The BeatTips Manual, 6th Edition Amir Ali Said, 2013-04-14 'The BeatTips Manual' (Amir Said) is the definitive study of the art of beatmaking (hip hop production). Brilliantly divided into five major parts - a riveting History part, an extensive Instruction (how-to) part, an insightful Interviews part, which features exclusive interviews with DJ Premier, DJ Toomp, Marley Marl, 9th Wonder and more, an explosive Music Theory part, and a Business part - 'The BeatTips Manual' is robust, detailed, and comprehensive. Containing a sharp analysis of the origins of beatmaking, as well as its key aesthetics, principles, priorities, and predilections, 'The BeatTips Manual' is an incisive look at the art of beatmaking - and an intense read. Not only the most complete examination of the hip hop/rap music process, it's also among the leading studies of hip hop culture itself. Destined to expand and transform traditional ideas about musicians, musicianship, and musical processes, 'The BeatTips Manual' is one of the most important and innovative music studies ever published.

J Dilla's Donuts Jordan Ferguson, 2014-04-24 From a Los Angeles hospital bed, equipped with little more than a laptop and a stack of records, James "J Dilla" Yancey crafted a set of tracks that would forever change the way beatmakers viewed their artform. The songs on Donuts are not hip hop music as "hip hop music" is typically defined; they careen and crash into each other, in one moment noisy and abrasive, gorgeous and heartbreaking the next. The samples and melodies tell the story of a man coming to terms with his declining health, a final love letter to the family and friends he was leaving behind. As a prolific producer with a voracious appetite for the history and mechanics of the music he loved, J Dilla knew the records that went into constructing Donuts inside and out. He could have taken them all and made a much different, more accessible album. If the widely accepted view is that his final work is a record about dying, the question becomes why did he make this record about dying? Drawing from philosophy, critical theory and musicology, as well as Dilla's own musical catalogue, Jordan Ferguson shows that the contradictory, irascible and confrontational music found on Donuts is as much a result of an artist's declining health as it is an example of what scholars call "late style," placing the album in a musical tradition that stretches back centuries.

Making Beats Joseph G. Schloss, 2014-11-20 Based on ten years of research among hip-hop producers, Making Beats was the first work of scholarship to explore the goals, methods, and values of a surprisingly insular community. Focusing on a variety of subjects—from hip-hop artists' pedagogical methods to the Afrodiasporic roots of the sampling process to the social significance of "digging" for rare records—Joseph G. Schloss examines the way hip-hop artists have managed to create a form of expression that reflects their creative aspirations, moral beliefs, political values, and cultural realities. This second edition of the book includes a new foreword by Jeff Chang and a new afterword by the author.

Hip-Hop Redemption (Engaging Culture) Ralph Basui Watkins, 2011-10-01 Hip-hop culture is experiencing a sea change today that has implications for evangelism, worship, and spiritual practices. Yet Christians have often failed to interpret this culture with sensitivity. Sociologist, preacher, pop-culture expert, and DJ Ralph Watkins understands that while there is room for a critique of mainstream hip-hop and culture, by listening more intently to the music's story listeners can hear a prophet crying out, sharing the pain of a generation that feels as though it hasn't been heard. His accessible, balanced engagement reveals what is inherently good and redeeming in hip-hop and rap music and uses that culture as a lens to open up the power of the Bible for ministry to a generation.

Bring That Beat Back Nate Patrin, 2020-06-09 How sampling remade hip-hop over forty years, from pioneering superstar Grandmaster Flash through crate-digging preservationist and innovator Madlib Sampling—incorporating found sound and manipulating it into another form entirely—has done more than any musical movement in the twentieth century to maintain a continuum of popular music as a living document and, in the process, has become one of the most successful (and commercial) strains of postmodern art. *Bring That Beat Back* traces the development of this transformative pop-cultural practice from its origins in the turntable-manning, record-spinning hip-hop DJs of 1970s New York through forty years of musical innovation and reinvention. Nate Patrin tells the story of how sampling built hip-hop through the lens of four pivotal artists: Grandmaster Flash as the popular face of the music's DJ-born beginnings; Prince Paul as an early champion of sampling's potential to elaborate on and rewrite music history; Dr. Dre as the superstar who personified the rise of a stylistically distinct regional sound while blurring the lines between sampling and composition; and Madlib as the underground experimentalist and record-collector antiquarian who constantly broke the rules of what the mainstream expected from hip-hop. From these four artists' histories, and the stories of the people who collaborated, competed, and evolved with them, Patrin crafts a deeply informed, eminently readable account of a facet of pop music as complex as it is commonly underestimated: the aesthetic and reconstructive power of one of the most revelatory forms of popular culture to emerge from postwar twentieth-century America. And you can nod your head to it.

3 Kings Zack O'Malley Greenburg, 2018-03-06 Tracing the careers of hip-hop's three most dynamic stars, this deeply reported history brilliantly examines the entrepreneurial genius of the first musician tycoons: Diddy, Dr. Dre, and Jay-Z Being successful musicians was simply never enough for the three kings of hip-hop. Diddy, Dr. Dre, and Jay-Z lifted themselves from childhood adversity into

tycoon territory, amassing levels of fame and wealth that not only outshone all other contemporary hip-hop artists, but with a combined net worth of well over \$2 billion made them the three richest American musicians, period. Yet their fortunes have little to do with selling their own albums: between Diddy's Ciroc vodka, Dre's \$3 billion sale of his Beats headphones to Apple, and Jay-Z's Tidal streaming service and other assets, these artists have transcended pop music fame to become lifestyle icons and moguls. Hip-hop is no longer just a musical genre; it's become a way of life that encompasses fashion, film, food, drink, sports, electronics and more - one that has opened new paths to profit and to critical and commercial acclaim. Thanks in large part to the Three Kings-who all started their own record labels and released classic albums before moving on to become multifaceted businessmen-hip-hop has been transformed from a genre spawned in poverty into a truly global multibillion-dollar industry. These men are the modern embodiment of the American Dream, but their stories as great thinkers and entrepreneurs have yet to be told in full. Based on a decade of reporting, and interviews with more than 100 sources including hip-hop pioneers Russell Simmons and Fab 5 Freddy; new-breed executives like former Def Jam chief Kevin Liles and venture capitalist Troy Carter; and stars from Swizz Beatz to Shaquille O'Neal, 3 Kings tells the fascinating story of the rise and rise of the three most influential musicians in America.

Beats. Bauen. Lernen. Chris Kattenbeck,2022-10-25 Zu Beginn der 1980er Jahre entsteht innerhalb der Hip-Hop-Kultur in den USA das Beatmaking – eine Musikpraxis, die auf dem kreativen Umgang mit bereits vorhandenem Klangmaterial basiert und hauptsächlich in informellen Kontexten ausgeübt wird. In den letzten 40 Jahren hat sich das Beatmaking in enger Verbindung mit musik- und medientechnologischen Entwicklungen global verbreitet und vielfältig ausdifferenziert. Dabei hat es vor allem im Bereich der populären Musik in musikalisch-ästhetischer und technisch-praktischer Hinsicht maßgebende Impulse gesetzt. In seiner qualitativ-empirischen Studie geht Chris Kattenbeck der Frage nach, was es bedeutet, als Beatmaker*in künstlerisch kompetent zu handeln, welche Fertigkeiten und Kenntnisse dafür nötig sind und wie diese erworben und entwickelt werden. Damit liefert er grundlegende Erkenntnisse über eine bislang kaum erforschte Musikpraxis und die mit ihr verbundenen künstlerischen Strategien und Techniken, ästhetischen Ziele und Vorstellungen, Wissensformen und Lernpraktiken. Dabei zeigt sich unter anderem, dass bestimmte in der Musikpädagogik vorherrschende Verständnisse – etwa von Musiklernen oder Musiktheorie – ungeeignet sind, das Beatmaking adäquat zu erfassen. Die Studie bietet daher nicht zuletzt Anlass, diese Verständnisse zu hinterfragen und neu zu konzeptualisieren, um mit der Vielfalt musikalischer Praxen in Zukunft angemessen umgehen zu können.

The Bonds of Inequality Destin Jenkins,2021-04-29 Indebtedness, like inequality, has become a ubiquitous condition in the United States. Yet few have probed American cities' dependence on municipal debt or how the terms of municipal finance structure racial privileges, entrench spatial neglect, elide democratic input, and distribute wealth and power. In this passionate and deeply researched book, Destin Jenkins shows in vivid detail how, beyond the borrowing decisions of American cities and beneath their quotidian infrastructure, there lurks a world of politics and finance that is rarely seen, let alone understood. Focusing on San Francisco, *The Bonds of Inequality* offers a singular view of the postwar city, one where the dynamics that drove its creation encompassed not only local politicians but also banks, credit rating firms, insurance companies, and the national municipal bond market. Moving between the local and the national, *The Bonds of Inequality* uncovers how racial inequalities in San Francisco were intrinsically tied to municipal finance arrangements and how these arrangements were central in determining the distribution of resources in the city. By

homing in on financing and its imperatives, Jenkins boldly rewrites the history of modern American cities, revealing the hidden strings that bind debt and power, race and inequity, democracy and capitalism.

Cloud-Based Music Production Matthew T. Shelvock, 2020-02-18 Cloud-Based Music Production: Samples, Synthesis, and Hip-Hop presents a discussion on cloud-based music-making procedures and the musical competencies required to make hip-hop beats. By investigating how hip-hop producers make music using cloud-based music production libraries, this book reveals how those services impact music production en masse. Cloud-Based Music Production takes the reader through the creation of hip-hop beats from start to finish – from selecting samples and synthesizer presets to foundational mixing practices – and includes analysis and discussion of how various samples and synthesizers work together within an arrangement. Through case studies and online audio examples, Shelvock explains how music producers directly modify the sonic characteristics of hip-hop sounds to suit their tastes and elucidates the psychoacoustic and perceptual impact of these aesthetically nuanced music production tasks. Cloud-Based Music Production will be of interest to musicians, producers, mixers and engineers and also provides essential supplementary reading for music technology courses.

Sound Pedagogy Colleen Renihan, John Spilker, Trudi Wright, 2024-02-06 Music education today requires an approach rooted in care and kindness that coexists alongside the dismantling of systems that fail to serve our communities in higher education. But, as the essayists in Sound Pedagogy show, the structural aspects of music study in higher education present obstacles to caring and kindness like the entrenched master-student model, a neoliberal individualist and competitive mindset, and classical music’s white patriarchal roots. The editors of this volume curate essays that use a broad definition of care pedagogy, one informed by interdisciplinary scholarship and aimed at providing practical strategies for bringing transformative learning and engaged pedagogies to music classrooms. The contributors draw from personal experience to address issues including radical kindness through universal design; listening to non-human musicality; public musicology as a forum for social justice discourse; and radical approaches to teaching about race through music. Contributors: Molly M. Breckling, William A. Everett, Kate Galloway, Sara Haefeli, Eric Hung, Stephanie Jensen-Moulton, Mark Katz, Nathan A. Langfitt, Matteo Magarotto, Mary Natvig, Frederick A. Peterbark, Laura Moore Pruett, Colleen Renihan, Amanda Christina Soto, John Spilker, Reba A. Wissner, and Trudi Wright
