Caring for People who Sniff Petrol Or Other Volatile Substances National Health and Medical Research Council (Australia),2011 These guidelines provide recommendations that outline the critical aspects of infection prevention and control. The recommendations were developed using the best available evidence and consensus methods by the Infection Control Steering Committee. They have been prioritised as key areas to prevent and control infection in a healthcare facility. It is recognised that the level of risk may differ according to the different types of facility and therefore some recommendations should be justified by risk assessment. When implementing these recommendations all healthcare facilities need to consider the risk of transmission of infection and implement according to their specific setting and circumstances.

Understanding Cybercrime United Nations Publications,2017-07-31 Cyber attacks are on the rise. The media constantly report about data breaches and increasingly sophisticated cybercrime. Even governments are affected. At the same time, it is obvious that technology alone cannot solve the problem. What can countries do? Which issues can be addressed by policies and legislation? How to draft a good law? The report assists countries in understanding what cybercrime is about, what the challenges are in fighting such crime and supports them in drafting policies and laws.

Lion vs. Tiger Jon Alan,2018-10-23 It's fight time for the lion and the tiger! One animal is The King of Beasts, and the other animal is The Stealthy Slayer. Both fighters show bursts of speed. But which one will be crowned champion of the Big Cat Brawl?

Krsna Consciousness His Divine Grace A. C. Bhaktivedanta Swami Prabhupada, Although there are many types of yoga practice, the Vedic literature explains that no matter which practice you choose, success is only achieved when bhakti is present. What is bhakti-yoga, and how can you add it to your life or your current yoga practice? As bhakti is a pivotal element in any yogic or religious practice, it is known as the topmost yoga. In the Bhagavad-gita, Krishna explains bhakti-yoga to his dear friend Arjuna, and here Srila Prabhupada expands these concepts in this introductory text.

Teachings of Lord Caitanya His Divine Grace A. C. Bhaktivedanta Swami Prabhupada, 1980 A Summary Study of Sri Chaitanya-charitamrita Taking the role of His own devotee, Lord Sri Krishna appeared as Sri Krishna Chaitanya about five centuries ago in Bengal, India, and began a great social and spiritual revolution that has profoundly affected the lives of millions worldwide. The Transnational Dimension of Cyber Crime and Terrorism Seymour E. Goodman, Abraham D. Sofaer, 2013-11-01 In December 1999, more than forty members of government, industry, and academia assembled at the Hoover Institution to discuss this problem and explore possible countermeasures. The Transnational Dimension of Cyber Crime and Terrorism summarizes the conference papers and exchanges, addressing pertinent issues in chapters that include a review of the legal initiatives undertaken around the world to combat cyber crime, an exploration of the threat to civil aviation, analysis of the constitutional, legal, economic, and ethical constraints on use of technology to control cyber crime, a discussion of the ways we can achieve security objectives through international cooperation, and more. Much has been said about the threat posed by worldwide cyber crime, but little has been done to protect against it. A transnational response sufficient to meet this challenge is an immediate and compelling necessity—and this book is a critical first step in that direction.

Peace through Tourism Lynda-ann Blanchard, Freya Higgins-Desbiolles, 2013-08-15 Peace through tourism refers to a body of analysis which

suggests tourism may contribute to cross-cultural understanding, tolerance and even peace between communities and nations. What has been largely missing to date is a sustained critique of the potential and capacities of tourism to foster global peace. This timely volume fills this void, by providing a critical look at tourism in order to ascertain its potential as a social force to promote human rights, justice and peace. It presents an alternative characterisation of the possibilities for peace through tourism: embedding an understanding of the phenomenon in a deep grounding in multi-disciplinary perspectives and envisioning tourism in the context of human rights, social justice and ecological integrity. Such an approach engages the ambivalence and dichotomy of views held on peace tourism by relying on a pedagogy of peace. It integrates a range of perspectives from scholars from many disciplinary backgrounds, non-governmental organisations (NGOs), tourism industry operators and community, all united by an interest in critical approaches to understanding peace through tourism. Additionally diverse geo-political contexts are represented in this book from the USA, India, Japan, Israel, Palestine, Kenya, the Koreas, Indonesia, East Timor and Indigenous Australia. Written by leading academics, this groundbreaking book will provide students, researchers and academics a sustained critique of the potential and capacities of tourism to foster global peace.

The Analyst in the Inner City, Second Edition Neil Altman, 2011-08-24 In 1995, Neil Altman did what few psychoanalysts did or even dared to do: He brought the theory and practice of psychoanalysis out of the cozy confines of the consulting room and into the realms of the marginalized, to the very individuals whom this theory and practice often overlooked. In doing so, he brought together psychoanalytic and social theory, and examined how divisions of race, class and culture reflect and influence splits in the developing self, more often than not leading to a negative self image of the other in an increasingly polarized society. Much like the original, this second edition of *The Analyst in the Inner City* opens up with updated, detailed clinical vignettes and case presentations, which illustrate the challenges of working within this clinical milieu. Altman greatly expands his section on race, both in the psychoanalytic and the larger social world, including a focus on whiteness which, he argues, is socially constructed in relation to blackness. However, he admits the inadequacy of such categorizations and proffers a more fluid view of the structure of race. A brand new section, *Thinking*

Systemically and Psychoanalytically at the Same Time, examines the impact of the socio-political context in which psychotherapy takes place, whether local or global, on the clinical work itself and the socio-economic categories of its patients, and vice-versa. Topics in this section include the APA's relationship to CIA interrogation practices, group dynamics in child and adolescent psychotherapeutic interventions, and psychoanalytic views on suicide bombing. Ranging from the day-to-day work in a public clinic in the South Bronx to considerations of global events far outside the clinic's doors (but closer than one might think), this book is a timely revision of a groundbreaking work in psychoanalytic literature, expanding the import of psychoanalysis from the centers of analytical thought to the margins of clinical need.

Targeting STAT3 and STAT5 in Cancer Richard Moriggl, Patrick T Gunning, György Miklós Keserü, 2020-09-15 Every minute, 34 new patients are diagnosed with cancer globally. Although over the past 50 years treatments have improved and survival rates have increased dramatically for several types of cancers, many remain incurable. Several aggressive types of blood and solid cancers form when mutations occur in a critical cellular signaling pathway, the JAK-STAT pathway; (Janus Kinase-Signal Transducer and Activator of Transcription). Currently, there are no clinically available drugs that target the oncogenic STAT3/5 proteins in particular or their Gain of Function hyperactive mutant products. Here, we summarize targeting approaches on STAT3/5, as the field moves towards clinical applications as well as we illuminate on upstream or downstream JAK-STAT pathway interference with kinase inhibitors, heat shock protein blockers or changing nuclear import/export processes. We cover the design paradigms and medicinal chemistry approaches to illuminate progress and challenges in understanding the pleiotropic role of STAT3 and STAT5 in oncogenesis, the microenvironment, the immune system in particular, all culminating in a complex interplay towards cancer progression.

Animal Law in Australia Deborah Cao, Katrina Sharman, Steven White, 2023 Animal law continues to grow as a branch of legal studies, with animal law courses increasing in popularity across Australian universities. In this edition all the chapters have been substantially revised and a new Chapter 10 has been added focusing on the treatment of animals used in sport and entertainment. Legislation from all the jurisdictions has been updated together with new case law relating to animals in Australia. The updated bibliography ensures students are aware of the most significant developments in the discourse relating to animal welfare. The third edition of Animal Law in Australia has been written for university law students undertaking animal law, animal welfare, animal rights or human- animal relationships courses; and is relevant for academics interested in animal welfare and the environment in

general; lawyers who are interested in animal welfare and the environment; animal advocates; and general readers with an interest in animal welfare.--
