Hard-Boiled Wonderland and the End of the World Haruki Murakami,2011-08-17 In this hyperkinetic and relentlessly inventive novel, Japan's

most popular (and controversial) fiction writer hurtles into the consciousness of the West. *Hard-Boiled Wonderland and the End of the World* draws readers into a narrative particle accelerator in which a split-brained data processor, a deranged scientist, his shockingly undemure granddaughter, Lauren Bacall, Bob Dylan, and various thugs, librarians, and subterranean monsters collide to dazzling effect. What emerges is simultaneously cooler than zero and unaffectedly affecting, a hilariously funny and deeply serious meditation on the nature and uses of the mind. From the Trade Paperback edition.

A True Wonder Kirsten W. Larson,2021-09-28 A behind-the-scenes look at the creation and evolution of Wonder Woman, the iconic character who has inspired generations of girls and women as a symbol of female strength and power. Perhaps the most popular female superhero of all time, Wonder Woman was created by Bill Marston in 1941, upon the suggestion of his wife, Elizabeth. Wonder Woman soon showed what women can do—capture enemy soldiers, defeat criminals, become president, and more. Her path since has inspired women and girls while echoing their ever-changing role in society. Now a new group of devoted young fans enjoy her latest films, *Wonder Woman* and *Wonder Woman 1984*, and await a third installment being planned for theatrical release. This exceptional book raises up the many women who played a part in her evolution, from Elizabeth Marston to writer Joye Hummel to director Patty Jenkins, and makes clear that the fight for gender equality is still on-going.

European Drawings 2 George R. Goldner, Lee Hendrix, Kelly Pask,1992-10-08 The Getty Museum's collection of drawings was begun in 1981 with the purchase of a Rembrandt nude and has since become an important repository of European works from the fifteenth through the nineteenth century. As in the first volume devoted to the collection (published in 1988 in English and Italian editions), the text is here organized first by national school, then alphabetically by artist, with individual works arranged chronologically. For each drawing, the authors provide a discussion of the work's style, dating, iconography, and relationship to other works, as well as provenance and a complete bibliography.

The Optical Unconscious Rosalind E. Krauss,1994-07-25 *The Optical Unconscious* is a pointed protest against the official story of modernism and against the critical tradition that attempted to define modern art according to certain sacred commandments and self-fulfilling truths. The account of modernism presented here challenges the vaunted principle of vision itself. And it is a very different story than we have ever read, not only because

its insurgent plot and characters rise from below the calm surface of the known and law-like field of modernist painting, but because the voice is unlike anything we have heard before. Just as the artists of the optical unconscious assaulted the idea of autonomy and visual mastery, Rosalind Krauss abandons the historian's voice of objective detachment and forges a new style of writing in this book: art history that insinuates diary and art theory, and that has the gait and tone of fiction. The Optical Unconscious will be deeply vexing to modernism's standard-bearers, and to readers who have accepted the foundational principles on which their aesthetic is based. Krauss also gives us the story that Alfred Barr, Meyer Shapiro, and Clement Greenberg repressed, the story of a small, disparate group of artists who defied modernism's most cherished self-descriptions, giving rise to an unruly, disruptive force that persistently haunted the field of modernism from the 1920s to the 1950s and continues to disrupt it today. In order to understand why modernism had to repress the optical unconscious, Krauss eavesdrops on Roger Fry in the salons of Bloomsbury, and spies on the toddler John Ruskin as he amuses himself with the patterns of a rug; we find her in the living room of Clement Greenberg as he complains about smart Jewish girls with their typewriters in the 1960s, and in colloquy with Michael Fried about Frank Stella's love of baseball. Along the way, there are also narrative encounters with Freud, Jacques Lacan, Georges Bataille, Roger Caillois, Gilles Deleuze, and Jean-François Lyotard. To embody this optical unconscious, Krauss turns to the pages of Max Ernst's collage novels, to Marcel Duchamp's hypnotic Rotoreliefs, to Eva Hesse's luminous sculptures, and to Cy Twombly's, Andy Warhol's, and Robert Morris's scandalous decoding of Jackson Pollock's drip pictures as Anti-Form. These artists introduced a new set of values into the field of twentieth-century art, offering ready-made images of obsessional fantasy in place of modernism's intentionality and unexamined compulsions.

Basho Bashō Matsuo, 2008 Matsuo Basho stands today as Japan's most renowned writer, and one of the most revered. Yet despite his stature, Basho's complete haiku have never been collected under one cover. Until now. To render the writer's full body of work in English, Jane Reichhold, an American haiku poet and translator, dedicated over ten years to the present compilation. In *Barbo: The Complete Haiku* she accomplishes the feat with distinction. Dividing the poet's creative output into seven periods of development, Reichhold frames each period with a decisive biographical sketch of the poet's travels, creative influences, and personal triumphs and defeats. Supplementary material includes two hundred pages of scrupulously researched notes, which also contain a literal translation of the poem, the original Japanese, and a Romanized reading. A glossary, chronology, index of first lines, and explanation of Basho's haiku techniques provide additional background information. Finally in the spirit of Basho, elegant semi-e ink drawings by well-known Japanese artist Shiro Tsujimura front each chapter.

From Dust, a Flame Rebecca Podos, 2022-03-08 Rebecca Podos, Lambda Award-winning author of *Like Water*, returns with a contemporary Jewish fantasy of enduring love, unfathomable loss, and the power of stories to hold us together when it seems that nothing else can. Hannah's whole life has been spent in motion. Her mother has kept her and her brother, Gabe, on the road for as long as she can remember, leaving a trail of rental homes and faded relationships behind them. No roots, no family but one another, and no explanations. All that changes on Hannah's seventeenth birthday when she wakes up transformed, a pair of golden eyes with knife-slit pupils blinking back at her from the mirror—the first of many such impossible mutations. Promising that she knows someone who can help, her mother leaves Hannah and Gabe behind to find a cure. But as the days turn to weeks and their mother doesn't return, they realize it's up to them to find the truth. What they discover is a family they never knew and a history more tragic and fantastical than Hannah could have dreamed—one that stretches back to her grandmother's childhood in Prague under the Nazi occupation, and beyond, into the realm of Jewish mysticism and legend. As the past comes crashing into the present, Hannah must hurry to unearth their family's secrets in order to break the curse and save the people she loves most, as well as herself.

Lessons Encountered National Defense University, Joseph J. Collins, Jr. Richard D. Hooker, 2015 This volume represents an early attempt at assessing the Long War, now in its 14th year. Forged in the fires of the 9/11 attacks, the war includes campaigns against al Qaeda, major conflicts in Iraq and Afghanistan, and operations in the Horn of Africa, the Republic of the Philippines, and globally, in the air and on the sea. The authors herein treat only the campaigns in Afghanistan and Iraq, the largest U.S. efforts. It is intended for future senior officers, their advisors, and other national security decisionmakers. By derivation, it is also a book for students in joint professional military education courses, which will qualify them to work in the field of strategy. While the book tends to focus on strategic decisions and developments of land wars among the people, it acknowledges that

the status of the United States as a great power and the strength of its ground forces depend in large measure on the dominance of the U.S. Navy and U.S. Air Force in their respective domains.
