Translation and Web Searching Vanessa Enríquez Raído, 2013-11-07 The book presents a comprehensive study of various cognitive and affective aspects of web searching for translation problem solving. Research into the use of the web as an external aid of consultation has frequently occupied a secondary position in the investigation of translation processes. The book aims to bridge this gap in the literature. Beginning with a detailed survey of previous studies of these processes, it then focuses on web search behaviors using qualitative and quantitative analysis that presents a multifaceted overview of translation-oriented web searching. The book concludes by addressing the implications for the teaching of and research into translators' web searching skills. With regard to teaching, the book's didactic discussions will make it a valuable tool for both translator trainers and translation students wanting to familiarize themselves with the intricacies of Web searching and to reflect upon the pedagogical implications of the study for acquiring online information literacy in translator training.

Online Conferences Lynn Anderson, Terry Anderson, 2010-11-01 The professional conference has

been, for many years, the primary tool for continuing education and networking in many professions. Now, however, the economic and environmental costs associated with travel, and the opportunity costs associated with absence from the workplace, compel organizers, trainers and executives to weigh the costs versus the benefits of this form of professional development. Online conferences offer an effective alternative that is economical, environmentally friendly and convenient. These factors position online professional conferences as poised to emerge as a mainstream form of lifelong learning in all professions. This book looks at the elements of effective continuing professional education, the affordances of interactive technologies, and the lessons learned by experienced online conference organizers. It is designed to provide guidance and advice to those wishing to coordinate, sponsor or participate effectively in an online professional development conference. The text describes various ways in which a variety of networking technologies are being used to support successful online professional development events. Resources for conference organizers are given in the form of links to commercial and open source software, and companies providing platforms and comprehensive support for the organization of online conferences. The text contains the results of interviews with 12 organizers of the most successful online conferences to date. Finally, a list of best practices, based on the research literature, experiences of the authors and experienced online conference organizers, is presented in the final chapter.

Entwicklung eines Standardkonzepts zur Erstellung interaktiver Tutorials für die Viamedici Software GmbH Martin Uhrig, 2008-10-10 Sie haben erkannt, wie wichtig eine gute Dokumentation Ihrer Software ist? Möchten Sie nun einen Schritt weiter gehen und sich von Ihren Mitbewerbern abheben, Ihren Kunden gegenüber punkten und gleichzeitig Kosten im Support sparen? Egal, ob Sie ein kleines Unternehmen oder ein Weltkonzern sind, diese Arbeit könnte Sie interessieren. Anhand des Falles der Viamedici Software GmbH, zeigt diese Diplomarbeit die Entwicklung eines standardisierten Prozesses zur kostengünstigen und zeitsparenden Erstellung interaktiver Tutorials mit Adobe Flash und Captivate. Im genannten Fall wollte das Unternehmen, zusätzlich zur bestehenden Online-Hilfe und angebotenen Anwenderschulungen, interaktive Tutorials anbieten. Für die Texte sollten die bestehenden Inhalte aus dem Content-Management-System Author-it wiederverwendet werden. Ebenso sollte auf eine kostengünstige Lokalisierung der Tutorials in weitere Zielsprachen geachtet werden. Zu Beginn der vorliegenden Arbeit wird auf Basis von Ist- und Soll-Analysen, mediendidaktischen Untersuchungen (Zielgruppe, Lernziele und -inhalte, didaktische Struktur, Formen der Interaktivität, Lernorganisation), bewährten Normen und Gesetzen, ein grundlegendes Konzept vorgestellt. Die praktische Umsetzung wird im zweiten Teil der Arbeit beschrieben. Dieser Teil umfasst neben der Entwicklung eines Aufnahmемusters in Captivate auch die Programmierung einer intelligenten Schnittstelle mit Hilfe von ActionScript 3 in Adobe Flash. Diese dient dazu, den XML-Export des Content-Management-Systems dynamisch einzulesen und automatisch zusammen mit den in Captivate erstellten interaktiven Filmen zu präsentieren. Neben einer ausführlichen grafischen Prozessbeschreibung enthält dieses Werk auch alle Quelltexte sowie den Teil des Redaktionsleitfadens, der die standardisierte Tutorial-Erstellung beschreibt. Viele Desiderata und ein umfangreiches Quellenverzeichnis zur Vertiefung runden die Arbeit ab.

Translating Diversity Ursula Lehmkuhl, Lutz Schowalter, 2019 This volume invites the reader to participate in a discussion about how to conceptualize the mediation of difference in localities of diversity and transcultural spaces via the analytical lenses of 'translation' as a social practice. The contributions to the volume explore, discuss, and theorize 'translation' as a pre-institutionalized strategy of conflict resolution and conflict transformation as well as a driving force of cultural and

social change and as a means of knowledge production. In addition to mistranslations and untranslatabilities, the authors analyze the politics of literary translation and translation as research-creation. Contributors: Alex Demeulenaere (Trier), Stefan Dixius (Trier), Jean Friesen (Winnipeg), Ute Heidmann (Lausanne), Julia Charlotte Kersting (Saarbrücken), Judith Lamberty (Saarbrücken), Ursula Lehmkuhl (Trier), Laurence McFalls (Montréal), Geneviève Robichaud (Montréal), Robert Schwartzwald (Montréal), Madeleine Stratford (Gatineau).

Phraseology in Legal and Institutional Settings Stanislaw Goźdz-Roszkowski, Gianluca Pontrandolfo, 2017-08-07 This volume presents a comprehensive and up-to-date overview of major developments in the study of how phraseology is used in a wide range of different legal and institutional contexts. This recent interest has been mainly sparked by the development of corpus linguistics research, which has both demonstrated the centrality of phraseological patterns in language and provided researchers with new and powerful analytical tools. However, there have been relatively few empirical studies of word combinations in the domain of law and in the many different contexts where legal discourse is used. This book seeks to address this gap by presenting some of the latest developments in the study of this linguistic phenomenon from corpus-based and interdisciplinary perspectives. The volume draws on current research in legal phraseology from a variety of perspectives: translation, comparative/contrastive studies, terminology, lexicography, discourse analysis and forensic linguistics. It contains contributions from leading experts in the field, focusing on a wide range of issues amply illustrated through in-depth corpus-informed analyses and case studies. Most contributions to this book are multilingual, featuring different legal systems and legal languages. The volume will be a valuable resource for linguists interested in phraseology as well as lawyers and legal scholars, translators, lexicographers, terminologists and students who wish to pursue research in the area.
