Natural History Dioramas - Traditional Exhibits for Current Educational Themes Annette Scheersoi,Sue Dale Tunnicliffe,2018-11-14 This book presents the history of natural history dioramas in museums, their building and science learning aspects, as well as current developments and their place in the visitor experience. From the early 1900s, with the passage of time and changes in cultural norms in societies, this genre of exhibits evolved in response to the changes in entertainment, expectations and expressed needs of museum visitors. The challenge has always been to provide meaningful, relevant experiences to visitors, and this is still the aim today. Dioramas are also increasingly valued as learning tools. Contributions in this book specifically focus on their educational potential. In practice, dioramas are used by a wide range of educational practitioners to assist learners in developing and understanding specific concepts, such as climate change, evolution or or conservation issues. In this learning process, dioramas not only contribute to scientific understanding and cultural awareness, but also reconnect wide audiences to the natural world and thereby contribute to the well-being of societies. In the simultaneously published book: "Natural History Dioramas - Traditional Exhibits for Current Educational Themes, Socio-cultural Aspects" the editors focus on socio-cultural issues and the potential of using dioramas to engage various audiences with – and in – contemporary debates and big issues, which society and the natural environment are facing.

Many of these designs took nature as their theme. Now Carolyn Relei has skillfully rendered 100 of Morris's best designs for this superb collection of stained glass motifs. Philip Larkin Janice Rossen,1989 The author explores Larkin's poetry, novels, essays and jazz criticism. She shows his transition from novelist to poet, tracing the symbolist aspect of his work in the depiction of nature and addressing the influence of Hardy and Yeats on his poetic style. She looks at Larkin's celebration of England; his exasperation over 'difficulties with girls' and to his poetic use of coarse language in complaining about life's innumerable irritations. She also discusses the fury he expresses as he contemplates death.
