Beautiful Creatures Kami Garcia,Margaret Stohl,2013-01-08 There were no surprises in Gatlin County. We were pretty much the epicenter of the middle of nowhere. At least, that's what I thought. Turns out, I couldn't have been more wrong. There was a curse. There was a girl. And in the end, there was a grave. Lena Duchannes is unlike anyone the small Southern town of Gatlin has ever seen, and she's struggling to conceal her power and a curse that has haunted her family for generations. But even within the overgrown gardens, murky swamps and crumbling graveyards of the forgotten South, a secret cannot stay hidden forever. Ethan Wate, who has been counting the months until he can escape from Gatlin, is haunted by dreams of a beautiful girl he has never met. When Lena moves into the town's oldest and most infamous plantation, Ethan is inexplicably drawn to her and determined to uncover the connection between them. In a town with no surprises, one secret could change everything.

The Circle Dave Eggers, 2013-10-08 INTERNATIONAL BESTSELLER • A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (Vanity Fair). When Mae Holland is hired to work for the Circle, the world’s most powerful internet company, she feels she’s been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users’ personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company’s modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can’t believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman’s ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.

The Varieties of Religious Experience: A Study in Human Nature William James,2015-09-04 The Best Nonfiction Masterpiece of the 20th Century? "There are two lives, the natural and the spiritual, and we must lose the one before we can participate in the other." - William James, *The Varieties of Religious Experience: A Study in Human Nature* The Varieties of Religious Experience: A Study in Human Nature is not a book about a specific religion. The author, psychologist Williams James does not try to convince the reader one religion is better than the other. He doesn't even make a case for atheism and the scientific approach. The book is in fact about human nature and how we experience religion at a psychological level. Xist Publishing is a digital-first publisher. Of Orcas and Men David Neiwert,2015-06-16 A journalist "convincingly spells out the threats to their survival, their misery in captivity, and what scientists can learn by studying them" (Kirkus). The orca—otherwise known as the killer whale—is one of earth's most intelligent animals. Remarkably sophisticated, orcas have languages and cultures and even long-term memories, and their capacity

for echolocation is nothing short of a sixth sense. They are also benign and gentle, which makes the story of the captive-orca industry—and the endangerment of their population in Puget Sound—that much more damning. In *Of Orcas and Men*, a marvelously compelling mix of cultural history, environmental reporting, and scientific research, David Neiwert explores an extraordinary species and its occasionally fraught relationship with human beings. Beginning with their role in myth and contemporary culture, Neiwert shows how killer whales came to capture our imaginations, and brings to life the often catastrophic environmental consequences of that appeal. In the tradition of Barry Lopez's classic *Of Wolves and Men*, David Neiwert's book is a triumph of reporting, observation, and research, and a powerful tribute to one of the animal kingdom's most remarkable members. Praise for *Of Orcas and Men* "Human beings need to learn from and understand the cooperative nature of orca society. Everyone who is interested in both animal and human behavior should read this remarkable book." —Temple Grandin, New York Times–bestselling author of *Animals in Translation* and *Animals Make Us Human* "Powerful and beautifully written." —Jane Goodall "Humans and killer whales have a long and complicated history, one that David Neiwert describes forcefully and eloquently in this fascinating and highly readable book." —David Kirby, New York Times–bestselling author of *Death at SeaWorld* "[A] breathtaking survey of orca science, folklore, and mystery." —The Stranger

Artificial Hells Claire Bishop, 2012-07-24 Since the 1990s, critics and curators have broadly accepted the notion that participatory art is the ultimate political art: that by encouraging an audience to take part an artist can promote new emancipatory social relations. Around the world, the champions of this form of expression are numerous, ranging from art historians such as Grant Kester, curators such as Nicolas Bourriaud and Nato Thompson, to performance theorists such as Shannon Jackson. Artificial Hells is the first historical and theoretical overview of socially engaged participatory art, known in the US as social practice. Claire Bishop follows the trajectory of twentieth-century art and examines key moments in the development of a participatory aesthetic. This itinerary takes in

Futurism and Dada; the Situationist International; Happenings in Eastern Europe, Argentina and Paris; the 1970s Community Arts Movement; and the Artists Placement Group. It concludes with a discussion of long-term educational projects by contemporary artists such as Thomas Hirschhorn, Tania Bruguera, Paweł Althamer and Paul Chan. Since her controversial essay in Artforum in 2006, Claire Bishop has been one of the few to challenge the political and aesthetic ambitions of participatory art. In *Artificial Hells*, she not only scrutinizes the emancipatory claims made for these projects, but also provides an alternative to the ethical (rather than artistic) criteria invited by such artworks. *Artificial Hells* calls for a less prescriptive approach to art and politics, and for more compelling, troubling and bolder forms of participatory art and criticism.
