International Electronics Directory '90 C. G. Wedgwood,2013-10-22 International Electronics Directory '90, Third Edition: The Guide to European Manufacturers, Agents and Applications, Part 1 comprises a directory of various manufacturers in Europe and a directory of agents in Europe. This book contains a classified directory of electronic products and services where both manufacturers and agents are listed. This edition is organized into two sections. Section 1 provides details of manufacturers, including number of employees, production program, names of managers, as well as links with other companies. The entries are listed alphabetically on a country-by-country basis. Section 2 provides information concerning agents or representatives, including names of manufacturers represented, names of managers, number of employees, and range of products handled. A number of these companies are also active in manufacturing and so appear in both Section 1 and Section 2. This book is a valuable resource for private consumers.

Transitioning from Librarian to Middle Manager Pixey Anne Mosley,2004-10-30 Through her unique perspective the author provides insight into the many different areas of expertise that are required in a good manager. These include how to handle cliques, how to handle the perceived or real excellence of the previous manager, how to handle difficult subordinates, and many others. The aspiring manager, or one recently promoted to management, will benefit from the sage advice offered for these and many other situations that arise from the new responsibilities of being a manager. Consider, for example, the need to establish and maintain good relationships with those above one's position and also those in positions parallel to one's own. Accomplishing this end requires recognizing that the need is there, giving careful thought to how it is to be accomplished, and then monitoring results. This book provides the recognition and the processes for success.

The Pearl Frontier Julia Martínez,Adrian Vickers,2015-05-31 Remarkable for its meticulous archival research and moving life stories, The Pearl Frontier offers a new way of imagining Australian historical connections with Indonesia. This compelling view from below of maritime mobility demonstrates how, in the colonial quest for the valuable pearl-shell, Australians came to rely on the skill and labor of Indonesian islanders, drawing them into their northern pearling trade empire. From the 1860s onward the pearl-shell industry developed alongside British colonial conquests across Australia's northern coast and prompted the Dutch to consolidate their hold over the Netherlands East Indies. Inspired by tales of pirates and priceless pearls, the pearl frontier witnessed the maritime equivalent of a gold rush; with traders, entrepreneurs, and willing workers coming from across the globe. But like so many other frontier zones it soon became notorious for its reliance on slave-like conditions for Indigenous and Indonesian workers. These allegations prompted the imposition of a strict regime of indentured labor migration that was to last for almost a century before giving way to international criticism in the era of decolonization. The Pearl Frontier invites the reader to step outside the narrow confines of national boundaries, to see seafaring peoples as a continuous population, moving and in communication in spite of the obstacles of politics, warfare, and language. Instead of the mythologies of racial purity, propagated by settler colonies and European empires, this book dissects the social and economic life of the port cities

around the Australian-Indonesian maritime zone and lays open the complex, cosmopolitan relationships which shaped their histories and their present situations. Julia Martínez and Adrian Vickers bring together their expertise on Australian and Indonesian history to challenge the isolationist view of Australia's past. This book explores how Asian migration and the struggle against the restrictive White Australia policy left a rich legacy of mixed Asian-Indigenous heritage that lives on along Australia's northern coastline. This book is an important contribution to studies of the coastal, or Pasisir, culture of Southeast Asia, that situates the local cultures in a regional context and demonstrates how Indonesian maritime peoples became part of global migration flows as indentured laborers. It offers a hitherto untold story of Indonesian diaspora in Australia and reveals a degree of Indian-Pacific interconnectedness that forces us to rethink the construction of regional boundaries and national borders.

Computation in Bioinformatics Anand T. Krishnan,S. Balamurugan,Dinesh Goyal,Balakumar Chandrasekaran,Boomi Pandi,2021-10-05

COMPUTATION IN BIOINFORMATICS Bioinformatics is a platform between the biology and information technology and this book provides readers with an understanding of the use of bioinformatics tools in new drug design. The discovery of new solutions to pandemics is facilitated through the use of promising bioinformatics techniques and integrated approaches. This book covers a broad spectrum of the bioinformatics field, starting with the basic principles, concepts, and application areas. Also covered is the role of bioinformatics in drug design and discovery, including aspects of molecular modeling. Some of the chapters provide detailed information on bioinformatics related topics, such as silicon design, protein modeling, DNA microarray analysis, DNA-RNA barcoding, and gene sequencing, all of which are currently needed in the industry. Also included are specialized topics, such as bioinformatics in cancer detection, genomics, and proteomics. Moreover, a few chapters explain highly advanced topics, like machine learning and covalent approaches to drug design and discovery, all of which are significant in pharma and biotech research and development. Audience Researchers and engineers in computation biology, information technology, bioinformatics, drug design, biotechnology, pharmaceutical sciences.
