The Power of Nonviolence Richard Bartlett Gregg,2018-11-08 The Power of Nonviolence, written by Richard Bartlett Gregg in 1934 and revised in 1944 and 1959, is the most important and influential theory of principled or integral nonviolence published in the twentieth century. Drawing on Gandhi's ideas and practice, Gregg explains in detail how the organized power of nonviolence (power-with) exercised against violent opponents can bring about small and large transformative social change and provide an effective substitute for war. This edition includes a major introduction by political theorist, James Tully, situating the text in its contexts from 1934 to 1959, and showing its great relevance today. The text is the definitive 1959 edition with a foreword by Martin Luther King, Jr. It includes forewords from earlier editions, the chapter on class struggle and nonviolent resistance from 1934, a crucial excerpt from a 1929 preliminary study, a biography and bibliography of Gregg, and a bibliography of recent work on nonviolence.

Hardtack & Coffee Or The Unwritten Story Of Army Life [Illustrated Edition] John D. Billings, 2015-11-06 Contains over 200 illustrations by Medal of Honor recipient Charles W. Reed "Most histories of the Civil War focus on battles and top brass. *Hardtack and Coffee* is one of the few to give a vivid, detailed picture of what ordinary soldiers endured every day—in camp, on the march, at the edge of a booming, smoking hell. John D. Billings of Massachusetts enlisted in the Army of the Potomac and survived the conditions he recorded. The authenticity of his book is heightened by the many drawings that a comrade, Charles W. Reed, made in the field. This is the story of how the Civil War soldier was recruited, provisioned, and disciplined. Described here are the types of men found in any outfit; their not very uniform uniforms; crowded tents and makeshift shelters; difficulties in keeping clean, warm, and dry; their pleasure in a cup of coffee; food rations, dominated by salt pork and the versatile cracker or hardtack; their brave pastimes in the face of death; punishments for various offenses; treatment in sick bay; firearms and signals and modes of transportation. Comprehensive and anecdotal, *Hardtack and Coffee* is striking for the pulse of life that runs through it." -Print ed.

Declining Grammar and Other Essays on the English Vocabulary Dennis E. Baron, 1989 This book contains 25 essays about English words, and how they are defined, valued, and discussed. The book is divided into four sections. The first section, *Language Lore*, examines some of the myths and misconceptions that affect attitudes toward language--

and towards English in particular. The second section, Language Usage, examines some specific questions of meaning and usage. Section 3, Language Trends, examines some controversial trends in English vocabulary, and some developments too new to have received comment before. The fourth section, Language Politics, treats several aspects of linguistic politics, from special attempts to deal with the ethnic, religious, or sex-specific elements of vocabulary to the broader issues of language both as a reflection of the public consciousness and the U.S. Constitution and as a refuge for the most private forms of expression. Games and Rules Beat Suter, Mela Kocher, René Bauer, 2019-03-31 Why do we play games and why do we play them on computers? The contributors of »Games and Rules« take a closer look at the core of each game and the motivational system that is the game mechanics. Games are control circuits that organize the game world with their (joint) players and establish motivations in a dedicated space, a »Magic Circle«, whereas game mechanics are constructs of rules designed for interactions that provide gameplay. Those rules form the base for all the excitement and frustration we experience in games. This anthology contains individual essays by experts and authors with backgrounds in Game Design and Game Studies, who lead the discourse to get to the bottom of game mechanics in video games and the real world - among them Miguel Sicart and Carlo Fabricatore.
