Model Rules of Professional Conduct American Bar Association. House of Delegates,Center for Professional Responsibility (American Bar Association),2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Admissibility of Shareholder Claims under Investment Treaties Gabriel Bottini,2020-09-17 This book addresses a growing problem in international law: overlapping claims before national and international jurisdictions. Its contribution is, first, to revisit two pillars of investment arbitration, i.e., shareholders' standing to claim for harm to the company's assets and the contract/treaty claims distinction. These two ideas advance interrelated (and questionable) notions of independence: firstly, independence of shareholder treaty rights in respect of the local company's national law rights and, secondly, independence of treaty claims in respect of national law claims. By uncritically endorsing shareholder standing in indirect claims and the distinctiveness of treaty claims, investment tribunals have overlooked substantive overlaps between contract and treaty claims. The book also proposes specific admissibility criteria. As opposed to strictly jurisdictional approaches to claim overlap, the admissibility approach allows consideration of a broader range of legal reasons, such as risks of multiple recovery and prejudice to third parties.
