cycle is interdependent on the smaller Cycles) and many more learning experiences as an EA developer. If you work in the Trading Department of a bank this book is proof that not all Algorithms exist in High Speed. With the COMP EAs

all losses are paper losses ...

Forex Trading Jim Brown, 2015-09-15 Jim's FOREX

books are consistently ranked BEST SELLERS on Amazon and there is a very good reason for this. At no extra cost (or on-costs) Jim shares with his readers: His custom indicators for the MT4 MetaTrader platform, as a download at the end of the book. AND anyone who has received these indicators will also receive the MT5 version of his files when they have been programmed. An invitation to join his Facebook Group which has new as well as experienced Forex Traders contributing. Daily interaction in his Facebook Group He calls his trades live, shares his results AND records a weekly trade analysis video. His contact details if you require further clarification. Jim, from Queensland Australia, is a full-time Forex Trader, currently residing in Vietnam. His knowledge of currency trading extends over a 14 year period and has evolved from the old fashioned manual charting when he first started in 2002, to trading on multiple screens and entering the arena of automated trading. During this time, he has developed and shared many trading systems for free, and assisted many new traders through various blogs and forum participation. This book is for those of you who are just starting to consider trading Forex but don't know where to start, given the abundance of information on the internet. It is a good first book to read, to gain an understanding of the very basics. As an added Bonus, Jim offers one of his Trading Systems, as well as the indicators without any further on-costs. Check out his YouTube vids, chat with him on Facebook - he's an approachable guy who is passionate about trading. Here Is an outline of what is included: What is Forex? Advantages of Trading Forex When the Forex market is open Forex pairs Where we trade Forex Choosing a Broker Important information for US based traders Lot size and equivalent pip value Information on risk News and fundamental analysis Technical analysis Risk-reward ratio Types of orders How

many pips is enough Trading psychology Day trading or longer term trading? Keeping a journal or diary Jim's other books MT4 High Probability Forex Trading Method Trading Forex with Divergence on MT4 What people are saying... I was a bit skeptical prior to ordering this as it is only 72 pages in length. However the author covered concepts and principles in very direct and easy to understand manner. I have read other authors that would have no doubt used three times the verbiage and none of the clarity possessed by Jim Brown. All in all I am very pleased with my purchase. - Darrell R Allen Buy Forex for Dummies or something similar for a detailed background of Forex, then buy this book. It is well written and to the point. I recently paid \$40 for a system which did not do much but generate daily emails promoting many more expensive systems. Jim's free system is easy to implement and follow, and it works. Also, there is no upselling. I felt that he wants people to succeed. I also bought his other book, which includes another free system. Both will be valuable to new Forex traders like myself. - Terrence E Winnie This book, using an easy language, explains all things needed to start trading Forex. The included bonus system is also very easy to understand. The system gave me for example 125 pips trading EURUSD on 16 th June. - Amazon Customer

This book helps individual investors to learn how to trade EXCHANGE and reading graphics well. In this book series that I prepared, the training set that will be a profitable investor for education will guide the investors and you can safely enter the transaction. I realized how difficult it was for new investors to find correct information, but it was more difficult to find any training that could be applied to our own trade. It is impossible to come across a clean and tidy option to Forex and Binary Options right on the Internet. The extent to which the information you can find reflects the truth is uncertain. It only included a few resources on forex - everything was messy. There was no place for forex currency for new provisions. We were left to learn information such as MACD, trade psychology on another website, and risk management on a 10. website. Forex is one of the newest people who have heard about the Forex Exchange trade, but it is meant to be heard more in these trading years but not fully described in the market. For more than 10 years, I have prepared this training series for you with Millions of Knowledge to Learn Skills in your transactions in order to grow Open Market Dynamics by protecting our capital with the knowledge and experience I gained by reading a Lots training article on how to trade in the Forex Exchange Market. Everything is here to ensure the coordination between the trading strategies, market analysis and the psychology triangle in the educational

series that is now included in this course content. You can have super trader abilities or market magic. You will not hear mythological claims to earn a quadrillion dollars a day, I explained how you can steadily increase your investment. You will be able to perform it in the future according to the trading plans you make. This book is a reliable and neat source for you traders who are all the money in the forex market from their bad trading decisions or innocents of the retail forex industry.
