Nuclear Science Abstracts ,1969 NSA is a comprehensive collection of international nuclear science and technology literature for the period 1948 through 1976, pre-dating the prestigious INIS database, which began in 1970. NSA existed as a printed product (Volumes 1-33) initially, created by DOE's predecessor, the U.S. Atomic Energy Commission (AEC). NSA includes citations to scientific and technical reports from the AEC, the U.S. Energy Research and Development Administration and its contractors, plus other agencies and international organizations, universities, and industrial and research organizations. References to books, conference proceedings, papers, patents, dissertations, engineering drawings, and journal articles from worldwide sources are also included. Abstracts and full text are provided if available.

The Baghdad Pact Behcet Kemal Yesilbursa,2005-07-08 This book explores the formation of the Baghdad Pact and Anglo-American defence policies in the Middle East, 1950-1959. It determines the aims with which the pact was established; the failings of the pact, and the struggle that was undertaken against it by hostile countries. It examines the events surrounding the formation, development and collapse of the pact, and Anglo-American attempts to contain the Soviet Union in the Middle East. It also deals with British and American policies towards the pact and Middle Eastern defence. It seeks to examine British and American post-war defence policies in the Middle East and their collective defence projects in the region, such as the Middle East Command and Northern Tier, leading to the Baghdad Pact. It does not attempt to offer a comprehensive history of British and American policies in the Middle East, and particularly aims to explore those policies with regard to the problems of Middle East defence. In addition, it explores the policies of the local members of the pact, and examines the pact's internal structure. It poses the questions of how the members of the pact and the United States perceived the question of Middle East defence; what their basic aims were; and what problems they faced while trying to achieve these aims and implementing their chosen solutions.
