Transatlantic Relations and the Great War Kurt Bednar, 2021-09-30 *Transatlantic Relations and the Great War* explores the relations between the Danube Monarchy of Austria-Hungary and the modern US democracy and how that relationship developed over decades until it ended in a final rupture. As the First World War drew to a close in late 1918, the Mid-European Union was created to fill the vacuum in Central and Eastern Europe as the old Danube Monarchy of Austria-Hungary was falling apart. One year before, in December 1917, the United States had declared war on Austria-Hungary and, overnight, huge masses of immigrants from the Habsburg Empire became enemy aliens in the US. Offering a major deviation from traditional

historiography, this book explains how the countdown of mostly diplomatic events in that fatal year 1918 could have taken an alternative course. In addition to providing a narrative account of Austrian-Hungarian relations with the US in the years leading up to the First World War, the author also demonstrates how an almost total ignorance of the affairs of the Dual Monarchy was to be found in the US and vice versa. This book is a fascinating and important resource for students and scholars interested in modern European and US history, diplomatic relations, and war studies.

FDIC Quarterly ,2009

Hungary International Monetary Fund,2005-06-29
This paper presents an update to Hungary's Financial System Stability Assessment, including a Report on the Observance of Standards and Codes on Insurance Regulation. The assessment reveals that financial intermediation in Hungary has continued to deepen. The expansion of bank lending at higher interest margins has resulted in a sharp increase in bank profitability. Although financial soundness indicators show that the banking system has evolved well overall, potential risks have

emerged, which should be carefully monitored and appropriately addressed. Nonbank financial institutions remain relatively small and are not currently a source of systemic vulnerability.
