The Financial Crisis Inquiry Report Financial Crisis Inquiry Commission,2011-05-01 From the Publisher: In the wake of the most significant financial crisis since the Great Depression, the President signed into law on May 20, 2009, the Fraud Enforcement and Recovery Act of 2009, creating the Financial Crisis Inquiry Commission. The Commission was established to examine the causes, domestic and global, of the current financial and economic crisis in the United States. The 10 members of the bi-partisan Commission, prominent private citizens with significant experience in banking, market regulation, taxation, finance, economics, housing, and consumer protection, were appointed by Congress on July 15, 2009. The Chair, Phil Angelides, and Vice Chair, Bill Thomas, were selected jointly by the House and Senate Majority and Minority Leadership. The FCIC is charged with conducting a comprehensive examination of 22 specific and substantive areas of inquiry related to the financial crisis. These include: fraud and abuse in the financial sector, including fraud and abuse towards consumers in the mortgage sector; Federal and State financial regulators, including the extent to which they enforced, or failed to enforce statutory, regulatory, or supervisory requirements; the global imbalance of savings, international capital flows, and fiscal imbalances of various governments; monetary policy and the availability and terms of credit; accounting practices, including, mark-to-market and fair value rules, and treatment of off-balance sheet vehicles; tax treatment of financial products and investments; capital requirements and regulations on leverage and liquidity, including the capital structures of regulated and non-regulated financial entities; credit rating agencies in the financial system, including, reliance on credit ratings by financial institutions and Federal financial regulators, the use of credit ratings in financial regulation, and the use of credit ratings in the securitization markets; lending practices and securitization, including the originate-to-distribute model for extending credit and transferring risk; affiliations between insured depository institutions and securities, insurance, and other types of nonbanking companies; the concept that certain institutions are 'too-big-to-fail' and its impact on market expectations; corporate governance, including the impact of company conversions from partnerships to corporations; compensation structures; changes in compensation for employees of financial companies, as compared to compensation for others with similar skill sets in the labor market; the legal and regulatory structure of the United States housing market; derivatives and unregulated financial products and practices, including credit default swaps; short-selling; financial institution reliance on numerical models, including risk models and credit ratings; the legal and regulatory structure governing financial institutions, including the extent to which the structure creates the opportunity for financial institutions to engage in regulatory arbitrage; the legal and regulatory structure governing investor and mortgagor protection; financial institutions and government-sponsored enterprises; and the quality of due diligence undertaken by financial institutions. The Commission is called upon to examine the causes of major financial institutions which failed, or were likely to have failed, had they not received exceptional government assistance. In its work, the Commission is authorized to hold hearings; issue subpoenas either for witness testimony or documents; and refer to the Attorney General or the appropriate state Attorney General any person who may have violated U.S. law in relation to the financial crisis.

How Music Got Free Stephen Witt,2016-06-14 Soon to be an Apple TV+ documentary series One of Billboard's 100 Greatest Music Books of All Time Finalist for the Los Angeles Times Book Prize, the J. Anthony Lukas Book Prize, and the Financial Times and McKinsey Business Book of the Year A New York Times Editors' Choice ONE OF THE YEAR'S BEST BOOKS: The Washington Post • The Financial Times • Slate • The Atlantic • Time • Forbes "[How Music Got Free] has the clear writing and brisk reportorial acumen of a Michael Lewis book."—Dwight Garner, The New York Times What happens when an entire generation commits the same crime? How Music Got Free is a riveting story of obsession, music, crime, and money, featuring visionaries and criminals, moguls and tech-savvy teenagers. It's about the greatest pirate in history, the most powerful executive in the music business, a revolutionary invention and an illegal website four times the size of the iTunes Music Store. Journalist Stephen Witt traces the secret history of digital music piracy, from the German audio engineers who invented the mp3, to a North Carolina compact-disc manufacturing plant where factory worker Dell Glover leaked nearly two thousand albums over the course of a decade, to the high-rises of midtown Manhattan where music executive Doug Morris cornered the global market on rap, and, finally, into the darkest recesses of the Internet. Through these interwoven narratives, Witt has written a thrilling book that depicts the moment in history when ordinary life became forever entwined with the world online—when, suddenly, all the music ever recorded was available for free. In the page-turning tradition of writers like Michael Lewis and Lawrence Wright, Witt's deeply reported first book introduces the unforgettable characters—inventors, executives, factory workers, and smugglers—who revolutionized an entire artform, and reveals for the first time the secret underworld of media pirates that transformed our digital lives. An irresistible never-before-told story of greed, cunning, genius, and deceit, How Music Got Free isn't just a story of the music industry—it's a must-read history of the Internet itself.

Appetite for Self-Destruction Steve Knopper,2009-12-15 For the first time, Appetite for Self-Destruction recounts the epic story of the precipitous rise and fall of the modern recording industry, from an author who has been writing about it for more than ten years. With unparalleled access to those intimately involved in the music world's highs and lows—including Warner Music chairman Edgar Bronfman Jr., renegade Napster creator Shawn Fanning, and more than 200 others—Steve Knopper is the first to offer such a detailed and sweeping contemporary history of the industry's wild ride through the past three decades. From the birth of the compact disc, the explosion of CD sales, and the emergence of MP3-sharing websites that led to iTunes, to the current collapse of the

industry as CD sales plummet, Knopper takes us inside the boardrooms, recording studios, private estates, garage computer labs, company jets, corporate infighting, and secret deals of the big names and behind-the-scenes players who made it all happen. Just as the incredible success of the CD turned the music business into one of the most glamorous, high-profile industries in the world, the advent of file sharing brought it to its knees, and Knopper saw it all.

Smokey Bear and the Great Wilderness Elliott Speer Barker,1982 In 1950, after a fire raged through an area in south-central New Mexico, a small bear cub was found clinging to a pine tree. The cub had suffered severe burns, and the fire fighters who rescued him were amazed that he could have survived such intense heat. So tiny he fit into a shoe box, the cub was taken to a veterinarian in Santa Fe and responded well to treatment. In time, fully recovered, he became a popular character in schools and social functions. Through the effort of Elliott S. Barker and others, the Bear was named Smokey and in time became a famous national symbol for forest fire prevention and wildlife conservation, eventually contributing to an increased awareness of the need for these measures. Also included in this book are stories about the author's experiences as Forest Supervisor, State Game Warden, and as Manager and Predator Warden for Vermejo Park in New Mexico. J. Frank Dobie said: Barker writes exactly as he talks, and his talk is genuine. He talks of deer, elk, grizzlies, and mountain lions, and of people-women as well as men-who belong to the land. Barker was of pioneer stock, his parents having arrived in Sapello, New Mexico in a covered wagon and were among the early settlers of the Northern New Mexico wilderness. He was the author of many books.
