New Literacies: Everyday Practices And Social Learning Lankshear, Colin,Knobel, Michele,2011-07-01 This timely new edition explores new literacies, knowledge and classroom practices in light of growing electronic information and communication techniques.

DIY Media Michele Knobel,Colin Lankshear,2010 Schools remain notorious for co-opting digital technologies to «business as usual» approaches to teaching new literacies. DIY Media addresses this issue head-on, and describes expansive and creative practices of digital literacy that are increasingly influential and popular in contexts beyond the school, and whose educational potential is not yet being tapped to any significant degree in classrooms. This book is very much concerned with engaging students in do-it-yourself digitally mediated meaning-making practices. As such, it is organized around three broad areas of digital media: moving media, still media, and audio media. Specific DIY media practices addressed in the chapters include machinima, anime music videos, digital photography, podcasting, and music remixing. Each chapter opens with an overview of a specific DIY media practice, includes a practical how-to tutorial section, and closes with suggested applications for classroom settings. This collection will appeal not only to educators, but to anyone invested in better understanding - and perhaps participating in - the significant shift towards everyday people producing their own digital media.

Sins of Sevin Penelope Ward ,2015-09-19 From the New York Times bestselling author of Stepbrother Dearest, comes a new forbidden STANDALONE romance. What happens when the one you want is the only one you can't have? It was set in stone. Elle and I were getting married. After years of rebelling against everything good and wholesome, I finally gave in and took up with a nice girl. After a long-distance relationship, I moved into her family's guesthouse so we could spend time together in the months before the wedding. Elle was unlike anyone I'd ever been with. She was so innocent, and I had to respect her choice to wait until after we were married to have sex. I'd accepted that as my fate--even learned to control my desires. Until I met her...the one. That was when restraint became a problem...especially since "the one" wasn't Elle. It was her sister, Evangeline. And I was screwed. Told in alternating points of view, Sins of Sevin is a full-length standalone novel.
