Albion's Seed David Hackett Fischer,1991-03-14 This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are Albion's Seed, no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

Running to Extremes Lisa Tamati,2013 Lisa Tamati takes on some of the world's most extreme ultraraces in an inspiring look at the reality of a long-distance runner Lisa Tamati gets asked one question more than any other: why do you do it? Here she attempts to answer that question and many more about ultramarathon running. In the past few years, Lisa has taken part in some of the most grueling races on earth. Not content with having run the Badwater Ultramarathon once, she's been back and done it a second time. She's also completed the Gobi March and a race in the Egyptian Sahara. However, none of these could have prepared her for her greatest challenge to date—La Ultra, a 138-mile, nonstop race over the two Himalayan mountain passes. This book tells the stories behind these races and provides plenty of advice for runners of all levels and distances. Filled with training tips, gear lists, information on nutrition and supplements, advice on mental preparation and, most importantly, a focus on how to keep healthy while training and racing, it will inspire and motivate runners and nonrunners alike.

Born to Run Christopher McDougall,2010-12-09 A New York Times bestseller 'A sensation ... a rollicking tale well told' - The Times At the heart of Born to Run lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes

across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

Boone's Lick Larry McMurtry,2010-06-01 Boone's Lick is Pulitzer Prize-winning author Larry McMurtry's return to the kind of story that made him famous -- an enthralling tale of the nineteenth-century west. Like his bestsellers *Lonesome Dove*, *Streets of Laredo*, *Comanche Moon*, and *Dead Man's Walk*, *Boone's Lick* transports the reader to the era about which McMurtry writes better and more shrewdly than anyone else. Told with McMurtry's unique blend of historical fact and sheer storytelling genius, the novel follows the Cecil family's arduous journey by riverboat and wagon from Boone's Lick, Missouri, to Fort Phil Kearny in Wyoming. Fifteen-year-old Shay narrates, describing the journey that begins when his Ma, Mary Margaret, decides to hunt down her elusive husband, Dick, to tell him she's leaving him. Without knowing precisely where he is, they set out across the plains in search of him, encountering grizzly bears, stormy weather, and hostile Indians as they go. With them are Shay's siblings, G.T., Neva, and baby Marcy; Shay's uncle, Seth; his Granpa Crackenthorpe; and Mary Margaret's beautiful half-sister, Rose. During their journey they pick up a barefooted priest named Father Villy, and a Snake Indian named Charlie Seven Days, and persuade them to join in their travels. At the heart of the novel, and the adventure, is Mary Margaret, whom we first meet shooting a sheriff's horse out from underneath him in order to feed her family. Forceful, interesting, and determined, she is written with McMurtry's trademark deftness and sympathy for women, and is in every way a match for the worst the west can muster. *Boone's Lick* abounds with the incidents, the excitements, and the dangers of life on the plains. Its huge cast of characters includes such historical figures as Wild Bill Hickok and the unfortunate Colonel Fetterman (whose arrogance and ineptitude led to one of the U.S. Army's worst and bloodiest defeats at the hands of the Cheyenne and Sioux) as well as the Cecil family (itself based on a real family of nineteenth-century traders and haulers). The story of their trek in pursuit of Dick, and the discovery of his second and third families, is told with brilliance, humor, and overwhelming joie de vivre in a novel that is at once high adventure, a perfect western tale, and a moving love story -- it is, in short, vintage McMurtry, combining his brilliant character portraits, his unerring sense of the west, and his unrivaled eye for the telling detail. *Boone's Lick* is one of McMurtry's richest works of fiction to date.

The Rotarian ,1950-09 Established in 1911, *The Rotarian* is the official magazine of Rotary International and is circulated worldwide. Each issue contains feature articles, columns, and departments about, or of interest to, Rotarians. Seventeen Nobel Prize winners and 19 Pulitzer Prize winners – from Mahatma Ghandi to Kurt Vonnegut Jr. – have written for the magazine.

To Live Yu Hua,2007-12-18 Originally banned in China but later named one of that nation's most influential books, a searing novel that portrays one man's transformation from the spoiled son of a landlord to a kindhearted peasant. "A work of astounding emotional power." —Dai Sijie, author of *Balzac and the Little Chinese Seamstress* From the author of *Brothers and China in Ten Words*: this celebrated contemporary classic of Chinese literature was also adapted for film by Zhang Yimou. After squandering his family's fortune in gambling dens and brothels, the young, deeply penitent Fugui settles down to do the honest work of a farmer. Forced by the Nationalist Army to leave behind his family, he witnesses the horrors and privations of the Civil War, only to return years later to face a string of hardships brought on by the ravages of the Cultural Revolution. Left with an ox as the companion of his final years, Fugui stands as a model of gritty authenticity, buoyed by his appreciation for life in this narrative of humbling power.

Invisible Man Ralph Ellison, 2016-08-18 *Invisible Man* is a milestone in American literature, a book that has continued to engage readers since its appearance in 1952. A first novel by an unknown writer, it remained on the bestseller list for sixteen weeks, won the National Book Award for fiction, and established Ralph Ellison as one of the key writers of the century. The nameless narrator of the novel describes growing up in a black community in the South, attending a Negro college from which he is expelled, moving to New York and becoming the chief spokesman of the Harlem branch of the Brotherhood, and retreating amid violence and confusion to the basement lair of the Invisible Man he imagines himself to be. The book is a passionate and witty tour de force of style, strongly influenced by T.S. Eliot's *The Waste Land*, Joyce, and Dostoevsky.

Invisible Child Andrea Elliott, 2021-10-05 PULITZER PRIZE WINNER • A “vivid and devastating” (The New York Times) portrait of an indomitable girl—from acclaimed journalist Andrea Elliott “From its first indelible pages to its rich and startling conclusion, *Invisible Child* had me, by turns, stricken, inspired, outraged, illuminated, in tears, and hungering for reimmersion in its Dickensian depths.”—Ayad Akhtar, author of *Homeland Elegies* ONE OF THE TEN BEST BOOKS OF THE YEAR: The New York Times • ONE OF THE BEST BOOKS OF THE YEAR: The Atlantic, The New York Times Book Review, Time, NPR, Library Journal In *Invisible Child*, Pulitzer Prize winner Andrea Elliott follows eight dramatic years in the life of Dasani, a girl whose imagination is as soaring as the skyscrapers near her Brooklyn shelter. In this sweeping narrative, Elliott weaves the story of Dasani’s childhood with the history of her ancestors, tracing their passage from slavery to the Great Migration north. As Dasani comes of age, New York City’s homeless crisis has exploded, deepening the chasm between rich and poor. She must guide her siblings through a world riddled by hunger, violence, racism, drug addiction, and the threat of foster care. Out on the street, Dasani becomes a fierce fighter “to protect those who I love.” When she finally escapes city life to enroll in a boarding school, she faces an impossible question: What if leaving poverty means abandoning your family, and yourself? A work of luminous and riveting prose, Elliott’s *Invisible Child* reads like a page-turning novel. It is an astonishing story about the power of resilience, the importance of family and the cost of inequality—told through the crucible of one remarkable girl. Winner of the J. Anthony Lukas Book Prize • Finalist for the Bernstein Award and the PEN/John Kenneth Galbraith Award

Guns, Germs, and Steel: The Fates of Human Societies Jared Diamond, 1999-04-17 Fascinating.... Lays a foundation for understanding human history.—Bill Gates In this artful, informative, and delightful (William H. McNeill, New York Review of Books) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and adventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, *Guns, Germs, and Steel* chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth Club of California's Gold Medal.
