Pro Data Backup and Recovery Steven Nelson, 2011-07-18 Good backup and recovery strategies are key to the health of any organization. Medium- to very-large-scale systems administrators have to protect large amounts of critical data as well as design backup solutions that are scalable and optimized to meet changing conditions. Pro Data Backup and Recovery will cover some of the more common backup applications, such as Symantec NetBackup/BackupExec, EMC NetWorker, and CommVault, but the main discussion will focus on the implementation of 21st century architectures that allow the backup software to be a “commodity” item. The underlying architecture provides the framework for meeting the requirements of data protection for the organization. This book covers new developments in data protection as well as the impact of single-instance storage upon backup infrastructures. It discusses the impact of backup and data replication, the often misapplied B2D and D2D strategies, and “tapeless” backup environments. Continuous data protection and remote replication strategies are also addressed as they are integrated within backup strategies—a very

important topic today. Learn backup solution design regardless of specific backup software Design realistic recovery solutions Take into account new data protection standards and the impact of data replication Whether you are using NetBackup, CommVault, or some other backup software, Pro Data Backup and Recovery will give you the information you need to keep your data safe and available.

Port Hazard Loren D. Estleman,2008-02-05 From a five-time Spur Award-winning author comes the latest tale of Page Murdock, which takes readers into a hell more decadent, corrupt, and dangerous than even Murdock has ever seen--San Francisco's Barbary Coast.

Wished Jen Calonita,2019-03-05 The fifth installment in the beloved Fairy Tale Reform School series where the teachers are (former) villains Be careful what you wish for... With big-time villains Rumpelstiltskin and Alva still on the loose and the citizens of Enchantasia on high alert, things at Fairy Tale Reform School have been a little...stressed. So when Maxine finds an old lamp that turns out to house an overly-enthusiastic genie, she knows exactly what to do; wish for everyone to be happy! But the wish has some unexpected consequences...suddenly, ex-villains are singing, trolls and ogres are

getting along, and the whole school is more focused on putting on a musical than figuring out how to deal with Rumpelstiltskin. Can Gilly help Maxine break the spell before it's too late? This series is perfect for read-alongs between parents and kids and engaging reluctant readers.

Shadow of a Broken Man George C. Chesbro,2017-10-31 A former circus performer and criminology professor becomes a PI in “one of the best detective novels of the year” (TheNew York Times Book Review). With a genius IQ, a past career as a circus acrobat, and a black belt in karate, criminology professor Dr. Robert Frederickson—better known as “Mongo the Magnificent”—has a decidedly unusual background for a private investigator. He also just so happens to be a dwarf. Now a detective in New York City, Mongo is hired by the widow of a famous architect to find out if her husband is really dead—because a new building just went up and it looks like his work. As Mongo begins to uncover the surprising truth, his investigation gives a whole new meaning to an architect’s façade. The intrepid sleuth will need all of his extraordinary skills to find his man without losing his own

life, as some very powerful forces want to send him back to the drawing board. With a freewheeling blend of mystery and science fiction elements, author George C. Chesbro introduces the man called Mongo, “the most engaging detective in decades” (Library Journal). Shadow of a Broken Man is the 1st book in the Mongo Mysteries, but you may enjoy reading the series in any order.

Sicilians Don't Cry Leonardo Guzzardo, 2006-04 Like in Sicilians Don't Cry, Sicilians Don't Cry II using the expression, will take you on a roller coaster ride like you have never been on before. It will make you laugh, make you cry, and pray that what happens to my twin brother Giovanni Guzzardo and I never happens to you. And again I want to state that I have lived one of the most bizarre, wildest, dangerous and tragic life any human being could have ever lived. I have been stabbed and shot before, damn near beaten to death by people with baseball bats, and being Catholic received my last rites two times. In my life I made a lot of big money, blew a lot of big money, did a lot of gambling, drank a lot of alcohol, did a lot of drugs, and from becoming a normal sex addict, I became a hardcore sadist and masochist sex addict.

Palestine on a Plate Joudie Kalla, 2019-09-17 Winner 'Best Arab Cuisine Book' - Gourmand World Cookbook Awards 2016. Palestinian food is not just found on the streets with the ka'ak (sesame bread) sellers and stalls selling za'atar chicken and mana'eesh (za'atar sesame bread), but in the home too; in the kitchens all across the country, where families cook and eat together every day, in a way that generations before them have always done. Palestine on a Plate is a tribute to family, cooking and home, made with the ingredients that Joudie's mother and grandmother use, and their grandmothers used before them. - old recipes created with love that bring people together in appreciation of the beauty of this rich heritage. Immerse yourself in the stories and culture and experience the wonderful flavours of Palestine through the food in this book.

Nothing Burns in Hell Philip Jose Farmer, 1999-11-15 This one is for fans of Quentin Tarantino and of the ever-present gratuitous violence of Robert Altman. It is a direct descendant of Mickey Spillane's Mike Hammer and the mystery action pulps epitomized by Black Mask. Philip José Farmer, now one of the great living SF writers, who has published many varieties of pulp fiction, who has written novels of

Tarzan, Doc Savage, and Oz, now turns his hand to the detective novel, with colorful, violent results. A self-obsessed private detective married to a sincere wiccan is hired to witness an illegal transfer of money in a rainy cemetery that goes bloody wrong. Chasing the bad guys, he ends up the prisoner of a gruesome threesome in their Dogpatchy cabin in the woods. His escape involves nudity, blood, death, and a terrible snapping turtle. That's how the mystery begins, leading him through all the levels of Peoria society, geography, and history. Absurdly funny things happen continually in the peripheral vision of the story. No violence is left out. Greed, venality and hatred are unleashed. Unpleasant family history is brought to light. All the sex is offstage. The body count mounts steadily, with occasional mutilations. Nothing Burns in Hell is pulp fiction at its most gorgeously excessive.
