The Direct Mail Solution Craig Simpson, Dan Kennedy, 2014-01-28 Fact: More commerce and wealth is created by direct mail than by any other media (true before the internet and true now) Reported in 2013 as the marketing channel that delivers the best ROI for customer acquisition and retention by Target Marketing's Seventh Annual Media Usage Forecast survey of B2C, direct mail is surprisingly outdated and under-represented on the marketing bookshelves for small business owners – authors Simpson and Kennedy change that. Millionaire-maker Dan S. Kennedy and direct mail marketing specialist Craig Simpson urge small business owners to drive the momentum built via social media and other marketing avenues into the mailboxes of their target consumers. Unlike other direct mail marketing books on the shelf that specialize in one aspect of preparing a campaign such as copywriting or design, this comprehensive solution covers all – the organizational, technical, and creative including designing, budgeting, tracking, and assessing effectiveness. Also covered is how direct mail can be used in today's online marketing funnels. Benefiting from the authors' combined 30 years in direct marketing, business owners are given the guidelines for what works and what doesn't, illustrated by real-life business campaigns that show step-by-step how to build a results-producing promotional campaign.

Sum David Eagleman, 2009-02-10 At once funny, wistful and unsettling, *Sum* is a dazzling exploration of unexpected afterlives—each presented as a vignette that offers a stunning lens through which to see ourselves in the here and now. In one afterlife, you may find that God is the size of a microbe and unaware of your existence. In another version, you work as a background character in other people's dreams. Or you may find that God is a married couple, or that the universe is running backward, or that you are forced to live out your afterlife with annoying versions of who you could have been. With a probing imagination and deep understanding of the human condition, acclaimed neuroscientist David Eagleman offers wonderfully imagined tales that shine a brilliant light on the here and now.

The Power of a System John Fisher, 2014-01-06 What if you had total control over your hours and weekends? What if you didn't have to answer to anyone? What if you took control over your future? When you work for someone else, you don't control your future. Your boss decides how much money you make and how many hours you work. For many, the law is just a job that you do to make ends meet and pay the bills. It's time to change that. It's not just about work and money. It's about loving what you do and looking forward to coming to work. It's about spending time with your family and living a fun life. It's time you make the rules. For the first time, you have in your hands the technical, managerial and entrepreneurial secrets to running a multi-million dollar law firm. Tried and true methods for managing and growing the injury law firm of your dreams is now in your hands--precise methods that, when applied, will slowly but surely grow your law firm into an asset that serves your ideal lifestyle. Who said you have to be a slave to your law practice? IT'S TIME TO BREAK ALL OF THE RULES so you have the one thing that all lawyers should seek: autonomy to live life on your terms. THE POWER OF A SYSTEM Torts, contracts, constitutional law...you got your fill in law school of theoretical concepts that you need to pass the bar exam. But then a funny thing happened, you got out of law school, opened your new law firm and you

realized something--no one ever taught you how to run your own law firm in law school. Suddenly, you're on your own with fancy new letterhead, a few clients and not much else. Your dusty law school books aren't much help. It's great to have your book smarts and fancy law degree but how do you pay the bills every Friday when your staff wants their paycheck? You pull your hair out wondering how you got yourself into this mess. This book was written for you. You are not alone. Yes, others have done the same thing before you and believe it or not, there are tried and proven recipes for success. Instead of fumbling around like the other lawyers in your town and just waiting for your phone to ring with your next case, you study the recipe and principles for a big-time injury law firm and little by little you begin implementing systems into your new law firm. You have in your hands tried and proven systems for the injury law firm of your dreams. It's not just the technical aspects of running your own law firm, but the managerial and entrepreneurial principles that you must have to keep a constant stream of new cases and clients coming down the pipe. And no, these are not law school theoretical concepts but the technical, managerial and entrepreneurial how to steps that have been tried and tested over years of trial and error. You won't find a book like this in your law school library...or anywhere else. Law school's out--no more time for theoretical concepts--it's time to get bills paid, move cases to trial, start making money and begin living life on your terms. All royalties from the sale of this book are donated to Doc to Dock, Inc., an amazing nonprofit organization based in New York that collects unused and unwanted medical supplies from around the country and ships them to hospitals and clinics in impoverished Third World nations in Africa and Haiti. Every day tons of unused medical supplies and equipment are incinerated or tossed into landfills in the U.S. Rather than letting the unused medical supplies go to waste, Doc to Dock, Inc. collects the donated medical supplies consisting of basic medical devices such as catheters and ultrasound machines, and transports them to developing countries where they are needed the most. Doc to Dock, Inc. has provided shipments to 18 different countries in the poorest regions of sub-Saharan Africa and has made a huge difference in preventing very curable and basic illnesses that are often life-threatening in Africa due to their lack of medical supplies.
