Marketing on a Shoestring Budget Deborah Pitel,2016-04-08 Here's a one-stop marketing guide just for small museums and historic sites. In an age when many local historical associations and museums take money from their marketing budget because resources are tight, which can start a vicious cycle of reduced marketing reach, lower visitation, and then even less money for marketing, this guide will help those who need it the most expand their marketing reach as inexpensively as possible. In Marketing on a Shoestring Budget, Deborah Pitel covers the pros and cons of each promotional tool so they can judge what is best for their organization. She writes specifically for colleagues who have no formal marketing training and have to work off the "trial and error" method.

E-Zine Publishing Mastery Anthony

Ekanem, 2016-06-22 E-zine publishing is an online magazine. Much like in real life, it is simply a magazine that is delivered in a digital form. Most of the E-zines today are targeted towards Internet distribution and is meant to promote a website. Normally, an E-zine usually caters to a particular niche or topic. It could be anything from 'How to make money online' to 'How to train your pet'. E-zines are distributed to their subscribers normally through e-mail. Normally people send E-zines to be published on a consistent, pre-planned basis. For example, an e-mail will be sent out every day, every three days, weekly, biweekly or monthly. These E-zines are distributed using an autoresponder. An autoresponder is programmed for every subscriber to receive the e-mails in a chronological format in a sequential order. This is the biggest difference between an E-zine and its offline counterpart. An E-zine can send previous issues anytime regardless of when the subscriber has opted in to the E-zine. The autoresponder will do its job of follow-up from the day the subscriber has opted in and will follow through until its 'run' is exhausted. Today, the majority of E-zines are website driven. It would be a surprising fact to know that the first E-zines were delivered on an electronic format such as CD-ROM and delivered to the subscriber's house by mail. That was in the 'stone

age' when the power of e-mails and autoresponders were not realized yet. But now, the majority of the formats stick with e-mails or they send out notifications (or updates) in conjunction with websites or blogs. The e-mail usually contains the issue itself or a summarized format that ultimately links back to the original website for the main cheese.
