AIM for Millions with Stock Options Jeffrey Weber, 2019-07-21 In the 1970's, a contrarian investor named Robert Lichello first introduced the Automated Investment Management (AIM) method. AIM is a safe and scientific way to always buy low, sell high, and earn significant profits from the inevitable ups and downs of the stock market. Even with ten of the boring Dogs of the Dow stocks, a portfolio that used AIM would have increased 70% from January 2014 to May 2019. How many investors can say they've seen a 70% increase in one of their portfolios over the last five years? With the creation of Long Term Equity Anticipation Securities (LEAPS) in 1990, a unique opportunity to profit even more from AIM was introduced. With LEAPS, investors have the dual benefits of greater control (one contract contains 100 options) plus greater profits due to the larger volatility that comes from

options. Investing in the LEAPS of those same ten Dogs of the Dow companies, your portfolio would have increased an exciting 485% over the same timeframe using the AIM method. Subscribers to the monthly JJJ Investing Services newsletter have been able to track these results for themselves. Worth noting - this is NOT day trading. Jeff's system is so efficient and reliable that checking your portfolio once a month (or whenever you are notified about an automatic trade) is sufficient. That is the power of AIM plus LEAPS - and Jeffrey Weber is the world's leading teacher and authority on this remarkable investing method. Now in his third investing book, Jeff applies his extensive experience with never-before published instructions, results, and insights for FAANG investors - those who want to profit from the high tech revolution. (FAANG represents high tech companies dominated by Facebook, Amazon, Apple, Netflix, and Google - now Alphabet). Jeff's portfolio of the LEAPS with 10 FAANG companies went from \$1,000,000 in January 2016 to \$2,698,118 in March 2019. That is a growth of almost 170% in 3 years - and 2018 wasn't a very good year. How does that compare to your results from the tech revolution? Inside this book, you will see the actual calculations, instructions, and online brokerage screenshots that make these results possible. Jeff Weber wants to help as many investors as possible benefit from the AIM investing method. Once you learn how to be a successful AIM investor with LEAPS and FAANG companies, the benefits will pass to you, your children, and your grandchildren. In addition to the theory and strategy behind AIM with LEAPS and FAANG companies, you will learn this detailed information: * How to conduct buy and sell trades with AIM and LEAPS * How to make your trades happen automatically ahead of time - step-by-step

instructions with actual screenshots from an online brokerage account * Investors' 8 biggest objections and concerns with AIM and stock options - and Jeff's responses to each of them * BONUS addition: a complete newsletter issue from JJJ Investing Services AIM provides objective, rational direction for your investments amid the chaos of the markets... If you have tried investing before and experienced anxiety or even outright fear; AIM is the firm, consistent, steady voice that says, 'Don't worry, I'll make the decisions for you...relax.' -- Jay Hamer, PhD, Psychology (from the Forward) If you want to learn how to safely and systematically increase your investment portfolio balance with long term stock options, AIM for MILLION\$ with Stock Options is the book for you. Jeffrey Weber is the Owner of JJJ Investing Services which he founded after retiring from a full career in the US Army as an auditor and management analyst. He lives in San Antonio, Texas with his wife, daughter, granddaughter, and grandson.

Montgomery Ward Catalogue of 1895 Montgomery

Ward & Co.,Montgomery Ward,1969-08-01 Tea gowns, bleached damask, and yards of flannel and pillow-case lace, stereoscopes, books of gospel hymns and ballroom gems, the New Improved Singer Sewing Machine, side saddles, anti-freezing well pumps, Windsor Stoves, milk skimmers, straight-edged razors, high-button shoes, woven cane carpet beaters, spittoons, the Studebaker Road Cart, commodes and washstands, the Fire Fly single wheel hoe, cultivator, and plow combined, flat irons, and ice cream freezers. What man, woman, or child of the 1890s could resist these offerings of the Montgomery Ward catalogue, the one book that was read avidly, year after year, by millions of Americans on farms and in small towns across the nation? The Montgomery Ward catalogue provides one of the few irrefutably accurate pictures of what life was really like in the gay nineties, for it described and illustrated almost anything that anybody could possibly need or want in the way of store-bought goods. In fact, in that pre-department store era, it was usually the only source for such goods. Imagine if Montgomery Ward had issued an illustrated catalogue in the days of Louis XIV, or Elizabeth I, or Charlemagne: what insights would we have into the daily life of the common folk, the farmers and shopkeeper, housewives and schoolchildren . . . what sources of information for historians and scholars, collectors and dealers, what models for artists and designers. In 1895, Montgomery Ward was the oldest, largest, and most representative mail-order house in the country. The brainchild of a former traveling salesman, it issued its first catalogue in 1872, a one-page listing of items. By 1895, the catalogue, reprinted here, had grown to 624 pages and listed some 25,000 items, almost all of them illustrated with live drawings. Montgomery Ward was by then a multi-million dollar business that profoundly

affected the American economy; and since it reached the most isolated farms and backwoods cabins, its effect on American culture was almost as great. Now once again available, it is our truest, most unbiased record of the spirit of the 1890s. An introduction on the history of the Montgomery Ward Company and its catalogue has been prepared especially for this edition by Boris Emmet, Ph.D. (Johns Hopkins), a foremost expert on retail merchandising. His monumental work *Catalogues and Counters* has long been recognized as a landmark in the study of American economic history.

One Up On Wall Street Peter Lynch,John Rothchild,2000-04-03 THE NATIONAL BESTSELLING

BOOK THAT EVERY INVESTOR SHOULD OWN Peter Lynch is America's number-one money manager. His mantra: Average investors can become experts in their own field and can pick winning stocks as effectively as Wall Street professionals by doing just a little research. Now, in a new introduction written specifically for this edition of *One Up on Wall Street*, Lynch gives his take on the incredible rise of Internet stocks, as well as a list of twenty winning companies of high-tech '90s. That many of these winners are low-tech supports his thesis that amateur investors can continue to reap exceptional rewards from mundane, easy-to-understand companies they encounter in their daily lives. Investment opportunities abound for the layperson, Lynch says. By simply observing business developments and taking notice of your immediate world -- from the mall to the workplace -- you can discover potentially successful companies before professional analysts do. This jump on the experts is what produces tenbaggers, the stocks that appreciate tenfold or more and turn an average stock portfolio into a star performer. The former star manager of Fidelity's multibillion-dollar Magellan Fund, Lynch reveals how he achieved his spectacular record. Writing with John Rothchild, Lynch offers easy-to-follow directions for sorting out the long shots from the no shots by reviewing a company's financial statements and by identifying which numbers really count. He explains how to stalk tenbaggers and lays out the guidelines for investing in cyclical, turnaround, and fast-growing companies. Lynch promises that if you ignore the ups and downs of the market and the endless speculation about interest rates, in the long term (anywhere from five to fifteen years) your portfolio will reward you. This advice has proved to be timeless and has made *One Up on Wall Street* a number-one bestseller. And now this classic is as

valuable in the new millennium as ever.
