Senkatana Sophonia Machabe Mofokeng, 2021-10-01 *Senkatana* is a tragic play adapted from Sotho folk narrative. The play is regarded as a classic of Sesotho literature. Seen as one of the greatest essayists and dramatists writing in Southern Sotho, *Senkatana* was Mofokeng's first book, published in 1952 in the African (then Bantu) Treasury Series, an imprint of Witwatersrand University Press.

Eruption in the Canyon Andrew Bennett, 2021-09-07 A revelatory, fly-on-the-wall collection of photographs and stories documenting Eddie Van Halen at work in his famed but seldom seen 5150 studio, from the 2004 reunion with Sammy Hagar through the 2007 reunion with David Lee Roth. “When kids ask me how it feels to be a rock star, I say, ‘I’m not a rock star. I’m not in it for the fame, I’m in it because I like to play.’” Eddie Van Halen A fortuitous call from a stranger in the middle of the night led to a once-in-a-lifetime assignment. The stranger was Eddie Van Halen. The assignment, as Eddie related it, was to “capture the truth. Show people how hard I work, because that’s the truth.” Having no idea where this would lead or in what form it might be shared, Andrew Bennett spent portions of the next two years relentlessly documenting everything that occurred inside Eddie’s

sanctuary: from rehearsals, recording sessions, and revealing conversations, to vicious arguments, a brotherly brawl, and a wild heist attempt in the middle of the night. Bennett memorialized every square foot of that sacred space, every piece of equipment, and every guitar—including Eddie’s beloved Frankenstrat. Featuring more than two hundred photographs, and accompanied by intimate reflections on what the author witnessed, *Eruption in the Canyon* presents an incomparable portrait of one of the most revered artists in history.

Whale Season N. M. Kelby,2006-01-17 One Christmas Eve, Whale Harbor is visited by a man who thinks he’s Jesus and claims to be looking for a game of poker. But, as usual, things are not quite what they seem. Having some version of the Lord in town for his birthday creates a strange effect on the locals: unlikely couples are breaking up and making up and making out; a luxury mobile home that

belonged to an elderly couple from New Jersey (until they disappeared after a run-in with “the Lord”) is won by a down-on-his-luck gambler in an unbelievable hand of poker; the area’s most well-known and long-forgotten tourist attraction is rising up from a hole in the ground; and a gun no one has used in years is suddenly in hot demand. In the steamy climes of southern Florida, you take your miracles where you can get them—and if that means being led to salvation by a schizophrenic with a rap sheet, so be it. In the rollicking tradition of Carl Hiaasen’s *Tourist Season*, with the heart of Garrison Keillor’s *Lake Wobegon*, and peopled by the kind of colorful characters who would be quite at home in any Tom Robbins novel, N. M. Kelby’s *Whale Season* is a sharp and funny novel made up of equal parts comic adventure and serial-killer inspired mayhem.

IMF Glossary International Monetary Fund, 2007-05-24 This seventh, revised edition of the IMF Glossary: English-French-Spanish contains approximately 4,000 records that are believed to be the most useful to translators dealing with IMF material. The main body of the Glossary consists of terms, phraseological units, and institutional titles covering areas such as macroeconomics, money and

banking, public finance, taxation, balance of payments, statistics, accounting, and economic development. It contains terminology relating to the IMF's organization and operations, as well as from the Articles of Agreement, By-Laws, Rules and Regulations, and other major IMF publications. Since the Glossary is concept-based, synonyms are consolidated into one single entry. Cross- references refer to the main entry under which the various synonyms are listed (see) and also draw the user's attention to terms that are related but not synonyms (see also). Currency units of countries and monetary unions, an IMF organizational chart in the three languages, and color-coded French and Spanish indexes are provided in appendixes.

Report of a Workshop on the Scope and Nature of Computational Thinking National Research Council, Division on Engineering and Physical Sciences, Computer Science and Telecommunications Board, Committee for the Workshops on Computational Thinking, 2010-04-20 Report of a Workshop on

the Scope and Nature of Computational Thinking presents a number of perspectives on the definition and applicability of computational thinking. For example, one idea expressed during the workshop is that computational thinking is a fundamental analytical skill that everyone can use to help solve problems, design systems, and understand human behavior, making it useful in a number of fields. Supporters of this viewpoint believe that computational thinking is comparable to the linguistic, mathematical and logical reasoning taught to all children. Various efforts have been made to introduce K-12 students to the most basic and essential computational concepts and college curricula have tried to provide a basis for life-long learning of increasingly new and advanced computational concepts and technologies. At both ends of this spectrum, however, most efforts have not focused on fundamental concepts. The book discusses what some of those fundamental concepts might be. Report of a Workshop on the Scope and Nature of Computational Thinking explores the idea that as the use of computational devices is becoming increasingly widespread, computational thinking skills should be promulgated more broadly. The book is an excellent resource for professionals in a wide range of

fields including educators and scientists.

Bodine's Chesapeake Bay Country A. Aubrey Bodine,Jennifer B. Bodine,2005 A stunning array of 286 digitally restored photographs by the great Maryland photographer chronicles life in five distinct

regions of Maryland--Baltimore and its environs, Chesapeake Bay, Eastern Shore, Southern Maryland and Annapolis, and Western Maryland--originally published in the Baltimore Sun between 1924 and 1970.

Bodine's City A. Aubrey Bodine, Jennifer B. Bodine, 2011 A. Aubrey Bodine was a Baltimore Sunday Sun feature photographer for 43 years. The 154 images displayed here were shot within a four mile radius of where he lived or worked. The subject matter of these powerful images is exclusively Baltimore, and yet this is not a Baltimore picture book. The reason these photos transcend their geographical bounds is that Bodine's subject matter varied wildly, demonstrating the versatility of Bodine as an artist. Bodine is called a pictorialist, but he is much more than that one defining label. He photographed people, animals, buildings, harsh weather conditions, textures, geometric patterns, and cityscapes, devoting his life to elevating photography to an art form. He was famous for his dark room magic. Changes to any photograph occurred in the darkroom and they were all done by hand. Open these pages and enter into the magic that is Bodine's photography.

Why I Love Singlehood Elisa Lorello, Sarah Girrell, 2011 Eva Perino is single and proud of it. So proud, in fact, that she regularly boasts about it in her blog, Why I Love Singlehood. But upon learning of her ex-boyfriend's engagement, Eva discovers her foundation is weaker than her facade. So begins a clumsy (and occasionally uproarious) search for love as she secretly joins an online dating site, tries her hand at speed dating, and gets involved with one of the regulars at her coffee shop, The Grounds. But the self-prescribed experiment quickly unravels as Eva witnesses the trials and tribulations of her best friend Minerva's marriage, her sister's suburban family, her manager Norman's possible crush on her, and the one guy she can't seem to stop thinking about. Soon, Eva's simple search for a date becomes a deeper exploration of love -- sexual, platonic, and familial -- and a powerful examination of who (or what) is the true love of her life. Sparkling with warmth and wit, *Why I Love Singlehood* is a delicious and insightful must-listen for anyone - single or otherwise - who has ever been stymied by love.
