21st Century Criminology: A Reference Handbook J. Mitchell Miller,2009-08-06 Criminology has experienced tremendous growth over the last few decades, evident, in part, by the widespread popularity and increased enrollment in criminology and criminal justice departments at the undergraduate and graduate levels across the U.S. and internationally. Evolutionary paradigmatic shift has accompanied this surge in definitional, disciplinary and pragmatic terms. Though long identified as a leading sociological specialty area, criminology has emerged as a stand-alone discipline in its own right, one that continues to grow and is clearly here to stay. Criminology, today, remains inherently theoretical but is also far more applied in focus and thus more connected to the academic and practitioner concerns of criminal justice and related professional service fields. Contemporary criminology is also increasingly interdisciplinary and thus features a broad variety of ideological orientations to and perspectives on the causes, effects and responses to crime. 21st Century Criminology: A Reference Handbook provides straightforward and definitive overviews of 100 key topics comprising traditional criminology and its modern outgrowths. The individual chapters have been designed to serve as a first-look reference source for most criminological inquires. Both connected to the sociological origins of criminology (i.e., theory and research methods) and the justice systems’ response to crime and related social problems, as well as coverage of major crime types, this two-volume set offers a comprehensive overview of the current state of criminology. From student term papers and masters theses to researchers commencing literature reviews, 21st Century Criminology is a ready source from which to quickly access authoritative knowledge on a range of key issues and topics central to contemporary criminology. This two-volume set in the SAGE 21st Century Reference Series is intended to provide undergraduate majors with an authoritative reference source that will serve their research needs with more detailed information than encyclopedia entries but not so much jargon, detail, or density as a journal article or research handbook chapter. 100 entries or mini-chapters highlight the most important topics, issues, questions, and debates any student obtaining a degree in this field ought to have mastered for effectiveness in the 21st century. Curricular-driven, chapters provide students with initial footholds on topics of interest in researching term papers, in preparing for GREs, in consulting to determine directions to take in pursuing a senior thesis, graduate degree, career, etc. Comprehensive in coverage, major sections include The Discipline of Criminology, Correlates of Crime, Theories of Crime & Justice, Measurement & Research, Types of Crime, and Crime & the Justice System. The contributor group is comprised of well-known figures and emerging young scholars who provide authoritative overviews coupled with insightful discussion that will quickly familiarize researchers, students, and general readers alike with fundamental and detailed information for each topic. Uniform chapter structure makes it easy for students to locate key information, with most chapters following a format of Introduction, Theory, Methods, Applications, Comparison, Future Directions, Summary, Bibliography & Suggestions for Further Reading, and Cross References. Availability in print and electronic formats provides students with convenient, easy access wherever they may be.

Balancing Acts Nicholas Hytner,2017-11-14 From the Tony Award and Laurence Olivier Award-winning former director of London’s National Theatre--this is a fascinating, candid, eloquent memoir about his career directing theater, producing films and opera, and working closely with some of the world’s most celebrated actors. The list of Nicholas Hytner’s accomplishments is long and distinguished: as artistic director of London’s National Theatre from 2003-2015, he directed and produced a great number of their most popular and memorable plays and musicals, many of which have come to Broadway: Carousel, Richard Bean’s One Man, Two Guvnors, David Hare’s Stuff Happens among them. He directed both the London and Broadway productions of Miss Saigon, each of which ran for ten years. He directed Alan Bennett’s The Madness of George III on both stage and screen. In short: He is one of today’s most successful and admired theatrical impresarios. In Balancing Acts, Hytner gives us a detailed behind-the-scenes look at his creative process. From reviving classic musicals and mastering Shakespeare to commissioning new plays, he shows theater making to be a necessarily collaborative exercise, and he writes insightfully about the actors and playwrights he’s worked with: Derek Jacobi, Richard Griffiths, Helen Mirren, Maggie Smith, Michael Gambon, Harold Pinter, and Tom Stoppard among them. With a cultural range that spans from The Mikado to The Lady in the Van, Balancing Acts is not only a memoir but a gathering of illuminating notes on the art of directing and a thoughtful meditation on the purpose of theater.
