**Developmental Psychopathology, Developmental Neuroscience** Dante Cicchetti,2016-02-29 The complete reference of biological bases for psychopathology at any age Developmental Psychopathology is a four-volume compendium of the most complete and current research on every aspect of the field. Volume Two: Developmental Neuroscience focuses on the biological basis of psychopathology at each life stage, from nutritional deficiencies to genetics to functional brain development to evolutionary perspectives and more. Now in its third edition, this comprehensive reference has been fully updated to better reflect the current state of the field, and detail the newest findings made possible by advances in technology and neuroscience. Contributions from expert researchers and clinicians provide insight into brain development, molecular genetics methods, neurogenetics approaches to pathway mapping, structural neuroimaging, and much more, including targeted discussions of specific disorders. Advances in developmental psychopathology have burgeoned since the 2006 publication of the second edition, and keeping up on the latest findings in multiple avenues of investigation can be burdensome to the busy professional. This series solves the problem by collecting the information into one place, with a logical organization designed for easy reference. Consider evolutionary perspectives in developmental psychopathology Explore typical and atypical brain development across the life span Examine the latest findings on stress, schizophrenia, anxiety, and more Learn how genetics are related to psychopathology at different life stages The complexity of a field as diverse as developmental psychopathology deepens with each emerging theory, especially with consideration of the rapid pace of neuroscience advancement and genetic discovery. Developmental Psychopathology Volume Two: Developmental Neuroscience provides an invaluable resource by compiling the latest information into a cohesive, broad-reaching reference.

La responsabilité des gouvernants Olivier Beaud,1999 La 4ème de couverture indique : La responsabilité des gouvernants est devenue le problème central de notre vie politique. Hier, le substantif responsabilité renvoyait au verbe assumer et signifiait aussi bien la prise d'un pouvoir que la nécessité, par ce fait, de rendre des comptes. Mais, depuis quelque temps, la notion de responsabilité politique s'est diluée. Ce phénomène a suscité, une réaction, aussi passionnelle politiquement que désastreuse juridiquement : l'émergence d'une responsabilité pénale qui vient compenser le vide laissé par la responsabilité politique. Dans, cet ouvrage, les auteurs tentent de cerner, d'un point de vue historique, politique et juridique les tenants et les aboutissants de cette situation et dessinent les voies d'un renouveau de la responsabilité politique.
