E-Business Essentials Nick Bontis,2004-09-01 This special issue of QJEC marks the final instalment of the journal. The QJEC has had a long-standing history of international scholarship focused on the emerging field of electronic commerce with a broad, interdisciplinary approach. It has established the field's intellectual foundation with state-of-the-art research from business, computer science, engineering, law, psychology, and sociology. This particular issue focuses on an eclectic group of papers that are international in scope with authors from Canada, Australia, France, Germany, South Africa and Italy. The papers range in topics from valuing dot com companies, to mobile health and portals, to supply chain management.

Nationalism and Identity Stefano Harney,1996 The nation-state of Trinidad and Tobago offers a unique case for the study of the forces and ideologies of nationalism. This book reveals how this ethnically diverse nation (40% African origin, 40-45% East Indian origin, plus those of Syrian, Chinese, Portuguese, French and English descent), independent for less than forty years, has provided fertile ground for the creative tension between the imagination of the writer in his or her search for a habitable text of identity and the official discourse on nationalism in Trinidad and Tobago. This discourse has in turn been embedded in a struggle that propels the nation's story. Following on from this background, the study examines the changes and influences on the sense of nationalism and peoplehood caused by migration and the ethnicization of migrant communities in the metropolises.
