Playing for the Benefit of the Band, 2013 Lee Friedlander (b. 1934) first visited the birthplace of jazz in 1957, and immediately set about photographing the aging pioneers of the art form. His love of the music and the people of New Orleans drew him back to the city, and the relationships he formed over time gave him intimate access to a scene that forged one of America's most original artistic traditions. A revised and expanded edition of his 1992 monograph *The Jazz People of New Orleans, Playing for the Benefit of the Band* features over 200 photographs taken by Friedlander between 1957 and 1982, many of which are published here for the first time. Storied figures such as Duke Ellington and Mahalia Jackson have been captured by Friedlander's disarming lens, and Sweet Emma Barrett, Sister Gertrude Morgan, Johnny St. Cyr, and other luminaries are seen in their homes and the back rooms in which they gathered to play. Also included are photographs of the city's second-line parades, whose jubilant dancing has long been a defining aspect of New Orleans jazz culture. Distributed for the Yale University Art Gallery

The Buddhist Chef Jean-Philippe Cyr, 2019-10-29 100 simply delicious vegan recipes--good for the planet, and for you--from the chef and blogger behind The Buddhist Chef. A practicing Buddhist for over two decades, Jean-Philippe Cyr, aka The Buddhist Chef, believes that everyone has the power to make their vision of the world a reality--and that the most impactful way to do that is through

the food we choose to make, eat, and share. This realization led him to veganism, which transformed his life and health. In this cookbook, he shares how to make classic dishes vegan, easy, and so delicious and show-stopping that everyone--even the pickiest of eaters--will love them. The Buddhist Chef is a collection of Jean-Philippe's best vegan recipes that will become a mainstay in vegan and non-vegan kitchens alike. The recipes are perfect for long-time vegans, those trying out a vegan diet for the first time, or those simply trying to eat more plant-based foods. Inspired by cuisines from all around the world, these recipes offer something for everyone. Enjoy breakfast and brunch recipes like Vegan Shakshuka and Maple Baked Beans, or salads and protein-packed bowls like Beet Carpaccio or Tempeh Poke Bowl. Transform your dinners with hearty mains like Eggplant Parmigiana, General Tso's Tofu, and Mushroom Poutine. Indulge in vegan desserts like Chocolate Lava Cake or have a nourishing snack like Coconut Matcha Energy Balls. With delicious recipes for every meal of the day, The Buddhist Chef is a celebration of healthy, plant-based dishes that will have everyone at the table, vegan or not, wanting more.

Societies and Nature in the Sahel Philippe Lavigne Delville, Emmanuel Gregoire, Pierre Janin, Jean Koechlin, Claude Raynaut, 2002-06-01 This book explores the links between environment and social systems in the Sahel, integrating ecological, demographic, economic, technical, social and cultural factors. Examining the conditions for land occupation and natural resource use, it offers a conceptual and practical approach to social organization and environmental management.

Hinduism for Our Times Arvind Sharma, 1996 This book examines the contours of this creative tension in the context of Hinduism in our own times. For Hinduism, a religion of unknown antiquity, is also, in several ways, surprisingly modern. Hinduism for Our Times is an attempt to raise this dimension of Hinduism to an unprecedented level of self-awareness.

Man in Adaptation William Petersen, Yehudi A. Cohen, 2022-04-13 Underlying the anthropological study of man is the principle that there is a reality to which man must adapt if he is to survive. Reproduce, and to perpetuate himself. Populations must adapt to the realities of the physical world and maintain a proper fit between their biological makeup and the pressures of the various niches of the world in which they seek to live. Social groups-where culture is found-must develop adaptive mechanisms in the organization of their social relations if there is to be order, regularity, and predictability in patterns of cooperation and competition and if they are to survive as viable units. This three-volume set of readings presents an introduction to anthropology that is unified and made systematic by focus on adaptations that have accompanied the evolution of man, from non-human primate to inhabitant of vast urban areas in modern industrial societies. Man in Adaptation: The Cultural Present introduces Cultural Anthropology also from the point of view of adaptation and provides coherence for the study of human societies from man's social beginnings to the present. The book deals sequentially with the more and more complex technologies and political and social structures that have enabled different societies to make effective use of the energy potentials in their habitats. This and the two companion volumes are the first attempt to unify the disparate subject matter of anthropology within a single and powerful explanatory framework. They incorporate the work of the most renowned anthropological experts on man, and they illuminate clearly one of the most important concepts around which one can build an investigation of the nature and scope of anthropology itself. For these reasons, they are recognized as indispensable reading for

every professional anthropologist and as perhaps the best available means of introducing new students to the field.

Interactive Multimedia in Education and Training Sanjaya Mishra, Ramesh C. Evaluating Information Systems Zahir Irani, Peter Love, 2008-05-12 The adoption of Information Technology (IT) and Information Systems (IS) represents significant financial investments, with alternative perspectives to the evaluation domain coming from both the public and private sectors. As a result of increasing IT/IS budgets and their growing significance within the development of an organizational infrastructure, the evaluation and performance measurement of new technology remains a perennial issue for management. This book offers a refreshing and updated insight into the social fabric and technical dimensions of IT/IS evaluation together with insights into approaches used to measure the impact of information systems on its stakeholders. In doing so, it describes the portfolio of appraisal techniques that support the justification of IT/IS investments. Evaluating Information Systems explores the concept of evaluation as an evolutionary and dynamic process that takes into account the ability of enterprise technologies to integrate information systems within and between organisations. In particular, when set against a backdrop of organisational learning. It examines the changing portfolio of benefits, costs and risks associated with the adoption and diffusion of technology in today's global marketplace. Finally approaches to impact assessment through performance management and benchmarking is discussed.

Ada's Algorithm James Essinger, 2014-10-14 “[Ada Lovelace], like Steve Jobs, stands at the intersection of arts and technology.—Walter Isaacson, author of *The Innovators* Over 150 years after her death, a widely-used scientific computer program was named “Ada,” after Ada Lovelace, the only legitimate daughter of the eighteenth century’s version of a rock star, Lord Byron. Why? Because, after computer pioneers such as Alan Turing began to rediscover her, it slowly became apparent that she had been a key but overlooked figure in the invention of the computer. In *Ada Lovelace*, James Essinger makes the case that the computer age could have started two centuries ago if Lovelace’s contemporaries had recognized her research and fully grasped its implications. It’s a remarkable tale, starting with the outrageous behavior of her father, which made Ada instantly famous upon birth. Ada would go on to overcome numerous obstacles to obtain a level of education typically forbidden to women of her day. She would eventually join forces with Charles Babbage, generally credited with inventing the computer, although as Essinger makes clear, Babbage couldn’t have done it without Lovelace. Indeed, Lovelace wrote what is today considered the world’s first computer program—despite opposition that the principles of science were “beyond the strength of a woman’s physical power of application.” Based on ten years of research and filled with fascinating characters and observations of the period, not to mention numerous illustrations, Essinger tells Ada’s fascinating story in unprecedented detail to absorbing and inspiring effect.

Philippians Linda L. Belleville, 2022-09-29 In this accessible and erudite commentary, the respected New Testament scholar Linda Belleville shows how Paul's letter to the Philippians provides a unique opportunity to see the similarities between the culture of his day and ours and to understand not only what is needed to cope in a hostile society but also to be bold in sharing the sole hope for our global world: knowing Christ and eternal citizenship in heaven. Philippians was written while Paul was imprisoned in the imperial barracks, awaiting the outcome of a life-or-death trial. His most beloved church was facing strong opponents without and selfish division within. Paul's strategy is to remind the church of the reasons to rejoice and forgo selfish opinion differences. There is much

cause to rejoice because, despite imprisonment, the gospel had reached the entire imperial guard and emboldened Christians everywhere to boldly proclaim Christ; even if he dies, Paul's ministry of preaching Christ will continue. Yet the Philippians' best exemplar is Christ himself, who, while enjoying his heavenly riches, willingly took on the human condition with its pain, suffering, and death so that they might gain their own heavenly riches.

The Semiotics of Subtitling Zoe De Linde, Neil Kay, 2016-04-08 Subtitling serves two purposes: to translate the dialogue of foreign language films for secondary audiences (interlingual) and to transform the soundtrack of television programmes into written captions for deaf and hard-of-hearing viewers (intralingual). While both practices have strong linguistic roots, often being compared to text translation and editing, this book reveals the complex influences arising from the audiovisual environment. Far from being simply a matter of linguistic equivalence, the authors show how the effectiveness of subtitles is crucially dependent upon the hidden semiotic relations between text and image; relations which affect the meaning of the visual-linguistic message and the way in which that message is ultimately received. Focusing primarily on intralingual subtitling, *The Semiotics of Subtitling* adopts a holistic approach, combining linguistic theory with empirical eye-movement analysis in order to explore the full depth of the medium and the reading behaviour of viewers.
