Black Brands Fernando Olivares,2019-07-01 Who manufactures cereal for Kellogg's? Why are the Mercedes Smart and the Renault Twingo almost identical? Do Danone and Nestlé really manufacture everything they make us believe they manufacture? Is Zara an opaque or a transparent brand? Why do some companies claim "we do not manufacture for other brands" when yet they hide from us the fact that sometimes "other brands manufacture for them"? The number of companies outsourcing the whole of their production for their brands in an opaque manner is constantly increasing while they disregard the legitimate need for information and communication of the general public and consumers. Paradoxically, in this age of transparency opacity is ever growing among well-known brands in every industrial sector. Black Brands (in the Age of Transparency) is an extraordinary piece of work on truths and lies, on transparency and opacity of leading companies and brands in our age. The book is full of relevant cases never discussed before in sectors such as consumer products, baby foods, fashion, vehicles and mobile phones. Insightful and incisive, Fernando Olivares has directed his team to produce this book that will educate us as citizens and consumers. Their goal is to promote honest transparency -the only way to attain corporate legitimacy and sustainability in our time.

The Zero Cost Business Operations Manual Walt F.J. Goodridge, It's often declared smugly by people who believe they are sharing one of the indisputable truths of life that it takes money to make money. That bit of everybody knows conventional wisdom is absolutely not true, and often cripples potential entrepreneurs before they even attempt acting upon what could be a winning idea. Not only can you start a business with zero dollars, I have documented success helping my clients make money even before they have a finished product or before they have spent a single penny launching their business or marketing their product! There are only two proven strategies for business success: (1) earn more, (2) spend less. Many business advisers will spend an inordinate amount of time focusing on how to generate more and more sales while ignoring the complementary strategy of spending less! In the internet age, I can assure you that just about everything--every product or service imaginable--that has a price tag attached to it, also has a zero-cost option. What I offer

my clients are the most cost effective (i.e., cheapest) options available for entrepreneurs who don't have a lot of money to spend, or who are simply chronically cheap, like me! In this report, I'm going to share with you the tools of my trade: the resources, websites, services and software that allow me to write, design and publish my books, design and code websites, succeed at SEO, and generate sales--all for \$0 or very close to it! (Except where footnoted, I never suggest anything I've not personally tested, tried or benefited from)

Guerrilla Publishing Derek Murphy, 2017-01-24 TRAIN THE INTERNET TO SELL BOOKS FOR YOU Book marketing doesn't need to be an exhausting hamster wheel of promotion and publicity. Put your book sales on autopilot... so you can focus on writing your next bestseller. FAST AND EFFECTIVE BOOK MARKETING This book is a crash course on some of the more creative book marketing strategies I've discovered in my first year of publishing fiction. It will provide simple, actionable, measurable steps to publishing a high quality book quickly, doing only as much marketing as is necessary to launch your book like a rock star, and keep it selling enough to support you while you write another. I only mention the things I actually use, that I know work, and ignore options that don't get results. We'll discuss paid advertising, release strategies, pricing and pre-orders, book giveaways, how to target your audience, viral exposure and press coverage, marketing hacks, and how to reach your first \$1000 on Kindle. LAUNCH BIG EVEN IF YOU'RE STARTING SMALL Guerrilla is a style of warfare intended to surprise and harass enemies. It can also mean using unconventional and usually inexpensive means to generate interest or raise concern among the public. That's basically how I'll use it: book marketing strategies from the trenches to help you win the publishing war. However, instead of surprise and harass I will focus on surprise and delight. First you need to show up and get in front of the right people. Then you need to surprise and delight them. You need to be remarkable enough to be noticed. Few authors are using these strategies (yet) so it's relatively easy to outrank your competition, get more visibility and reach new readers.
